The Case for Identity Politics Christopher T. Stout, 2020-09-15 Following the defeat of Hillary Clinton in the presidential election of 2016 many prominent scholars and political pundits argued that a successful Democratic Party in the future must abandon identity politics While these calls for Democrats to distance themselves from such strategies have received much attention there is scant academic work that empirically tests whether nonracial campaigns provide an advantage to Democrats today As Christopher Stout explains those who argue for deracialized appeals to voters may not be considering how several high profile police shootings and acquittals increasing evidence of growing racial health and economic disparities retrenchments on voting rights and the growth of racial hate groups have made race a more salient issue now than in the recent past Moreover they fail to account for how demographic changes in the United States have made racial and ethnic minorities a more influential voting bloc The Case for Identity Politics finds that racial appeals are an effective form of outreach for Democratic candidates and enhance rather than detract from their electability in our current political climate

Reclaiming Reality Roy Bhaskar, 2010-10-25. Originally published in 1989, Reclaiming Reality still provides the most accessible introduction to the increasingly influential multi disciplinary and international body of thought known as critical realism. It is designed to underlabour both for the sciences especially the human sciences and for the projects of human emancipation which such sciences may come to inform and provides an enlightening intervention in current debates about realism and relativism, positivism and poststructuralism, modernism and postmodernism etc. Elaborating his critical realist perspective on society, nature, science and philosophy itself, Roy Bhaskar shows how this perspective can be used to undermine currently fashionable ideologies of the Right and at the same time to clear the ground for a reinvigorated Left. Reclaiming Reality contains powerful critiques of some of the most important schools of thought and thinkers of recent years from Bachelard and Feyerabend to Rorty and Habermas and it advances novel and convincing resolutions of many traditional philosophical problems. Now with a new introduction from Mervyn Hartwig, this book continues to provide a straightforward and stimulating introduction to current debates in philosophy and social theory for the interested lay reader and student alike. Reclaiming Reality will be of particular value not only for critical realists but for all those concerned with the revitalization of the socialist emancipatory project and the renaissance of the Marxist theoretical tradition. Roy Bhaskar is the originator of the philosophy of critical realism and the author of many acclaimed and influential works including *A Realist Theory of Science*, *The Possibility of Naturalism*, *Scientific Realism and Human Emancipation* and *Dialectic: The Pulse of Freedom*. He is an editor of the recently published *Critical Realism: Essential Readings* and is currently chair of the Centre for Critical Realism.
