Creating Fictional Worlds Hanna Liss,2011-01-11 Drawing on the literary and narrative patterns in Rashbam s Torah Commentary this book offers a comprehensive rereading of one of the first Northern French pesha commentaries and shows Rashbam s fascinating struggle to compete with the nascent vernacular literature

The Book of Job in Jewish Life and Thought Jason Kalman,2021-12-20 Despite its general absence from the Jewish liturgical cycle and its limited place in Jewish practice the Book of Job has permeated Jewish culture over the last 2 000 years Job has not only had to endure the suffering described in the biblical book but the efforts of countless commentators interpreters and creative rewriters whose explanations more often than not challenged the protagonist s righteousness in order to preserve Divine justice Beginning with five critical essays on the specific efforts of ancient medieval and modern Jewish writers to make sense of the biblical book this volume concludes with a detailed survey of the place of Job in the Talmud and Midrashic corpus in medieval biblical commentary in ethical mystical and philosophical tracts as well as in poetry and creative writing in a wide variety of Jewish languages from around the world from the second to sixteenth centuries

DMT and the Soul of Prophecy Rick Strassman,2014-09-18 Naturally occurring DMT may produce prophecy like states of consciousness and thus represent a bridge between biology and religious experience Reveals the striking similarities between the visions of the Hebrew prophets and the DMT state described by Strassman s research volunteers Explains how prophetic and psychedelic states may share biological mechanisms Presents a new top down theoneurological model of spiritual experience After completing his groundbreaking research chronicled in *DMT The Spirit Molecule* Rick Strassman was left with one fundamental question What does it mean that DMT a simple chemical naturally found in all of our bodies instantaneously opens us to an interactive spirit world that feels more real than our own world When his decades of clinical psychiatric research and Buddhist practice were unable to provide answers to this question Strassman began searching for a more resonant spiritual model He found that the visions of the Hebrew prophets such as Ezekiel Moses Adam and Daniel were strikingly similar to those of the volunteers in his DMT studies Carefully examining the concept of prophecy in the Hebrew Bible he characterizes a prophetic state of consciousness and explains how it may share biological and metaphysical mechanisms with the DMT effect Examining medieval commentaries on the Hebrew Bible Strassman reveals

how Jewish metaphysics provides a top down model for both the prophetic and DMT states a model he calls theoneurology Theoneurology bridges biology and spirituality by proposing that the Divine communicates with us using the brain and DMT whether naturally produced or ingested is a critical factor in such visionary experience This model provides a counterpoint to neurotheology which proposes that altered brain function simply generates the impression of a Divine human encounter Theoneurology addresses issues critical to the full flowering of the psychedelic drug experience Perhaps even more important it points the way to a renewal of classical prophetic consciousness the soul of Hebrew Bible prophecy as well as unexpected directions for the evolution of contemporary spiritual practice

The Multiple Meaning of Scripture Ineke Van 't Spijker,2009-02-28 From the beginning of the Christian era and throughout the Middle Ages biblical interpretation was the field where theological philosophical and political matters were discussed At the same time Scripture s interpretation required the exploration of hermeneutical positions about how a literal and a hidden meaning could be established and how they related to each other Ranging from early Christian concerns about the text of the Bible itself via Carolingian biblical commentaries and the ever more diverse interpretations from the twelfth century and onwards to the literary implications of Jewish commentary the articles in this volume examine biblical exegesis both as a discourse on theology philosophy and politics and as the context for discussions on its underlying interpretative principles Contributors are J K Kitchen Katja Vehlow Caroline Chevalier Royet Sumi Shimahara Ian Christopher Levy Pierre Boucaud Elisabeth M gier C dric Giraud Wanda Zemler Cizewski Ineke van t Spijker Eva De Visscher Alexander Fidora Frans van Liere and Robert A Harris

Fear and Faith Rachael Kohn, 2021-12-31 **The Torah as a Place of Refuge** Francesco Cocco, 2016-02-12 The law on the cities of refuge contained in Numbers 35 9 34 is almost universally seen as a simple repetition of legal content that is basically already present in the legislation of other biblical books Francesco Cocco demonstrates that we find ourselves here before a case of reformulation instead of simple repetition the implications of which are extremely interesting for the understanding of biblical penal legislation In this particular fragment it exhibits traces of modernity so surprising as to be as good as the defence of civil liberties in the legal systems currently in force in the majority of democratic states The author's enquiry takes its starting point and develops therefore from the novel contribution which the legislation in Numbers 35 9 34 confers on the entire biblical law of a penal character Order as Meaning Isaac Gottlieb, 2023-12-31 Jewish Bible commentary in the Middle Ages took on two aspects the Sephardic and the Ashkenazic The first Spanish interpretation developed in a Muslim surrounding which appreciated secular studies the sciences and Arabic literature much of which it had translated from Greek These studies made their mark on Bible exegesis which sought the simple straightforward sense peshat of a verse and its grammatical meaning The Ashkenazic school however situated in France and Germany was firmly anchored in the rabbinic study hall and its exegesis was a continuation of the methods of Midrash and Aggadah as practiced in Mishnah and Talmud In the beginning of the twelfth century Ashkenazic commentary in northern France took on a new face Contact with the outside world including Christian scholarship and partial knowledge of general studies brought the Ashkenazi Jewish commentators to the realization that the Bible besides being a religious text was also literature As literature many features including the order of biblical pericopes or units attracted attention The classic commentators Rashi in France Ibn Ezra in Toledo and Ramban Nahmanides in northern Spain all dealt with biblical order Order as Meaning cites many cases of sequential arrangement and juxtaposition taken from the rabbinic period as well as from the above three commentators explaining what there was to learn from such a study **The Virtue Ethics of Levi Gersonides** Alexander Green, 2016-11-29 This book argues that Levi Gersonides articulates a unique model of virtue ethics among medieval Jewish thinkers Gersonides is recognized by scholars as one of the most innovative Jewish philosophers of the medieval period His first model of virtue is a response to the seemingly capricious forces of luck through training in endeavor diligence and

cunning aimed at physical self preservation His second model of virtue is altruistic in nature It is based on the human imitation of God as creator of the laws of the universe for no self interested benefit leading humans to imitate God through the virtues of loving kindness grace and beneficence Both these models are amplified through the institutions of the kingship and the priesthood which serve to actualize physical preservation and beneficence on a larger scale amounting to recognition of the political necessity for a division of powers
