**Perverts and Predators** Laura J. Zilney, Lisa Anne Zilney, 2009-05-16 *Perverts and Predators* elaborates on the numerous factors that have contributed to the passage of sexual offending laws in the United States. The authors provide information concerning the prevalence and incidence of sex offending, including victim and offender profiles and the frequency and types of offenses committed, in order to give readers greater understanding of the problem. They discuss politics as a major player in the creation of a moral panic surrounding sex offenders and fueling public outrage to garner support for get tough laws. The management of sex offenders in society is discussed, as are consequences of the punitive approach for both the offender and the victim. Comparative case studies are used to explore what the United States could learn from other countries' approaches to sexual offending.

homosexuality polygamy and pornography Additional coverage considers a number of highly controversial laws from residency restrictions to the death penalty and the media's role in fueling public support for them Masculinities, Sexualities and Child Sexual Abuse Anne Cossins, 2021-08-04 Why is child sexual abuse committed primarily by men and male adolescents unlike other forms of child abuse Is child sex offending rather than being a deviant masculine sexual practice related to normative masculine practices that is practices structured on dynamic and changing relations of power Using a practice based sociological approach the relationship between masculinities sexualities and child sexual abuse is analysed and the power powerlessness theory is developed to explain the predominantly male problem of child sex offending The theory postulates that because the social construction of masculinities involves the construction of dynamic and changing relations of power between men men's lives are characterised by a combination of power and powerlessness The book argues that an offender's experiences of powerlessness as a result of his relationships with other men is the key to understanding child sex offending since sexuality is a key social practice for the alleviation of experiences of powerlessness and for establishing relations of power with other men In particular the theory argues that a man's particular attachment to the link between sexuality and experiences of masculinity and power will be a key factor for determining how he does sex and whom he chooses as a sexual partner In the final chapter the theory is tested through a re analysis of offender interviews
