Fake Putin, me, and the hidden crocodile Thomas Brackmann, 2020-08-23 Thomas Brackmann has lived and worked in Saudi Arabia since 2010 In his spare time he travels around the world 2018 he finished all 193 UN member states teaches Judo to Kids organizes charity events and writes short stories about all his adventures In 2013 he discovered running as an additional hobby and shifted slowly to become a triathlete Between 2014 and 2018 he finished 1 Double Ironman 6 full Ironman several shorter triathlons different Marathons and Ultra Marathons However travelling was always his major passion In the recent years he planned to travel to each country to have ticked off all 193 UN member states This book is about his travel adventures around the globe It consists of short stories from Ironman triathlons in Australia interviews with semi professional travelers from Sweden fun reports from German submarines and insights of other fellow globe trotters Most importantly each chapter represents one country and is filled with tips tricks and lessons learned to travel easier better and more intense After reading the book you might know how penguin poo is smelling what is the taste of a one dollar omelet in Nepal why Tuvalu will disappear and how the Germans know everything better Definitely this book is not a detailed travel advice work You will not find specific travel details about each country it is rather filled with funny stories of a highly motivated average talented triathlete conquering the world by travelling Therefore this book is for everyone who is infected by wanderlust and also has the desire for sports party new places and interesting people around the world It is a great guide for finding the best way to have fun in travel life Worry we can tomorrow Today we travel and discover new places and meet new people

Animal Skins and the Reading Self in Medieval Latin and French Bestiaries Sarah Kay, 2017-02-24 Just like we do today people in medieval times struggled with the concept of human exceptionalism and the significance of other creatures Nowhere is this more apparent than in the medieval bestiary Sarah Kay's exploration of French and Latin bestiaries offers fresh insight into how this prominent genre challenged the boundary between its human readers and other animals Bestiaries present accounts of animals whose fantastic behaviors should be imitated or avoided depending on the given trait In a highly original argument Kay suggests that the association of beasts with books is here both literal and material as nearly all surviving bestiaries are copied on parchment made of animal skin which also resembles human skin Using a rich array of examples she shows how the content and materiality of bestiaries are linked due to the continual references in the texts to the skins of other animals as well as the ways in which the pages themselves repeatedly and at times it would seem deliberately intervene in the reading process A vital contribution to animal studies and medieval manuscript studies this book sheds new light on the European bestiary and its profound power to shape readers own identities

The Hidden Language of Graphic Signs John Bodel, Stephen Houston, 2021-08-19 A common belief is that systems of writing are committed to transparency and precise records of sound The target is the language behind such marks Readers not viewers matter most and the most effective graphs largely record sound not meaning But what if embellishments

mattered deeply if hidden writing slow to produce slow to read played as enduring a role as more accessible graphs What if meaningful marks did service alongside records of spoken language This book a compilation of essays by global authorities on these subjects zeroes in on hidden writing and alternative systems of graphic notation Essays by leading scholars explore forms of writing that by their formal intricacy deflect attention from language The volume also examines graphs that target meaning directly without passing through the filter of words and the medium of sound The many examples here testify to human ingenuity and future possibilities for exploring enriched graphic communication
