how San Pedro came to be seen as all important to the nation's future. It was not virgin land but dominated by powerful Mexican estates that would not be dislodged easily. Yet American scientists including the great surveyor George Davidson, imperialist politicians such as Jefferson Davis and William Gwin, and hopeful land speculators among them the future Union Army general Edward Ord would wrest control of the estuary and set the scene for the violence, inequality, and engineering marvels to come. San Pedro was no place for a harbor. Tejani reveals. The port was carved in defiance of nature using new engineering techniques and massive mechanical dredgers. Business titans such as Collis Huntington and Edward H. Harriman brought their money and corporate influence to the task. But they were outmatched by government reformers laying the foundations for the port for the modern city of Los Angeles and for our globalized world. Interweaving the natural history of San Pedro into this all too human history, Tejani vividly describes how a wild coast was made into the engine of American power. A story of imperial dreams and personal ambition. *A Machine to Move Ocean and Earth* is necessary reading for anyone who seeks to understand what the United States was, what it is now, and what it will be. *The Railroad in American Fiction* Grant Burns, 2015-01-28. Nothing better represented the early spirit of American expansion than the railroad. Dominant in daily life as well as in the popular imagination, the railroad appealed strongly to creative writers. For many years, fiction of railroad life and travel was plentiful and varied. As the nineteenth century receded, the railroad's allure faded as did railroad fiction. Today it is hard to sense what the railroad once meant to Americans. The fiction of the railroad, often by railroaders themselves, recaptures that sense and provides valuable insights on American cultural history. This extensively annotated bibliography lists and discusses in 956 entries novels and short stories from the 1840s to the present in which the railroad is important. Each entry includes plot and character description to help the reader make an informed decision on the source's merit. A detailed introduction discusses the history of railroad fiction and highlights common themes such as strikes, hoboes, and the roles of women and African Americans. Such writers of pure railroad fiction as Harry Bedwell, Frank Packard, and Cy Warman are well represented along with such literary artists as Mark Twain, Thomas Wolfe, Flannery O'Connor, and Ellen Glasgow. Work by minority writers including Jean Toomer, Richard Wright, Frank Chin, and Toni Morrison also receives close attention. An appendix organizes entries by decade of publication, and the work is indexed by subject and title.

**Capital Punishment** Ron Fridell, 2004. Presents divergent viewpoints on capital punishment in the United States.
