Re-discovering the Making of the UK Colin Shephard, Tim Lomas, 2001 Designed for teachers of students studying history at Key Stage 3 this comprehensive text covers Britain from 1500 1750 Updating the text has made the material more usable in mixed ability teaching whilst retaining an emphasis on challenging students to think deeply **Teaching and Learning**

the Difficult Past Magdalena H. Gross, Luke Terra, 2018-12-07 Building upon the theoretical foundations for the teaching and learning of difficult histories in social studies classrooms this edited collection offers diverse perspectives on school practices curriculum development and experiences of teaching about traumatic events Considering the relationship between memory history and education this volume advances the discussion of classroom based practices for teaching and learning difficult histories and investigates the role that history education plays in creating and sustaining national and collective identities **Making the Imperial Nation** Gabriel Glickman, 2023-01-31 How did the creation of an overseas empire

change politics in England itself After 1660 English governments aimed to convert scattered overseas dominions into a coordinated territorial power base Stuart monarchs encouraged schemes for expansion in America Africa and Asia tightened control over existing territories and endorsed systems of slave labor to boost colonial prosperity But English power was precarious and colonial designs were subject to regular defeats and failed experimentation Recovering from recent Civil Wars at home England itself was shaken by unrest and upheaval through the later seventeenth century Colonial policies emerged from a kingdom riven with inner tensions which it exported to enclaves overseas Gabriel Glickman reinstates the colonies within the domestic history of Restoration England He shows how the pursuit of empire raised moral and ideological controversies that divided political opinion and unsettled many received ideas of English national identity Overseas ambitions disrupted bonds in Europe and cast new questions about English relations with Scotland and Ireland Vigorous debates were provoked by contact with non Christian peoples and by changes brought to cultural tastes and consumer habits at home England was becoming an imperial nation before it had acquired a secure territorial empire The pressures of colonization exerted a decisive influence over the wars revolutions and party conflicts that destabilized the later Stuart kingdom

Common Law and Enlightenment in England, 1689-1750 Julia Rudolph, 2013 The book demonstrates how the common law mind was able to meet the various challenges posed by Enlightenment rationalism and civic and commercial discourse revealing that the common law played a much wider role beyond the legal world in shaping Enlightenment concepts

Exploring Human Geography Stephen Daniels, Roger Lee, 2014-05-01 A lively and stimulating resource for all first year students of human geography this introductory Reader comprises key published writings from the main fields of human geography Because the subject is both broad and necessarily only loosely defined a principal aim of this book is to present a view of the subject which is theoretically informed and yet recognises that any view is partial contingent and subject to change The extracts selected are accessible and raise issues of method and theory as well as fact The editors have chosen

articles that not only represent main currents in the present flow of academic geography but which are also responsive to developments outside of the discipline Their selection contains a mixture of established and recent writings and each section features a contextualizing introduction and detailed suggestions for further reading
