Re Enchantment Of Nature:

The Reenchantment of Nature Alister McGrath, 2002-09-17 In this provocative assessment of the world's current ecological crisis the author of the critically acclaimed *In the Beginning* exposes the false assumptions underlying the conflicts between science and religion and proposes an innovative approach to saving the planet. Traditionally science and religion have been thought of as two distinct and irreconcilable ways of looking at the world and scientists have often chastised the world's religions for keeping their eyes on the heavens and paying scant attention to the destruction of Earth's precious resources and its natural wonders. In *The Reenchantment of Nature* Alister McGrath, who holds doctorates in both molecular biology and divinity, challenges this long held and dangerously misguided dichotomy. Arguing that Christianity and other great religions have always respected and revered the bounty and beauty of the earth, McGrath calls for a radical shift in perspective. He shows that by defining the world in the narrowest of scientific terms and viewing it as a collection of atoms and molecules governed by unchanging laws and forces, we have lost our ability to appreciate nature's enchantments. In order to address the threats to our environment, he maintains it is essential to reawaken our sense of awe and look at the world as a glorious creation, an irreplaceable gift of God. In setting forth a new framework for the debate between science and religion on ecological theory, *The Reenchantment of Nature* points the way to integrating two different traditions in a sane and productive effort to rescue the natural world from its present environmental decline.

The Re-enchantment of Nature Alister E. McGrath, 2003 Alister McGrath aims to reposition religion and Christianity in particular as the way in which we can truly rediscover the beauty of nature. He argues that science has abused and exploited our environment and by ridiculing religion has destroyed our sense of wonder in nature. This is a vigorous defence of religion's relationship with nature by one of the world's most renowned religious writers. McGrath holds doctorates in both Divinity and Molecular Biology from Oxford University and writes with assurance and authority on both Religion and Science. *THE RE-ENCHANTMENT OF NATURE* includes a stinging attack on Richard Dawkins and other scientists who claim religion has no modern day relevance.

The Reenchantment of the World Morris Berman, 1981 Morris Berman's book addresses what I consider to be the most important topic at our present moment in history. He is searching for the underpinnings of a new world view that can give rise to a culture capable of relating gently and self-sustainingly to the earth. Frederick Ferr, *The Reenchantment of the World* is a perceptive study of our scientific consciousness and a cogent and forceful challenge to its supremacy. Focusing on the rise of the mechanistic idea that we can know the natural world only by distancing ourselves from it, Berman shows how science acquired its controlling position in the consciousness of the West. He analyzes the holistic animistic tradition destroyed in the wake of Scientific Revolution of the sixteenth and seventeenth centuries, which viewed man as a participant in the cosmos, not as an isolated observer. Arguing that the holistic world view must be revived in some credible form before we destroy our society and our environment, he explores the possibilities for a consciousness appropriate to the modern era.

Ecological rather than animistic this new world view would be grounded in the real and intimate connection between man and nature

The Re-Enchantment of the West, Vol 2 Christopher Partridge, 2006-04-20 The Re Enchantment of the West challenges those theories that predict widespread secularization beyond traditional institutional religiosity Spiritualities are emerging that are not only quite different from the those forms of religion that are in decline but are often defined over against them and articulated and passed on in ways quite different from those of traditional religion In particular it is argued that such contemporary Western spirituality is fed by a constantly replenished reservoir of ideas practices and methodologies which is here termed occulture Moreover such occultural ideas both feed into and are resourced by popular culture Indeed popular occulture is a key feature of the re enchantment of the West Demonstrating the significance and ubiquity of these ideas this book examines for example healthcare and nursing contemporary environmentalism psychedelia and drug use the Internet and cyberspirituality belief in UFOs and extraterrestrial life demonology and the contemporary fascination with the figure of Satan the heavy metal subculture popular apocalypticism and millennial violence

Thomas Moore, 1997-02-27 Starting from the premise that we can no longer afford to live in a disenchanted world Moore shows that a profound enchanted engagement with life is not a childish thing to be put away with adulthood but a necessity for one's personal and collective survival With his lens focused on specific aspects of daily life such as clothing food furniture architecture ecology language and politics Moore describes the renaissance these can undergo when there is a genuine engagement with beauty craft nature and art in both private and public life Millions of readers who found comfort and substance in Moore's previous bestsellers will discover in this book ways to restore the heart and soul of work home and creative endeavors through a radical fresh return to ancient ways of living the soulful life

A Political Theology of Nature Peter Scott, 2003-03-06 This book argues that the modern separation of humanity from nature can be traced to the displacement of the triune God Locating the source of our current ecological crisis in this separation Peter Scott argues that it can only be healed within theology through a revival of a Trinitarian doctrine of creation interacting with political philosophies of ecology Drawing insights from deep ecology ecofeminism and social and socialist ecologies Scott proposes a common realm of God nature and humanity Both Trinitarian and political the theology of this common realm is worked out by reference to Christ and Spirit Christ's resurrection is presented as the liberation and renewal of ecological relations in nature and society the movement of the Holy Spirit is understood as the renewal of fellowship between humanity and nature through ecological democracy and the Eucharist is proposed as the principal political resource Christianity offers for an ecological age

The Enchantment of Modern Life Jane Bennett, 2001-08-05 It is a commonplace that the modern world cannot be experienced as enchanted that the very concept of enchantment belongs to past ages of superstition Jane Bennett challenges

that view She seeks to rehabilitate enchantment showing not only how it is still possible to experience genuine wonder but how such experience is crucial to motivating ethical behavior A creative blend of political theory philosophy and literary studies this book is a powerful and innovative contribution to an emerging interdisciplinary conversation about the deep connections between ethics aesthetics and politics As Bennett describes it enchantment is a sense of openness to the unusual the captivating and the disturbing in everyday life She guides us through a wide and often surprising range of sources of enchantment showing that we can still find enchantment in nature for example but also in such unexpected places as modern technology advertising and even bureaucracy She then explains how everyday moments of enchantment can be cultivated to build an ethics of generosity stimulating the emotional energy and honing the perceptual refinement necessary to follow moral codes Throughout Bennett draws on thinkers and writers as diverse as Kant Schiller Thoreau Kafka Marx Weber Adorno and Deleuze With its range and daring *The Enchantment of Modern Life* is a provocative challenge to the centuries old narrative of disenchantment one that presents a new alter tale that discloses our profound attachment to the human and nonhuman world

Avenging Nature Eduardo Valls Oyarzun,Rebeca Gualberto Valverde,Noelia Malla Garcia,María Colom Jiménez,Rebeca Cordero Sánchez,2020-09-28 Nature thou art my goddess Edmund s bold assertion in *King Lear* could easily inspire and at the same time function as a lamentation of the inadequate respect of nature in culture In this volume international experts provide multidisciplinary exploration of the insubordinate representations of nature in modern and contemporary literature and art The work foregrounds the need to reassess how nature is already and has been for a while striking back against human domination From the perspective of literary studies art history media studies ethics and philosophy and ethnology and anthropology *Avenging Nature* highlights the need of assessing insurgent discourses that converging with counter discourses of race gender or class realize the empowerment of nature from its subaltern position Acknowledging the argument that cultural representations of nature establish a relationship of domination and exploitation of human discourse over nonhuman reality and that in consequence our regard for nature as humanist critics is instrumental and anthropocentric the present volume advocates for the view that the time has come to finally perceive nature s vengeance and to critically probe into nature s ongoing revenge against the exploitation of culture

Rethinking Green Politics John Barry,1999-02-22 Winner of the PSA Mackenzie Prize for best politics book of 1999 *Rethinking Green Politics* offers a wide ranging overview and critical analysis of the theoretical framework that underpins the values principles and concerns of contemporary green politics and the appropriate institutional means for realizing green ends

Paths in Heidegger's Later Thought Günter Figal,Diego D'Angelo,Tobias Keiling,Guang Yang,2020-03-10 If one takes Heidegger at his word then his philosophy is about pursuing different paths of thought rather than defining a single set of truths This volume gathers the work of an international group of scholars to present a range of ways in which Heidegger can be read and a diversity of styles in which his thought can be continued Despite their many approaches to Heidegger their hermeneutic orientation

brings these scholars together The essays span themes from the ontic to the ontological from the specific to the speculative While the volume does not aim to present a comprehensive interpretation of Heidegger's later thought it covers much of the terrain of his later thinking and presents new directions for how Heidegger should and should not be read today Scholars of Heidegger's later thought will find rich and original readings that expand considerations of Heidegger's entire oeuvre

Remaking Reality Bruce Braun, Noel Castree, 2005-08-08 This book rejects apocalyptic pronouncements that the end of the millennium represents the end of nature as well Remaking Reality brings together contributors from across the human sciences who argue that a notion of social nature provides great hope for the future Applying a variety of theoretical approaches to social nature and engaging with debates in politics science technology and social movements surrounding race gender and class the contributors explore important and emerging sites where nature is now being remade with considerable social and ecological consequences The essays are organised around two themes capitalising and envisioning nature and actors networks and the politics of hybridity An afterword by Neil Smith reflects on the problems and possibilities of future names For critics and activists alike Remaking Reality provides essential theoretical and political tools to rethink environmentalism and progressive social natures for the twenty first century *John McDowell* Tim Thornton, 2019-05-30 John McDowell is one of the most widely read philosophers in recent years His engagement with a philosophy of language mind and ethics and with philosophers ranging from Aristotle and Wittgenstein to Hegel and Gadamer make him one of the most original and outstanding philosophical thinkers of the post war period In this clear and engaging book Tim Thornton introduces and examines the full range of McDowell's thought After a helpful introduction setting out McDowell's general view of philosophy Thornton introduces and explains the following topics Wittgenstein on philosophy normativity and understanding value judgements theories of meaning and sense singular thought and Cartesianism perceptual experience and knowledge disjunctivism and openness to the world Mind and World the content of perceptual experience and idealism action and the debate with Hubert Dreyfus on conceptual content and skilled coping This second edition has been significantly revised and expanded to include new sections on McDowell's work on disjunctivism and criticisms of it a new chapter on McDowell's modification of his account of perceptual experience and conceptual content and criticisms by Charles Travis and a new chapter on action and McDowell's engagement with Hubert Dreyfus and the debate concerning skilled coping and mindedness The addition of a glossary and suggestions for further reading makes John McDowell second edition essential reading for those studying McDowell philosophy of language philosophy of mind ethics and epistemology as well as for students of the recent history of analytical philosophy generally **Nature, Ethics and Gender in German Romanticism and Idealism** Alison Stone, 2018-10-25 This book provides an account of the development of ideas about nature from the Early German Romantics into the philosophies of nature of Schelling and Hegel In clear and accessible language Alison Stone explains how the project of philosophy of nature took shape and made sense in the post Kantian

context She also shows how ideas of nature were central to the philosophical and literary projects of the Early German Romantics with attention to Friedrich Schlegel Novalis and Holderlin Stone advances a distinctive original perspective on Romantic and Idealist accounts of nature and their ethical implications regarding human nature relations and intra human political relations especially but not only around gender and race The book demonstrates how these approaches to nature have contemporary relevance to a range of current debates such as those over naturalism the environmental crisis and the politics of gender race and colonialism

Re-Imagining Nature Alister E. McGrath, 2016-08-01 Reimagining Nature is a new introduction to the fast developing area of natural theology written by one of the world's leading theologians The text engages in serious theological dialogue whilst looking at how past developments might illuminate and inform theory and practice in the present This text sets out to explore what a properly Christian approach to natural theology might look like and how this relates to alternative interpretations of our experience of the natural world Alister McGrath is ideally placed to write the book as one of the world's best known theologians and a chief proponent of natural theology This new work offers an account of the development of natural theology throughout history and informs of its likely contribution in the present This feeds in current debates about the relationship between science and religion and religion and the humanities Engages in serious theological dialogue primarily with Augustine Aquinas Barth and Brunner and includes the work of natural scientists philosophers of science and poets

The Routledge Handbook of Liberal Naturalism Mario De Caro, David Macarthur, 2022-03-14 The central question of naturalism the relation of philosophy to science was one of the defining strands of twentieth century thought and remains a major source of debate and controversy Today many argue that philosophy should fold itself into the sciences especially the natural sciences Liberal naturalists argue that such scientific naturalism demands reductive and Procrustean conceptions of knowledge and reality Moreover many philosophical problems are beyond the scope of the sciences such as the nature of persons the normativity of the space of reasons and how best to understand the peculiar mix of objectivity and subjectivity of ethics and art The Routledge Handbook of Liberal Naturalism is the first collection to present a comprehensive overview of liberal naturalism a philosophical outlook that lies between scientific naturalism and supernaturalism Comprising 37 chapters by an international team of contributors it examines important cutting edge topics including what is liberal naturalism is metaphysics a viable project naturalism in the history of philosophy including Hume Dewey and Quine contemporary liberal naturalists such as P F Strawson John McDowell Hilary Putnam and John Rawls related kinds of naturalism including subject naturalism common sense naturalism and biological naturalism the bearing of liberal naturalism on contemporary debates in epistemology philosophy of mind ethics and aesthetics Essential reading for students and researchers in all areas of philosophy this volume will be of particular interest for those studying philosophical naturalism philosophy of science metaphysics epistemology philosophy of mind ethics and aesthetics

AN ECOCRITICAL STUDY OF KENNETH REXROTH'S TRANSLATION OF CLASSICAL CHINESE POEMS

ZHAO MEIOU,2023-10-30 The book is a close reading of English translations of over 400 classical Chinese poems by Kenneth Rexroth an American eco poet translator sinologist and environmentalist This study finds that the ecological dimension can provide a new description and explanation for Rexroth s text selection translation strategies and translation character giving a green interpretation of his translations Due to various sources of Rexroth s ecological worldview from East and West Rexroth s translation presents an ecological character and the result of his interpretation is more of a cross cultural eco-poetic rewriting and construction This is related to several of his ideas eco-poetics of selfless imagism aesthetics of relinquishment wilderness experience sense of place material eco views ideas of ecological utopia the community of love and others It is also influenced by the historical context cultural trends and social reality the eco crisis and the rise of ecological movements at that time Ecocriticism an analysis approach which focuses on the human nature relationship embodied in literary texts or other texts and cultural products helps to delve into the eco-poetic dimension of Rexroth s translation of classical Chinese poems to explore his thoughts on the human nature relationship represented and embodied in translation to reread his translations from a green perspective and to reveal the eco value of his translations in contemporary times **D.**

H. Lawrence, Ecofeminism and Nature Terry Gifford,2022-09-30 Shortlisted for the ASLE UKI Prize for Best Academic Monograph This is the first ecocritical book on the works of D H Lawrence and also the first to consider the links between nature and gender in the poetry and the novels In his search for a balanced relationship between male and female characters what role does nature play in the challenges Lawrence offers his readers How far are the anxieties of his characters in negotiating relationships that might threaten their sense of self derived from the same source as their anxieties about engaging with the Other in nature Indeed might Lawrence s metaphors drawn from nature actually be the causes of human actions in *The Rainbow* for example The originality of Lawrence s poetic and narrative strategies for challenging social attitudes towards both nature and gender can be revealed by new approaches offered by ecocritical theory and ecofeminist readings of his books This book explores ecocritical notions to frame its ecofeminist readings from the difference between the Other and otherness in *The White Peacock* and *Lady Chatterley s Lover* another otherness in the poetry of *Birds Beasts and Flowers* psychogeography in *Sea and Sardinia* emergent ecofeminism in *Sons and Lovers* land and gender in *The Boy in the Bush* gender dialogics in *Kangaroo* human animality in *Women in Love* trees as tests in *Aaron s Rod* to radical animism in *The Plumed Serpent* Finally three late tales provide a reassessment of ecofeminist insights into Lawrence s work for readers in the present context of the Anthropocene **Phenomenology 2010.
