*Group Decision Making* Thomas L. Saaty, Kirti Peniwati, 2013-11-15 When a group makes a decision that decision carries a lot more weight than when just one person does

it Think of the founding fathers of the American constitution and how much power and influence their ideas have had in the entire world for more than two hundred years Also think of gravity a universal force brought about by an enormous number of minute particles that band together to make a universal law Together they create a massive force a law of nature alone they can barely be noticed That is how our minds work by deciding together to create a power that transcends our individuality Group decision making is a gift and an opportunity to create greater influence through the working together of many minds This book shows how to use the Analytic Hierarchy Process for hierarchical decision making and the Analytic Network Process for decision making in networks with dependence and feedback in group decision making Part I discusses the group and the decision and shows the importance of using a structured process particularly for those high value decisions involving many powerful parties with different interests It discusses how to facilitate a group decision combine individual judgments and smooth differences to arrive at a decision that everyone can live with and get behind Part II discusses the group in planning and how to draw out differences Part III is about conflict resolution and Part IV is about how to address significant issues that come up in group decision making and shows that it is possible to construct an overall group preference

**Requirements by Collaboration** Ellen Gottesdiener, 2002 I spend much time helping organizations capture requirements and even more time helping them recover from not capturing requirements Many of them have gone through some motions regarding requirements as if they were sleepworking It s time to wake up and do it right and this book is going to be their alarm clock Jerry Weinberg author of numerous books on productivity enhancement In today s complex fast paced software development environment collaboration the intense peer to peer conversations that result in products decisions and knowledge sharing is absolutely essential to success But all too often attempts to collaborate degenerate into agonizing meetings or ineffectual bull sessions Ellen s wonderful book will help you bridge the gap turning the agony of meetings into the ecstasy of effective collaboration Jim Highsmith a pioneer in adaptive software development methods Requirements by Collaboration presents a wealth of practical tools and techniques for facilitating requirements development workshops It is suitable no essential reading for requirements workshop facilitators It will help both technical people and customer representatives participate in these critical contributions to software success Karl Wiegers Principal Consultant Process Impact author of Software Requirements The need for this particular book at this particular time is crystal clear We have entered a new age where software development must be viewed as a form of business problem solving That means direct user participation in developing requirements or more accurately in jointly working the business problem That in turn means facilitated sessions In this book Ellen Gottesdiener provides a wealth of practical ideas for ensuring that you have exactly the right stuff for this all important area of professional art Ronald G Ross Principal Business Rule Solutions LLC Executive Editor [www.BRCommunity.com](http://www.BRCommunity.com) Gottesdiener s years of software development experience coupled with her straight forward writing style make her book a perfect choice for either a senior developer or a midlevel project manager In addition

to her technical experience her knowledge of group dynamics balance the book by educating the reader on how to manage conflict and personality differences within a requirements team something that is missing from most requirements textbooks It is a required handbook that will be referred to again and again Kay Christian ebusiness Consultant Conifer Colorado Requirements by Collaboration is a must read for any system stakeholder End users and system analysts will learn the significant value they can add to the systems development process Management will learn the tremendous return they may receive from making a modest time people investment in facilitated sessions Facilitators will discover ways to glean an amazing amount of high quality information in a relatively brief time Russ Schwartz Computer System Quality Consultant Global Biotechnology Firm In addition to showing how requirements are identified evaluated and confirmed Ellen provides important guidance based on her own real world experience for creating and managing the workshop environment in which requirements are generated This book is an engaging and invaluable resource for project teams and sponsors both business and IT who are committed to achieving results in the most productive manner possible Hal Thilmony Senior Manager Business Process Improvement Finance CiscoSystems Inc Project managers should read this book for assistance with planning the requirements process Experienced facilitators will enrich their knowledge New facilitators can use this book to get them up to speed and become more effective in less time Rob Stroober Competence Development Manager and Project Manager Deloitte Touche Consultdata The Netherlands While many books discuss the details of software requirement artifacts for example use cases Ellen s new book zeros in on effective workshop techniques and tools used to gather the content of these artifacts As a pioneer in requirements workshops she shares her real life experiences in a comprehensive and easy to read book with many helpful examples and diagrams Bill Bird Aera Energy LLC Requirements by Collaboration is absolutely full of guidance on the most effective ways to use workshops in requirements capture This book will help workshop owners and facilitators to determine and gain agreement on a sound set of requirements which will form a solid foundation for the development work that is to follow Jennifer Stapleton Software Process Consultant and author of DSDM The Methodin Practice This book provides an array of techniques within a clear structured process along with excellent examples of how and when to use them It s an excellent practical and really useful handbook written by a very experienced author Jean Anne Kirk Director DSDM Consortium and IAF Professional Development Ellen has written a detailed comprehensive and practical handbook for facilitating groups in gathering requirements The processes she outlines give the facilitator tools to bring together very different perspectives from stakeholders elegantly and with practical useable results Jo Nelson Principal ICA Associates Inc Chair IAF 2001 2002 Requirements by Collaboration Workshops for Defining Needs focuses on the human side of software development how well we work with our customers and teammates Experience shows that the quality and degree of participation communication respect and trust among all the stakeholders in a project can strongly influence its success or failure Ellen Gottesdiener points out that such qualities are especially important when

defining user requirements and she shows in this book exactly what to do about that fact Gottesdiener shows specifically how to plan and conduct requirements workshops These carefully organized and facilitated meetings bring business managers technical staff customers and users into a setting where together they can discover evolve validate verify and agree upon their product needs Not only are their requirements more effectively defined through this collaboration but the foundation is laid for good teamwork throughout the entire project Other books focus on how to build the product right Requirements by Collaboration focuses instead on what must come first the right product to build
