**Literature of the 1900s** Jonathan Wild, 2017-01-17 Challenges conventional views of the Edwardian period as either a hangover of Victorianism or a bystander to literary modernism In this ground breaking study Jonathan Wild investigates the literary history of the Edwardian decade This period long overlooked by critics is revealed as a vibrant cultural era whose writers were determined to break away from the stifling influence of preceding Victorianism In the hands of this generation which included writers such as Arnold Bennett Joseph Conrad E M Forster Beatrix Potter and H G Wells the new century presented a unique opportunity to fashion innovative books for fresh audiences Wild traces this literary innovation by conceptualising the focal points of his study as branches of one of the new department stores that epitomized Edwardian modernity a These departments war and imperialism the rise of the lower middle class childrens literature technology and decadence and the condition of England offer both discrete and interconnected ways in which to understand the distinctiveness and importance of the Edwardian literary scene Overall The Great Edwardian Emporium offers a long overdue investigation into a decade of literature that provided the cultural foundation for the coming century **Katherine**

**Mansfield** Gerri Kimber, 2008 This book assesses the reason why Katherine Mansfield's reputation in France has always been greater than in England It examines the ways in which the French reception of Mansfield has idealised her persona to the extent of crafting a hagiography Mansfield is placed within the general literary context of her era exploring French literary tendencies at the time and juxtaposing them with the main literary trends in England The author determines the motives behind the French critics desire to put Mansfield on a pedestal discusses how the three years she spent on French soil influenced her writing and whether the translations of her work collude in the myth surrounding her personality This book is the first sustained attempt to establish interconnections between her own French influences literary and otherwise and the myth making of the French critics and translators The book also follows the critical appraisal of Mansfield's life and work in France from her death up to the present day by closely analysing the differing French critical responses The author reveals how these various strands combine to create a legend which has little basis in fact thereby demonstrating how reception and translation determine the importance of an author's reputation in the literary world Modernism,

D.H. Lawrence and Survival Ronald Granofsky, 2003 Although Darwin's ideas about evolution were dominant in D H Lawrence's day little scholarly work has been done on the influence of these concepts on his work This work argues that Lawrence employed ideas based on evolution in his fiction particularly during the transition between his marriage and leadership periods 1919-22 when he embarked on a major rethinking of the direction of his creative work and that these ideas contributed to the deterioration in his fiction after Women in Love The book shows that Lawrence's deliberate use of Darwinian elements in his narrative strategy occurred at a time when he was increasingly concerned about survival both personally due to illness and as an artist The result in his fiction is a subtext in which his anxieties are projected onto female characters and the evolution of his writing is frustrated by unresolved emotional conflicts Through new readings of the major fiction of Lawrence's transitional period Ronald Granofsky demonstrates that Lawrence's deterioration as a writer and the misogyny of his later work was primarily the result of a deliberate effort on his part to move the ideological yardsticks of his fiction

Semi-Detached Empire Todd Kuchta, 2010-03-24 In the first book to consider British suburban literature from the vantage point of imperial and postcolonial studies Todd Kuchta argues that suburban identity is tied to the empire's rise and fall Like the semi-detached house which joins separate dwellings under one roof suburbia and empire were geographically distinct but imaginatively linked Yet just as the semi conceals two homes behind a single facade suburbia's apparent uniformity masks its defining oppositions between country and city civilization and savagery master and slave
