Enlightenment C. Alexander McKinley,2008 The early years of Third French Republic 1880 1914 saw multiple political factions vying for the legacy of the French Revolution This book examines one of those factions the anarchist movement and the role played by the French Revolution in its political thought and action The French Revolution became a vital if not well recognized tool of the anarchist movement to popularize and legitimize its revolutionary activity while engaged in a struggle with other political forces of the Republic to claim ownership over the Revolutionary heritage The anarchists of the Third Republic wrote histories of the Revolution that reflected their own political orientation They asserted themselves as part of the intellectual tradition of the Enlightenment which they believed had helped spark the Revolution The anarchists appropriated the music and popular culture of the French Revolution in their own propaganda Moreover they orchestrated revolutionary action and political theatre on the day most associated with the Revolution July 14 In the Revolution the anarchists saw glimmers of hope precursors to their own movement as well as an effective means to present their message to a wider audience as they also offered models for others to imitate

In Search of the Classic Steven Shankman,2010-11 The classical Steven Shankman argues should not be confused with a particular historical period of Western antiquity although it may owe its original articulation to the literary and philosophical explorations of ancient Greek authors Shankman s book searches for and attempts to formulate the shape of the continuing presence as embodied in particular literary works mainly from Western antiquity and the neoclassical and modern periods of what the author calls a classical understanding of literature For Shankman literature defined from a classical perspective is a coherent compelling and rationally defensible representation that resists being reduced either to the mere recording of material reality or to the bare exemplification of an

abstract philosophical precept He derives his definition largely from his reading of Greek literature from Homer through Plato from the history of literary criticism and from the Greco Roman tradition in English American and French literature Shankman reveals unsuspected yet convincing connections among authors of such widely disparate times and places His idea of the classic that authorizes these connections is presented as normative thus making possible the evaluation of literary works and in turn forthright discussion of what constitutes the literary as distinct from other kinds of discourse Shankman's study runs counter to a strong tendency of contemporary criticism that argues precisely against any distinct category of the literary He offers a series of interpretations that cumulatively advance theoretical discussion by challenging scholars to rethink the critical paradigms of postmodernism At the center of the book is a discussion of the quintessentially classic Valéry poem *Le Cimetière marin* and the classic qualities it shares with Pindar's third Pythian ode from which Valéry derives the epigraph for his poem

[The Enlightenment](#) Ronald S. Love, 2008-10-30 One of the few self-named historical movements the Enlightenment in 18th century Europe was a powerful intellectual reaction to the dominance of absolutist monarchies and religious authorities Building upon the discoveries of the Scientific Revolution Enlightenment thinkers philosophes set out to improve humanity through reason knowledge and experience of the natural world rather than religious doctrine or moral absolutes Their emphasis on truth through observable phenomena set the standard of thought for the modern age deeply influencing the areas of government the modern state science technology religious tolerance and social structure The Enlightenment's legacy is particularly visible in the United States where its ideals inspired a revolution and served as the building blocks for the Declaration of Independence and the American Constitution Narrative chapters photos biographical sketches primary document excerpts and an extensive bibliography

Zalloua,2014-05-01 Drawing on literary theory and canonical French literature Reading Unruly examines unruliness as both an aesthetic category and a mode of reading conceived as ethical response Zahi Zalloua argues that when faced with an unruly work of art readers confront an ethical double bind hesitating then between the two conflicting injunctions of either thematizing making sense of the literary work or attending to its aesthetic alterity or unreadability Creatively hesitating between incommensurable demands to interpret but not to translate back into familiar terms ethical readers are invited to cultivate an appreciation for the unruly to curb the desire for hermeneutic mastery without simultaneously renouncing meaning or the interpretive endeavor as such Examining French texts from Montaigne s sixteenth century Essays to Diderot s fictional dialogue Rameau s Nephew and Baudelaire s prose poems The Spleen of Paris to the more recent works of Jean Paul Sartre s Nausea Alain Robbe Grillet s Jealousy and Marguerite Duras s The Ravishing of Lol Stein Reading Unruly demonstrates that in such an approach to literature and theory reading itself becomes a desire for more an ethical and aesthetic desire to prolong rather than to arrest the act of interpretation **A Cultural History of Ideas in the Age of**
