Аннотация

В статье рассматривается развитие представлений о жилищной рационализации и жилищных систем на протяжении развития общества (индустриального, индустриально-постиндустриального, постиндустриального). На основе изучения зарубежного опыта на сегодня комплекс постиндустриальных условий и идей предлагается сформировать своим — постиндустриальными модели жилищной рационализации. Актуальность возможности и эффективность применения данных моделей в сложных современных российских обстоятельствах — в качестве альтернативы индустриальным подходам при решении спектра выделенных жилищных проблем. Ключевой установкой исследования является комплексное рассмотрение рационализации в жилище как части широкого цивилизационного контекста, вместе с которым взаимодействует жилищная система, и без учета которого невозможно формирование эффективной жилищной политики страны.

Ключевые слова

жилищная рационализация, постиндустриальность, постиндустриальное жилище

В российской ситуации остроты жилищной проблемы основные поиски ее решения связываются с индустриальными подходами. Предлагается опереться на массовость и пойти по пути резкого увеличения масштабов жилищного строительства, восстановить крупные предприятия и системы индустриального домостроения, использовать стандартизацию, типизацию, функциональное упрощение потребностей обитателя и жесткое бюрократическое регулирование. Многим специалистам, политикам и руководителям жилищной сферы данные подходы видятся как проверенные и, соответственно, наиболее быстро и легко осуществимые, многие же — как синонимы рациональной деятельности в жилищном целом. Однако рационализация использовалась на протяжении всего развития сферы, индустриальность — одна из ее форм. Сегодня складывается принципиально иной комплекс условий — постиндустриальный. Постиндустриальность (ПИ), с одной стороны, диктует специфику — особый общественный контекст, в котором сегодня приходится решать жилищные проблемы, отличающийся от того, где развивались и эффективно работали индустриальные системы; с другой — ПИ создает пласт отличных аспектов и идей, на основе которых возможно сформировать свое понимание рациональности в жилище.

Постиндустриальные модели жилищной рационализации, сформированные на основе ПИ тенденций, в сложных российских обстоятельствах могут задать еще один вектор развития — альтернативный индустриальному, более адекватный решению проблем в жилище в условиях современности.

В настоящее время рационализация в жилище рассматривается довольно узко — либо с технологических и количественных позиций (как строить «быстро, много и дешево»), оставаясь без внимания множество иных аспектов эффективности; либо предложения по рационализации проводятся отдельно в рамках узких дисциплин — архитектуры, строительства, производства — так, как удобно каждой из них, что в синтезе не ведет к эффективному результату. Red Britain Matthew Taunton, 2019-04-04 Red Britain sets out a provocative rethinking of the cultural politics of mid century Britain by drawing attention to the extent diversity and longevity of the cultural effects of the Russian Revolution Drawing on new archival research and historical scholarship this book explores the conceptual discursive and formal reverberations of the Bolshevik Revolution in British literature and culture It provides new insight into canonical writers including Doris Lessing George Orwell Dorothy Richardson H G Wells and Raymond Williams as well bringing to attention a cast of less studied writers intellectuals journalists and visitors to the Soviet Union Red Britain shows that the cultural resonances of the Russian Revolution are more far reaching and various than has previously been acknowledged Each of the five chapters takes as its subject one particular problem or debate and investigates the ways in which it was politicised as a result of the Russian Revolution and the subsequent development of the Soviet state The chapters focus on the idea of the future numbers and arithmetic law and justice debates around agriculture and landowning and finally orality literacy and religion In all of these spheres Red Britain shows how the medievalist romantic oral pastoral anarchic and ethical emphases of English socialism clashed with and were sometimes overwritten by futurist utilitarian literate urban statist and economic ideas associated with the Bolshevik Revolution Political Pilgrims Paul Hollander, 2017-07-05 Why did so many distinguished Western Intellectuals from G B Shaw to J P Sartre and closer to home from Edmund Wilson to Susan Sontag admire various communist systems often in their most repressive historical phases How could Stalin s Soviet Union Mao s China or Castro s Cuba appear at one time as both successful modernizing societies and the fulfillments of the boldest dreams of social justice Why at the same time had these intellectuals so mercilessly judged and rejected their own Western liberal cultures What Impulses and beliefs prompted them to seek the realization of their ideals in distant poorly known lands How do their journeys fit into long standing Western traditions of looking for new meaning In the non Western world These are some of the questions Paul Hollander sought to answer In his massive study that covers much of our century His success is attested by the fact that the phrase political pilgrim has become a part of intellectual discourse Even in the post communist era the questions raised by this book remain relevant as many Western and especially American intellectuals seek to come to terms with a world which offers few models of secular fulfillment and has tarnished the reputation of political Utopias His new and lengthy introduction updates the pilgrimages and examines current attempts to find substitutes for the emotional and political energy that used to be invested in them *Rationalization of Russia* Bernard Shaw, 1964 United in Hate Jamie Glazov, 2009 United in Hate analyzes the Left s contemporary romance with militant Islam as a continuation of the Left

s love affair with communist totalitarianism in the twentieth century Just as the Left was drawn to the communist killing machines of Lenin Stalin Mao Pol Pot and Castro so too it is now attracted to radical Islam Both the radical Left and radical Islam possess a profound hatred for Western culture for a capitalist economic structure that recognizes individual achievement and for the Judeo Christian heritage of the United States Both seek to establish a new world order leftists in the form of a classless communist society and Islamists in the form of a caliphate ruled by Sharia law To achieve these goals both are willing to wipe the slate clean by means of limitless carnage with the ultimate goal of erecting their utopia upon the ruins of the system they have destroyed

Blissful Blindness Dariusz Tolczyk, 2023-09-05 The most heinous Soviet crimes the Red Terror brutal collectivization the Great Famine the Gulag Stalin's Great Terror mass deportations and other atrocities were treated in the West as a controversial topic With the Cold War dichotomy of Western democracy versus Soviet communism deeply imprinted in our minds we are not always aware that these crimes were very often questioned dismissed denied sometimes rationalized and even outright glorified in the Western world Facing a choice of whom to believe the survivors or Soviet propaganda many Western opinion leaders chose in favor of Soviet propaganda Even those who did not believe it behaved sometimes as if they did Blissful Blindness explores Western reactions and lack thereof to Soviet crimes from the Bolshevik revolution to the collapse of Soviet communism in order to understand ideological political economic cultural personal and other motivations behind this puzzling phenomenon of willful ignorance But the significance of Dariusz Tolczyk's book reaches beyond its direct historical focus Written for audiences not limited to scholars and specialists this book not only opens one's eyes to rarely examined aspects of the twentieth century but also helps one see how astonishingly relevant this topic is in our contemporary world

Iron Curtain Patrick Wright, 2007-10-26 From Stettin in the Baltic to Trieste in the Adriatic an iron curtain has descended across the Continent With these words Winston Churchill famously warned the world in a now legendary speech given in Fulton Missouri on March 5 1946 Launched as an evocative metaphor the Iron Curtain quickly became a brutal reality in the Cold War between Capitalist West and Communist East Not surprisingly for many years people on both sides of the division have assumed that the story of the Iron Curtain began with Churchill's 1946 speech In this fascinating investigation Patrick Wright shows that this was decidedly not the case Starting with its original use to describe an anti-fire device fitted into theatres Iron Curtain tells the story of how the term evolved into such a powerful metaphor and the myriad ways in which it shaped the world for decades before the onset of the Cold War Along the way it offers fascinating perspectives on a rich array of historical characters and developments from the lofty aspirations and disappointed fate of early twentieth century internationalists through the topsy-turvy experiences of the first travellers to Soviet Russia to the theatricalization of modern politics and international relations And as Wright poignantly suggests the term captures a particular way of thinking about the world that long pre-dates the Cold War and did not disappear with the fall of the Berlin Wall

Reforming Education in the Regions of Russia Mary Canning, Peter R. Moock, Timothy E.

Heleniak,1999-01-01 Russia's educational system with broad access and high levels of scholarly achievement has long been a source of strength. The Soviet system however was grossly overcentralized, inefficient and lacking in accountability. In the last decade attempted rapid decentralization has not been well designed since there has been no commensurate transfer of resources and levels of responsibility have remained unclear. Unless corrected soon the harmful impact on educational quality and equity could be very serious. The purposes of this report are to analyze the nature of the current problems and to discuss policy options open to the Russian Government in its efforts to improve educational efficiency, preserving and even improving equitable access without sacrificing traditions of academic excellence. This report is based on analysis of trends across the 89 Russian regions and case studies. In its conclusions the report draws on this regional experience to suggest reform options. Among other proposals efficiency could be increased by giving schools increased financial autonomy using of per capita financing formulae and beginning to rationalize the teaching force and improve its quality. A national system of student assessment might help both to raise quality and improve the equity of access to highly selective institutions. Reforms are required to improve the market responsiveness of first level vocational education and especially to avoid excessive and premature specialization. Education practitioners and policy makers will find this publication of interest. *Political Pilgrims*, 1978. Hvad var det der for kendte vestlige intellektuelle til at beundre forskellige kommunistiske systemer og forkaste deres egne landes liberale. Hvorfor så gode idealer i fjerne ikke så godt kendte lande. **The Apple Cart, Too True to Be Good, on the Rocks, and Millionairess** Bernard Shaw, 2021. The four dramas in this volume are some of George Bernard Shaw's most interesting plays. They stretch from 1929 to 1935 and coincide with the Great Depression, the intensification of the crisis of democracy that began after the war and the rise of totalitarianism, all of which find expression in these plays. They also signal the beginning of an important new phase in Shaw's writing, one marked especially by the development of two new Shaw genres: the political extravaganza and the political allegory. *The Apple Cart* 1929 marked Shaw's return to playwriting after the long hiatus that followed *Saint Joan* 1923. *The Apple Cart* is perhaps the most pointed critique of parliamentary democracy in the entire Shawian canon. *Too True to Be Good* 1931 is another political extravaganza with the opening stage direction: "The patient is sleeping heavily. Near her in the easy chair sits a Monster signaling that Shaw is advancing further into uncharted dramaturgical territory." He began writing shortly before his trip to the Soviet Union and finished the play and wrote the preface after his return. In the preface Shaw asserts that the USSR is a new Catholic church. The dark mood continues in Shaw's next play *On the Rocks* 1933 which Shaw subtitled a political comedy. It is reminiscent of *The Apple Cart* in that it is sharply focused on British politics and set in the Cabinet Room at 10 Downing Street during the economic depression of the 1930s. Shaw started writing *The Millionairess* in 1934 and finished it in 1935. On the surface it is a simple comedy and if not for the preface we might acquiesce to Shaw's assessment that the play does not pretend to be anything more than a comedy of humorous and curious contemporary characters such as Ben Jonson might write. Yet the preface

appended to the play is entirely about leadership and declaims at great length on Mussolini and Hitler **Russia's Cotton Workers and the New Economic Policy** Chris Ward, 2002-06-20 Key aspects of life on the shop floor of the Russian cotton mill in the 1920s **Major Problems in the History of Imperial Russia** James Cracraft, 1994 Focusing on internal developments in Imperial Russia this book provides even handed coverage of the period with thorough attention to the eighteenth and nineteenth centuries Political history is balanced with a clear vision of social and economic change *All Russia Is Burning!* Cathy A. Frierson, 2012-11-10 Rural fires were an even more persistent scourge than famine in late imperial Russia as Cathy Frierson shows in this first comprehensive study Destroying almost three billion rubles worth of property in European Russia between 1860 and 1904 accidental and arson fires acted as a brake on Russia's economic development while subjecting peasants to perennial shocks to their physical and emotional condition The fire question captured the attention of educated progressive Russians who came to perceived it as a key obstacle to Russia's becoming a modern society in the European model Using sources ranging from literary representations and newspaper articles to statistical tables and court records Frierson demonstrates the many meanings fire held for both peasants and the educated elite To peasants it was an essential source of light and warmth as well as a destructive force that regularly ignited their cramped villages of wooden thatch roofed huts Absent the rule of law they often used arson to gain justice or revenge or to exert social control over those who would violate village norms Frierson shows that the vast majority of arson cases in European Russia were not peasant against gentry acts of protest but peasant against peasant acts of self help law or plain spite Both the state and individual progressives set out to resolve the fire question and to educate cajole or coerce the peasantry into the modern world Fire insurance building codes scientific village layouts and volunteer firefighting brigades reduced the average number of buildings consumed in each blaze but none of these measures succeeded in curbing the number of fires each year More than anything else this history of fire and arson in rural European Russia is a history of their cultural meanings in the late imperial campaign for modernity Frierson shows the special associations of women with fire in rural life and in elite understanding of fire in the Russian countryside Her study of the fire question demonstrates both peasant agency in fighting fire and educated Russians hardening conviction that peasants stood in the way of Russia's advent into the company of prosperous rational civilized nations *Nationalism, Liberalism, and Progress: The dismal fate of new nations* Ernst B. Haas, 1997 Has global liberalism made the nation state obsolete Or on the contrary are primordial nationalist hatreds overwhelming cosmopolitanism To assert either theme without serious qualification according to Ernst B Haas is historically simplistic and morally misleading Haas describes nationalism as a key component of modernity and a crucial instrument for making sense of impersonal rapidly changing and heterogeneous societies He characterizes nationalism as a feeling of collective identity a mutual understanding experienced among people who may never meet but who are persuaded that they belong to a community of kindred spirits Without nationalism there could be no large integrated state He explores

nationalism in five societies that had achieved the status of nation states by about 1880 the United States Britain France Germany and Japan **Dupes** Paul Kengor,2023-06-27 In this startling intensively researched book bestselling historian Paul Kengor shines light on a deeply troubling aspect of American history the prominent role of the dupe From the Bolshevik Revolution through the Cold War and right up to the present many progressives have unwittingly aided some of America s most dangerous opponents Based on never before published FBI files Soviet archives and other primary sources Dupes exposes the legions of liberals who have furthered the objectives of America s adversaries Kengor shows not only how such dupes contributed to history s most destructive ideology Communism which claimed at least 100 million lives but also why they are so relevant to today s politics **The Rationalization of Russia. By (George) Bernard Shaw** George Bernard Shaw,1964 **Nationalism, Liberalism, and Progress** Ernst B. Haas,2018-09-05 Far from being an inevitably aggressive and destructive force nationalism is for Ernst B Haas the primary means of bringing coherence to modernizing societies In the second volume of his magisterial exploration of this topic Haas emphasizes the benefits of liberal nationalism which he deems more progressive than other nation building formulas because it relies on reason to improve citizens lives The Dismal Fate of New Nations considers several societies that modernized relatively recently many of them aroused to nationalism by the imperialism of the old nation states The book probes the different patterns of development in emerging countries Iran Egypt India Brazil Mexico China Russia and Ukraine for insights into the possibilities and limitations of all nationalisms especially liberal nationalism Employing a systematic comparative perspective Haas organizes the book around the notion of change and its management by political elites in Asia Eastern Europe Latin America and the Middle East Haas particularly wants to understand how nationalism plays out in the politics of modernization within non Western cultures especially those where religions other than Christianity predominate Where the hold of religion remains formidable he argues the mixture of traditional and secular modernist institutions and beliefs will challenge the victory of liberal nationalism and the very success of nation state formation **The Tsar's Colonels** David Alan Rich,2010-05-01 In this impressive study David Rich demonstrates how the modernization of Russia s general staff during the second half of the nineteenth century reshaped its intellectual and strategic outlook and equipped the staff to play a strong and at times dominant role in shaping Russian foreign policy Rich weaves together several levels of narrative to show how the increasingly sophisticated scientific and positivistic work attitudes and habits of the general staff acculturated younger officers redefining their relationship with and responsibilities to the state In time this new generation of officers projected their characteristic notions onto the state and onto autocracy itself professional concern for the security of the state eclipsed traditional unquestioning loyalty to the regime Rich goes on to show how divergence between diplomatic and military aims among those responsible for making strategy cost the state dearly in terms of economic stability and international standing The author supports his findings with original research in Russian foreign policy and military archives and wide reading in published sources The Tsar s Colonels

contributes to a number of debates in Russian military and social history and offers new insights on the structural roots of the Great War and on the theoretical problems of modernization and professionalization
