*Power Indices and Coalition Formation* M.J. Holler, Guillermo Owen, 2013-06-29 In recent years publications on power indices and coalition formation have multiplied Obviously the application of these concepts to political institutions more specifically to the analysis of the European Union and as it seems the election of the President of the United States is getting more and more popular There are however also new theoretical instruments and perspectives that support these applications First of all the probabilistic model of coalition formation has to be mentioned which is made operational by the multilinear extension of the characteristic function form of coalition games This instrument triggered off a reinterpretation of existing power indices and the formulation of new indices This development is accompanied by an intensive discussion of the concept of power in general what do we measure when we apply power measures and the properties that an adequate measure of power has to satisfy Various concepts of monotonicity were proposed as litmus test The discussion shows that the underlying theories of coalition formation play a decisive role New results will be discussed in this volume Its contributions put flesh and blood on the theoretical innovations and their applications that led to a growing interest in power indices and coalition formation

*Social Choice and Democratic Values*

Eerik Lagerspetz,2015-11-26 This book offers a comprehensive overview and critique of the most important political and philosophical interpretations of the basic results of social choice assessing their plausibility and seeking to identify the links between the theory of social choice and the more traditional issues of political theory and philosophy In this regard the author eschews a strong methodological commitment or technical formalism the approach is instead based on the presentation of political facts and illustrated via numerous real life examples This allows the reader to get acquainted with the philosophical and political dispute surrounding voting and collective decision making and its links to social choice theory
