Multispecies Storytelling in Intermedial Practices Ida Bencke, Jørgen Bruhn, 2022-03-08 Multispecies Storytelling in Intermedial Practices is a speculative endeavor asking how we may represent relay and read worlds differently by seeing other species as protagonists in their own rights What other stories are to be invented and told from within those many tongued chatters of multispecies collectives Could such stories teach us how to become human otherwise Often the human is defined as the sole creature who holds language and consequently is capable of articulating representing and reflecting upon the world And yet the world is made and remade by ongoing and many tongued conversations between various organisms reverberating with sound movement gestures hormones and electrical signals Everywhere life is making itself known heard and understood in a wide variety of media and modalities Some of these registers are available to our human senses while some are not Facing a

not so distant future catastrophe which in many ways and for many of us is already here it is becoming painstakingly clear that our imaginaries are in dire need of corrections and replacements How do we cultivate and share other kinds of stories and visions of the world that may hold promises of modest yet radical hope If we keep reproducing the same kind of languages the same kinds of scientific gatekeeping the same kinds of stories about our place in nature we remain numb in the face of collapse Multispecies Storytelling in Intermedial Practices offers steps toward a self critical multispecies philosophy which interrogates and qualifies the broad and seemingly neutral concept of humanity utilized in and around conversations grounded within Western science and academia Artists activists writers and scientists give a myriad of different interpretations of how to tell our worlds using different media and possibly gives hints as to how to change it too

recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada

J. Keith, 2006 When Canadian Literature in English was first published by Longman in 1985 it was described in the Modern Language Review as a standard reference work on the subject and the best critical account of its subject that we possess so far The book was released in London and New York as such things were done at the time but never distributed particularly well in Canada where it faded rapidly from view W J Keith writing in the Preface to the Revised Edition admits his first inclination was to embark on a total rewrite of the Longman edition On further consideration however Keith came to realize that the 1985 publication was completed at the close of a major phase in the Canadian literary tradition and that the remarkable flowering that began to manifest itself in the middle of the twentieth century had run its course by the beginning of the new millennium That being the case Keith would argue that a number of writers who had already achieved considerable stature further developed their reputations in the period 1985 2005 but only a few extended them Keith is also quick to admit that he has chosen to ignore utterly the popular at the one extreme Robert Service Lucy Maud Montgomery as well as the avant garde bpnichol Anne Carson at the other in favour of those authors whose style lends itself to the simple pleasure of reading and to that end he dedicates his history to all those including the general reading public whose endangered status is much lamented in the Polemical Conclusion who recognize and celebrate the dance of words
