Rational Love:

Fundamentals of the Process of Spiritual Perfection Bahram Elahi, MD, 2022-04-12 Written as a concise handbook this Practical Guide presents a novel paradigm for addressing the enduring questions of our existence while providing a roadmap to the rational pursuit of spirituality in contemporary life Approaching our spiritual development as one would any experimental science Bahram Elahi MD describes the nature of the human soul or self through a series of original diagrams and functional analogies to medicine psychology and physics In so doing he introduces a new medicine of the soul that not only establishes how to nourish and develop the soul through the practice of correct divine and ethical principles but also how to diagnose and treat its various ailments Explaining the purpose of our presence on earth as the completion of the first stage in our spiritual development he summarizes this fundamental work in three main points examining and mending one s faith sufficiently developing one s sound reason and cultivating one s humanity Ultimately this timely Practical Guide offers readers of all backgrounds an accessible roadmap to our spiritual journey that is adapted to life in modern society The Routledge Handbook of Love in Philosophy Adrienne M. Martin, 2019-01-15 The Routledge Handbook of Love in Philosophy collects 39 original chapters from prominent philosophers on the nature meaning value and predicaments of love presented in a unique framework that highlights the rich variety of methods and traditions used to engage with these subjects This volume is structured around important realms of human life and activity each of which receives its own section I Family and Friendship II Romance and Sex III Politics and Society IV Animals Nature and the Environment V Art Faith and Meaning VI Rationality and Morality VII Traditions Historical and Contemporary This last section includes chapters treating love as a subject in both Western and non Western philosophical traditions The contributions all appearing in print here for the first time are written to be accessible and compelling to non philosophers and philosophers alike and the volume as a whole encourages professional philosophers teachers students and lay readers to rethink standard constructions of philosophical canons By Knowledge & by Love Michael S. Sherwin, 2005 What is the relationship between charity and knowledge in the theology of Thomas Aquinas Did Aquinas in his mature thought portray charity s act as antecedent to and independent of practical reasoning Did he view charity s motion as rendering us morally good before God apart from whether or not we do what is right in our actions A dominant stream in contemporary Catholic ethics holds for precisely such a concept of charity and many recent commentators on Aquinas maintain that this is his position as well According to Michael S Sherwin however the contrary is in fact the case By Knowledge and By Love represents a major contribution to Thomistic moral theology and philosophy by providing a thoughtful examination of Aquinas psychology of action and his theology of charity Through a comprehensive analysis of the relation between intellect and will knowledge and love and charity and the infused intellectual virtues Sherwin concludes that far from divorcing the will from reason Aquinas in his later works integrates reason and will more closely together Saint Augustine says No one can love what he does not know this dynamic in the gift of charity which

depends on faith's knowledge and on the knowledge provided by the other infused cognitive virtues and gifts Charity is a virtue and like any virtue its acts require some knowledge of their object Sherwin argues that not only is this a faithful reading of Aquinas it also has profound implications for any conception of moral development The role of a mentoring community the characteristics of friendship with God and the specific actions required by love all play a part in Sherwin's analysis

Early Modern Natural Law Theories T. Hochstrasser, P. Schröder, 2013-06-29 The study of natural law theories in the early Enlightenment continues to be one of the most fruitful areas of research in early modern intellectual history In recent years there have been substantial reassessments of Grotius Pufendorf Thomasius 1 and the whole university based tradition associated with the Fr haujkl rung The appeal of the discourse of natural jurisprudence to groups and individuals operating outside conventional educational and political structures such as the Huguenot diaspora has also been highlighted Moreover the contextual understanding of the work of unambiguously major philosophers such as Hobbes and Kant and its reception has been greatly enhanced by studies that have sought to view them as 3 participants in rather than bystanders alongside the discourse of natural law Thus thinkers previously not considered central to this discourse have been incorporated into it afresh However there is no danger of natural jurisprudence going unchallenged as the meta discourse of political theory in this period for recently new studies of the role of libertine and jansenist thought in shaping the priorities of the early Republic of Letters have challenged its position among the intellectual 4 achievements of the social and political theory of the early Enlightenment This volume therefore offers a timely opportunity to reassess both the coherence of the concept of early Enlightenment and the specific contribution of natural law theories to it

Areas of Learning Basic to Lifelong Education P. Lengrand, 2016-05-27 The study of lifelong education brings to light aspects of education which go beyond the purely intellectual sphere into all dimensions of being These dimensions assume great importance for individuals seeking to develop capacities which will enable them to cope successfully with the challenges they will confront throughout life and to participate constructively in the larger processes of development The subjects covered include communication corporal man time space art man as citizen the ethical domain technology and the scientific spirit and from these papers emerges the unifying theme of the interrelationship between morality and technology This relationship poses the vital question of how individuals should decide which of the new technologies that proliferate in contemporary society is likely to be beneficial to humankind and which destructive The book is the result of a collective project undertaken by the Unesco Institute of Education UIE The approach

adopted is new in two respects first each theme is treated in terms of learning and second each is related to the others in a global and transdisciplinary view of personal development It is written by experts from various countries who are known internationally for their outstanding contributions to research into the problems of learning as a basis for lifelong education and will be important reading for all those involved in the study and practice of lifelong education

Divine Teaching and the Way of the World Samuel Fleischacker,2011-04-21 Samuel Fleischacker defends what the Enlightenment called revealed religion religions that regard a certain text or oral teaching as sacred as wholly authoritative over one's life At the same time he maintains that revealed religions stand in danger of corruption or fanaticism unless they are combined with secular scientific practices and a secular morality The first two parts of Divine Teaching and the Way of the World argue that the cognitive and moral practices of a society should prescind from religious commitments they constitute a secular way of the world to adapt a phrase from the Jewish tradition allowing human beings to work together regardless of their religious differences But the way of the world breaks down when it comes to the question of what we live for and it is this that revealed religions can illumine Fleischacker first suggests that secular conceptions of why life is worth living are often poorly grounded before going on to explore what revelation is how it can answer the question of worth better than secular worldviews do and how the revealed and way of the world elements of a religious tradition can be brought together

Purgatory: A Retelling in Prose David Bruce, 2012-07-19 This book is a retelling in prose of Dante's Purgatory the second part of his *Divine Comedy* **Plots and Proposals** Karen Tracey, 2000 Boy meets girl Boy proposes to girl Girl refuses proposal Then what This provocative scenario provides the frame for a significant countertradition in popular nineteenth century women's novels the double proposal plot in which the heroine rejects and later accepts proposals from the same suitor Exploring the American wing of this movement through the novels of Carolyn Hentz Augusta Evans Laura J Curtis Bullard E D E N Southworth and Elizabeth Stuart Phelps Karen Tracey investigates how each of these writers is constrained by her historical circumstances and how she uses her fiction to critique those circumstances Pioneered in Britain by Jane Austen Charlotte Bront and Elizabeth Barrett Browning the double proposal plot dislodges the myth of Mr Right and questions the all powerful notions of true love and happily ever after When the heroine rejects her suitor's initial proposal she opens up the possibility of renegotiating the terms of the relationship and exploring alternative roles By considering two possible marriages between the same set of partners the double proposal plot interrogates the role of middle class women in courtship and in public life as well as the quality of married life and the influence a woman potentially brings to it Tracey charts the genre's evolution from novels that seek answers within renegotiated marriages to those that challenge the efficacy of marriage itself Reconstructing some of the cultural circumstances that would have influenced the writing publishing and reading of the novels *Plots and Proposals* examines how changing notions of love and romance both inform and are critiqued by this renegade fiction **Purgatorio** Dante, 2007-06-28 In *Purgatorio* Dante having described his journey into Hell narrates his ascent of Mount Purgatory with Virgil as he encounters penitents who toil through physical agonies starvation and flames to assuage their earthly vices Only by learning from them can he achieve his final enlightened transition to the lost Earthly Paradise at the mountain's summit where he meets his dead love Beatrice and prepares to ascend to Heaven Depicting a realm of intense sensation and physical experience Dante's poem transformed the traditional Christian idea of Purgatory by showing how the free will of the aspiring soul could change worldly perversions into perfection It is a brilliantly nuanced and moving allegory of human possibility hope and redemption *Daughters of Parvati* Sarah Pinto, 2014-01-11 In her role as devoted wife the Hindu goddess Parvati is the divine embodiment of viraha the agony of separation from one's

beloved a form of love that is also intense suffering These contradictory emotions reflect the overlapping dissolutions of love family and mental health explored by Sarah Pinto in this visceral ethnography *Daughters of Parvati* centers on the lives of women in different settings of psychiatric care in northern India particularly the contrasting environments of a private mental health clinic and a wing of a government hospital Through an anthropological consideration of modern medicine in a nonwestern setting Pinto challenges the dominant framework for addressing crises such as long term involuntary commitment poor treatment in homes scarcity of licensed practitioners heavy use of pharmaceuticals and the ways psychiatry may reproduce constraining social conditions Inflected by the author's own experience of separation and single motherhood during her fieldwork *Daughters of Parvati* urges us to think about the ways women bear the consequences of the vulnerabilities of love and family in their minds bodies and social worlds *Giving the Body Its Due* Maxine

Sheets-Johnstone,1992-07-01 These essays bring together disciplinary understandings of what it is to be the bodies we are In its own way each essay calls into question certain culturally embedded ways of valuing the body which deride or ignore its role in making us human These ways have remained virtually unchanged since Descartes in the seventeenth century first sharply divided mind a thinking substance from the body an extended substance The legacy of this Cartesian metaphysics has been to reduce the body by turns to a static assemblage of parts and to a dumb show of movement It has both divided the fundamental integrity of creaturely life and depreciated the role of the living body in knowing and making sense of the world in learning in the creative arts and in self and interpersonal understandings The living sense of the body and its capacity for sense making have indeed been blotted out by top heavy concerns with brains minds and language as if these existed without a body It is this conception of the body as mere handmaiden to the privileged that the contributors to this book challenge By the evidence they bring forward they help restore what is properly due the body since Descartes convinced us that mind and body are separate and that mind is the primary value Moreover they help to elucidate what is properly due the body since the more recent twentieth century western emphasis upon vision effectively reduced the richness of the affective and tactile kinesthetic body the body of felt experience to a simple sum of sensations Dominant themes that run throughout the essays and that call our attention to the living sense of the body and its capacity for sense making are wholeness the capacity for self healing cultural histories of the body pan cultural bodily invariants thinking emotions and the body's wisdom In the end these themes show that giving the body its due means forging a metaphysics that upholds the truths of experience

The proper study of mankind said Alexander Pope is man an apt summary of the spirit of his age of rationalism All of Christian tradition protests against this mockery of the true state of things divine revelation contradicts it outright a just philosophy recoils from so limited an approach to reality That distilled wisdom of Catholicism which is theology knows one subject and one subject only God But theology first considers God as he is the cause of all things and their exemplar in this vision it considers all of reality which is more true in divine thought than when seen directly in itself Now the theologian turns to study God as he is the end and perfecting goal of creatures in their return to him from whom they first came forth in particular he will study the creature who alone holds the reins of his own conduct man from the Introduction This edition is a scanned facsimile of the original edition published in 1959 by Priory Press **God, Belief, and Perplexity** William E.

Mann,2016-05-02 This volume presents fourteen of William E Mann s essays on three prominent figures in late Patristic and early medieval philosophy Augustine Anselm and Peter Abelard The essays explore some of the quandaries arguments and theories presented in their writings The essays in this volume complement those to be found in Mann s *God Modality and Morality* OUP 2015 While the essays in *God Modality and Morality* are primarily essays in philosophical theology those found in the present volume are more varied Some still deal with issues in philosophical theology Other essays are aporetic in nature discussing cases of philosophical perplexity sometimes but not always leaving the cases unresolved All the essays display directly or indirectly the philosophical influence that Augustine has had His *Confessions* is a rich source for philosophical puzzlement Individual essays examine his reflections on the alleged innocence of infants which raises questions about cognitive emotional and linguistic development his juvenile theft of pears and its relation to moral motivation and his struggle with and resolution of the problem of evil One essay presents the rudiments of an Augustinian moral theory rooted in his understanding of the Sermon on the Mount Another essay illustrates the theory by discussing his writings on lying Mann argues that Abelard amplified Augustine s moral theory by emphasizing the crucial role that intention plays in wrongdoing Augustine bequeathed to Anselm the notion of faith seeking understanding Mann argues that this methodological slogan shapes Anselm s ontological argument for God s existence and his efforts to explicate the doctrine of the Trinity *Women Imagine Change* Eugenia C.
