Readers And Their Fictions In The Novels And Novellas Of Gottfried Keller:

Readers and Their Fictions in the Novels and Novellas of Gottfried Keller Gail K. Hart, 2020-05-01 This study seeks to alter our understanding of Keller's realism by problematizing the act of reading within fiction. The story of reading in Keller's fiction is a self-conscious meditation on the schism between life and its literary representation and it emphasizes the incapacity of that representation to actually and substantially influence the life it is based on. This has consequences for the didactic writer. The act of reading here generally involves a collision between fiction and its other and a move or tragic failure to move toward an acceptance and affirmation of the non-correspondence between life and literature, a process that renders moral didacticism a quixotic project. This position runs counter to the prevailing view of Keller as a consciously didactic author who tried to create a credible copy of reality in order to revise and repair the real world by inspiring readers to make the depicted improvements in their nonfictional universe.

Readers and Their Fictions in the Novels and Novellas of Gottfried Keller Gail Kathleen Hart, 1989 **Gottfried Keller and His Critics** Richard R. Ruppel, 1998 Survey of the criticism devoted to Gottfried Keller, the important nineteenth-century writer in German. The works of Gottfried Keller (1819-1890) rank alongside those of Goethe and Thomas Mann, yet this volume is the first in any language to examine the critical assessment and scholarly expertise devoted to him, ranging from the early stages of journalistic criticism to the present day. Professor Ruppel begins by exploring the literary industry in the nineteenth century: the literary marketplace, the tastes of the reading public, and the expectations of editors, before going on to survey representative journalistic assessments of Keller's writing, including critical correspondence from Keller's contemporaries. Subsequent chapters examine, in chronological order, the most important milestones in Keller scholarship, particularly twentieth-century criticism and the Anglo-American tradition. There is also a brief history of the translations of Keller's works into English, investigating some of the difficulties confronting English translators of Keller's poetically creative German. The study concludes with an overview of recent scholarly assessments covering the past twenty-five years.

Studies in Short Fiction, 1990 **Landmarks in the German Novel** Peter Hutchinson, 2007 There is a large pool of German novelists in whose oeuvre we may look for works of landmark significance and at certain periods of its history German fiction is particularly rich. Yet although the novel begins to assert itself in the seventeenth century, we have to wait until the late eighteenth and Goethe's first major prose work, *Werther*, to see it truly rise to the level of other genres. The thirteen novels featured in this collection have all proved milestones in the development of the form, and there is heavy prominence given to works by Goethe himself and by Thomas Mann. Through these, as well as those by such figures as Kafka, Hesse, and Günter Grass, we can trace the development of the novel to its far more self-conscious form, ranging through the social studies of the nineteenth to works which treat a variety of intellectual, psychological, and philosophical issues in the twentieth. A second volume will cover landmarks published between 1959 and the present day. These essays, all by specialists in the relevant field, were originally delivered as lectures in the University of
