Fairbank, 2020-10-26 Information and observations collected by the author between 1936 and 1945 on a wide array of topics including military tactics internal rivalries Mao's rise to power and the Sian incident Foreword by John King Fairbank      *Random Notes on Red China (1936-1946).* Edgar Snow, 1957      *The Nationalist Era in China, 1927-1949* Lloyd E. Eastman, 1991-08-30 In recent years historians of China have focused increased attention on the critical decades of National rule on the mainland This recent scholarship has substantially modified our understanding of the political events of this momentous period shedding light on the character of Nationalist rule and on the sources of the Communist victory in 1949 Yet no existing textbook on modern China presents the events of the period according to these new findings The five essays in this volume were written by leading authorities on the period and they synthesize the new research Drawn from Volume 13 of The Cambridge History of China they represent the most complete and stimulating political history of the period available in the literature The essays selected deal with Nationalist rule during the Nanking decade the Communist movement from 1927 to 1937 Nationalist rule during the Sino Japanese War the Communist movement during the Sino Japanese war and the Kuomintang Communist struggle from 1945 to 1949      **Mao's China and After** Maurice Meisner, 1999-04 Presents a revised account of the revolution of 1966 1969 Examines the social and political consequences of the upheaval Deng Xiaoping Democracy movement Tienanmen Incident Mao Zedong The hundred flowers Great Leap Forward      *Mao: A Biography* Ross Terrill, 1999 Everyone who came in close contact with Mao was taken aback at the anarchy of his personal ways He ate idiosyncratically He became increasingly sexually promiscuous as he aged He would stay up much of the night sleep during much of the day and at times he would postpone sleep remaining awake for thirty six hours or more until tension and exhaustion overcame him Yet many people who met Mao came away deeply impressed by his intellectual reach originality style of power within simplicity kindness toward low level staff members and the aura of respect that surrounded him at the top of Chinese politics It would seem difficult to reconcile these two disparate views of Mao But in a fundamental sense there was no brick wall between Mao the person and Mao the leader This biography attempts to provide a comprehensive account of this powerful and polarizing historical figure      **Mao's Road to Power** Stuart Schram, 2018-10-24 By 1939 Mao Zedong was a leader in the Chinese Communist Party through his political acumen his organizing energy and his executive ability At the same time his abilities to shift register to maintain a sense of the whole and also of the particular and to absorb seemingly contradictory realities in the social political and military arenas he

**Edgar Snow** John Maxwell Hamilton,2003-09-25 Edgar Snow 1905 1972 was one of the most notable Western journalists to report on China in both the revolutionary and postrevolutionary periods He first became famous in the mid 1930s when he broke through a Nationalist blockade and reached the Communists in northwest China For nearly a decade no foreign reporter had seen the Communists who were widely regarded as a ragtag bandit army Snow took them seriously as a national movement His reporting in the now famous book *Red Star over China* was major news even to the Chinese thousands of whom joined the Communists after reading it It has remained a seminal reference on the early Chinese Communist movement In this award winning biography journalist John Maxwell Hamilton follows Snow from his birth in Kansas City to his rise as a celebrated foreign correspondent for the *Saturday Evening Post* his ostracism during the cold war and his role as a singular journalistic bridge between Communist China and the United States With a new preface by the author this revealing portrait of the widely misunderstood Snow firmly establishes him as a model for the kind of committed reporting that is crucial to understanding our interdependent world

**China in Disintegration** James E. Sheridan,2008-06-30 After the 1911 fall of the Manchus came the most hideous breakdown in Chinese history Sheridan a Northwestern University scholar concentrates on the Kuomintang movement of Chiang Kai shek insisting that we judge a

political force by whether it solves the problems posed to it not as Chiang's partisans prefer by means of what if's Sheridan's focus on the KMT brings more to light than do many surveys of Mao's revolutionaries The KMT failed either to create an effective dictatorship or to mobilize fascist passions which could ensure willingness to sacrifice Thus the difficulty in squeezing enough wealth out of the peasantry to meet a foreign debt which totaled half the national revenue The KMT did ensure that forced opium production took up at least a fifth of Chinese cropland by the 1929-1933 period and they consolidated a soldier recruitment system that approximated Nazi roundups However the book underlines Chiang's failure to give the masses a Strength through Joy spirit and as wartime inflation of 300% gave way to postwar collapse the anti-Communist pitch became emptier and emptier The Kuomintang turned into a mere holding operation and faded into chaos Sheridan gives a strong sense of the rapine of the warlords who were Chiang's off and on allies and of the feeble heritage of Sun Yat-sen's patriotic platitudes He leaves out explicit investigation of the international context while underlining more than most writers Chiang's commitment to repay external debt at the expense of the Chinese people A sound and striking approach to these decades of desperation in the lives of a quarter of the human population if not bypassed in the glut of China books it may encourage students and academics to go further Kirkus Reviews [Social and Political Change in Revolutionary China](#) David S. G Goodman, 2023-06-14 This in-depth study examines the influence of the Chinese Communist Party's effective organizing in Shanxi Province during the War of Resistance Shanxi Province was on the frontlines of the 1937-1945 War of Resistance against Japan the war that launched the Chinese Communist Party During that time the Taihang Base Area of Southwest Shanxi was one of the Party's most important strongholds David Goodman provides the first county-level analysis of social and political change in the Taihang Base Area during those crucial years Goodman explores revolution as process arguing that the Party was successful because of its management of revolutionary incrementalism He examines the roles of various groups highlighting the activities of urban intellectuals teachers and peasant small holders as agents of change Based on newly available sources including recently republished materials from the Taihang Base Area restricted documentation from the Taiyuan Archive and interviews with veterans of the Taihang Base Area this meticulously researched work deepens our understanding of the social and political origins of the Chinese revolution *The Red Brush* Wilt L. Idema, Beata Grant, 2020-03-23 One of the most exciting recent developments in the study of Chinese literature has been the rediscovery of an extremely rich and diverse tradition of women's writing of the imperial period 221 B.C.E-1911 C.E Many of these writings are of considerable literary quality Others provide us with moving insights into the lives and feelings of a surprisingly diverse group of women living in Confucian China a society that perhaps more than any other is known for its patriarchal tradition Because of the burgeoning interest in the study of both premodern and modern women in China several scholarly books articles and even anthologies of women's poetry have been published in the last two decades This anthology differs from previous works by offering a glimpse of women's writings not only in poetry but in other genres as

well including essays and letters drama religious writing and narrative fiction The authors have presented the selections within their respective biographical and historical contexts This comprehensive approach helps to clarify traditional Chinese ideas on the nature and function of literature as well as on the role of the woman writer     *Deng Benjamin Yang,2016-04-08*

A comprehensive exposition of the life of Deng Xiaoping the pre eminent leader of late 20th century China from his birth in 1904 to the present Written by an insider this study is notable for the detail it provides on elite level Chinese Communist Party politics and Deng s changing relations with his party colleagues in the jockeying for power that constitutes a significant aspect of CCP politics This biography combines intimate details and the sweep of history that encompasses the struggles of 20th century China This text provides both political and personal information that may be of interest to students of Chinese history as well as providing an insight into the man who has influenced the social political and economic development of China     **Mao's Road to Power: Revolutionary Writings, 1912-49: v. 5: Toward the Second United Front, January 1935-July 1937** Zedong Mao,Stuart Schram,2017-07-28 This projected ten volume edition of Mao Zedong s writings provides abundant documentation in his own words regarding his life and thought It has been compiled from all available Chinese sources including the many new texts that appeared in 1993 Mao s centenary
