Origins of the Just War Rory Cox, 2023-10-31 A groundbreaking history of the ethics of war in the ancient Near East Origins of the Just War reveals the incredible richness and complexity of ethical thought about war in the three millennia preceding the Greco-Roman period establishing the extent to which ancient just war thought prefigured much of what we now consider to be the building blocks of the Western just war tradition In this incisive and elegantly written book Rory Cox traces the earliest ideas concerning the complex relationship between war ethics and justice Excavating the ethical thought of three ancient Near Eastern cultures Egyptian Hittite and Israelite he demonstrates that the history of the just war is considerably more ancient and geographically diffuse than previously assumed Cox shows how the emergence of just war thought was grounded in a desire to rationalise sacralise and ultimately to legitimise the violence of war Rather than restraining or condemning warfare the earliest ethical thought about war reflected an urge to justify state violence Cox terms this presumption in favour of war *ius pro bello* the right for war characterizing it as a meeting point of both abstract and pragmatic concerns Drawing on a diverse range of ancient sources Origins of the Just War argues that the same imperative still underlies many of the assumptions of contemporary just war thought and highlights the risks of applying moral absolutism to the fraught ethical arena of war

The Queens of Egypt Janet R. Buttles, 1908 **Revival: Egyptian Antiquities in the Nile Valley (1932)** James Baikie, 2018-03-29 This book is confined to offering a description of objects of Egyptian architecture and art in the larger sense though occasionally the importance of some exceptionally notable smaller specimen of art or craftsmanship may warrant its inclusion

Special Catalogue of the Royal Museums at Berlin Staatliche Museen zu Berlin (Germany), 1869 **Lost Tombs** Manniche, 2014-02-24 First published in 1988 The Theban private tombs form a major source for our knowledge of Egyptian society Ostensibly a great amount of work has been done in the necropolis over the past one hundred and sixty years of its modern history and the bibliography for this area is among the most extensive in Egyptology Many of the 415 or so decorated tombs have received a full publication but for a great number only selected scenes have been made available and a surprising amount remains to all intents and purposes unpublished The present study is concerned with a number of painted tombs of the Eighteenth dynasty which were visited by the early travellers but the exact location of which is now unknown The careful drawings and tracings made by these pioneers are apparently all that

remains to show the appearance of these tombs Some of the scenes represented are not found elsewhere in the necropolis and others have special points of interest or unique details linguistic iconographic and religious to offer This very important material has not previously been used by scholars and it has not been recognized that fragments of some of these vanished tombs can actually be traced to collections in museums and elsewhere **The Great Dedicatory Inscription of Ramesses II** Anthony John Spalinger, 2009 Studying Ramesses IIa TM s Dedicatory Inscription in detail allows one to connect it with the development of the Solar Osirian theology postdating the Amarna Period of Egypt This study thus links the historical background of the pharaoh TM s visit to Abydos at the very beginning of his first regnal year with the religious aspects of early Dynasty XIX Along the Nile with General Grant Elbert Eli Farman, 1904 **Along the Nile** Elbert Eli Farman, 1908
