Rethinking Middle East Politics:

Rethinking Middle East Politics Simon Bromley, 1994-01-01 Rethinking Middle East Politics considers a range of debates on the character of political and socioeconomic development in the Middle East focusing on the linked processes of state formation and capitalist development Simon Bromley seeks to reformulate the central questions involved in the study of state formation He builds a comparative framework based on an examination of key developmental processes in Turkey Egypt Iraq Saudi Arabia and Iran and offers a range of substantive theses on the place of democracy and Islam in the region His findings explain a very large part of what appears to be significant in the emergence of the modern Middle East Rethinking Middle East Politics presents a new way of analyzing politics in the Middle East offering a perspective that has major implications for rethinking Third World politics more generally and for the social and political theory of modernity

Rethinking Middle East Politics Simon Bromley, 1994 **Rethinking the Middle East** Efraim Karsh, 2003 Karsh contends that the influence of the Great Powers has not been the primary force behind the Middle East's political development nor the main cause of its famous volatility State Formation and Identity in the Middle East and North Africa K. Christie, M. Masad, 2013-12-17 For states in the Middle East North Africa and South Asia the Arab Spring has had different implications and consequences stemming from the politics of identity and the historical and political processes that have shaped development This book focuses on how these factors interact with globalization and affect state formation

Persistent State Weakness in the Global Age Vesna Bojicic-Dzelilovic, 2016-05-13 Persistent State Weakness in the Global Age addresses the question of why state weakness in the global era persists It debunks a common assumption that state weakness is a stop gap on the path to state failure and state collapse Informed by a globalization perspective the book shows how state weakness is frequently self reproducing and functional The interplay of global actors policies and norms is analyzed from the standpoint of their internalization in a weak state through transnational networks Contributors examine the reproduction of partial and discriminatory rule at the heart of persistent state weakness drawing on a wide geographical range of case studies including the Middle East the Balkans the post Soviet states and sub Saharan Africa The study of state weakening dynamics related to institutional incapacity colonial and war legacies legitimacy gaps economic informality democratization and state building provides an insight into durability and resilience of weak states in the global age

Stalled Democracy Eva Bellin, 2018-07-05 In this ambitious book Eva Bellin examines the dynamics of democratization in

late developing countries where the process has stalled Bellin focuses on the pivotal role of social forces and particularly the reluctance of capital and labor to champion democratic transition contrary to the expectations of political economists versed in earlier transitions Bellin argues that the special conditions of late development most notably the political paradoxes created by state sponsorship fatally limit class commitment to democracy In many developing countries she contends those who are empowered by capitalist industrialization become the allies of authoritarianism rather than the agents of democratic reform Bellin generates her propositions from close study of a singular case of stalled democracy Tunisia Capital and labor's complicity in authoritarian relapse in that country poses a puzzle The author's explanation of that case is made more general through comparison with the cases of other countries including Mexico Indonesia South Korea Turkey and Egypt Stalled Democracy also explores the transformative capacity of state sponsored industrialization By drawing on a range of real world examples Bellin illustrates the ability of developing countries to reconfigure state society relations redistribute power more evenly in society and erode the peremptory power of the authoritarian state even where democracy is stalled

The Arab State Adham Saouli, 2012-03-29 This book explores the conditions of state formation and survival in the Middle East Based on Historical Sociology it provides a model for study of the state in the Arab world and a theory to explain its survival Examining states as a process the author argues that what emerged in the Middle East in the beginning of the twentieth century are social fields where states form and deform and not states as defined by Max Weber He explores the constitutions of these fields their cultural material and political structures and identifies three stages of state development in which different cases can be located Capturing the dilemmas that late forming states face as regimes within them cope with domestic and international pressure the author illustrates several Middle East cases and presents a detailed analysis of state developments in Saudi Arabia and Iraq He maintains that more than the domestic characteristics of individual states state survival in the Middle East is also a function of the anarchic nature of the international and by extension the regional states system The first to raise the question on the survivability of the territorial states in the Middle East while engaging with both International Relations and Comparative Politics theories this book will be of interest to students and scholars of Middle East politics

Comparative Politics and International Relations

The Oil Crisis Fiona Venn, 2016-07-01 In October 1973 two crises one

economic one political intersected with dramatic and long term consequences for international relations On 6 October Egypt and Syria launched an attack on Israel and within a few days the major Arab oil producers announced their support by use of the oil weapon including a boycott of supplies for countries friendly to Israel and a programme of production cuts This was followed by the unilateral declaration of a steep increase in the price of oil by the Organization of Petroleum Exporting Countries OPEC The result was international panic and world recession Crude oil prices soared by a massive fourfold in just three months The West's vulnerability had been exposed it was being held hostage to oil Yet despite efforts to address this dependence on oil imports in following years the 1979 Iranian Revolution triggered a further upward surge in prices Today the importance of oil remains at the forefront of the West's foreign policy calculations in the Middle East In this fascinating and timely new look at the oil crisis Fiona Venn examines these issues and the more unexpected effects of the crisis She asks just how much really changed in the economic balance of power Most importantly she argues that OPEC was used as a

scapegoat for the world recession which had been already underway when the crisis detonated **Political Succession in the Arab World** Anthony Billingsley, 2009-12-16 Political succession is a key issue in the contemporary Middle East In this new study the author examines the process and shows how respect for those in authority and tribal codes of loyalty have been far more influential in maintaining regimes than security institutions and political repression The Arab world is faced by political turmoil and demands for reform Many of the problems of the region are attributed to the form of leadership that dominates the area leadership that is authoritarian and focused on regime survival rather than political change The book highlights the ways in which family loyalties pervade political economic and social life and how constitutions are being used to consolidate the power of ruling families in republics and monarchies The volume explores the notion that the region's rulers monarchic and republican are inclined to pass their power on to their sons and evaluates the use they make of family and tribal networks to maintain their power The work seeks to demonstrate that despite economic and social problems Arabs value stability and prefer an authoritarian family based regime than government run by Islamist groups Providing new insights into the influences on political succession in the Middle East this work will be of great interests to scholars of Middle East studies history and international relations **Centers of Power in the Arab Gulf States** Kristian Coates

Ulrichsen, 2024-02-01 A comprehensive examination of the nature of power in the Gulf comparing and contrasting its origins exercise and opposition in six Arab countries Muslimism in Turkey and Beyond Neslihan Cevik, 2015-11-17 This book identifies a new Islamic form in Turkey Muslimism Neither fundamentalism nor liberal religion Muslimism engages modernity through Islamic categories and practices This new form has implications for discussions of democracy and Islam in the region similar movements across religious traditions and social theory on religion **After Khomeini** Anoushiravan Ehteshami, 2002-03-11 For Iran the years since Ayatollah Khomeini's death have been dominated by the need for political consolidation and economic reconstruction The book assesses the critical dilemmas of the regime both previous to and since

the demise of its first spiritual leader The vital issues of political succession and constitutional reform are addressed contributing to an analysis of the structures and politics of power How these have reflected upon economic policy is considered with close attention being given to the reform policies of Rafsanjani Foreign policy and security issues are discussed in both regional and global terms and include a study of Iranian defence strategy and its controversial re armament drive The final chapter examines the direction and context of all of these major policy areas providing an analysis of whether the Islamic Republic truly represents a revolutionary alternative for the Third World or whether in fact it has developed in time to fall within a similar mould to other notable revolutions casting by the wayside any uniquely Islamic agenda and alternatives At the heart of this study is the belief that the Islamic regime has since the cease fire with Iraq but more specifically since Ayatollah Khomeini's death passed into a new stage of development referred to in the book as the Second Republic

American Journal of Islamic Social Sciences 19:1 Mahmoud Dhaouadi, Katherine Bullock, Abdullah Y.S. Mohammad and Hamed H. Chaos in Yemen Isa Blumi, 2010-09-13 Chaos in Yemen challenges recent interpretations of Yemen's complex social political and economic transformations since unification in 1990 By offering a new perspective to the violence afflicting the larger region it explains why the Abdullah Ali Salih regime has become the principal beneficiary of these conflicts Adopting an inter disciplinary approach the author offers an alternative understanding of what is creating discord in the Red Sea region by integrating the region's history to an interpretation of current events In turn by refusing to solely link Yemen to the global struggle against Islamists this work sheds new light on the issues policy makers are facing in the larger Middle East As such this study offers an alternative perspective to Yemen's complex domestic affairs that challenge the over emphasis on the tribe and sectarianism Offering an alternative set of approaches to studying societies facing new forms of state authoritarianism this timely contribution will be of great relevance to students and scholars of the Middle East and the larger Islamic world Conflict Resolution Comparative Politics and International Relations

The International Politics of the Persian Gulf Arshin Adib-Moghaddam, 2006-09-27 Adib Moghaddam examines the causes and consequences of conflict in one of the most important regions of the world Bridging the gap between critical theories of international relations and the empirical study of the Gulf area this book expands on the many ideologies cultural inventions and ideational constructs that have affected relations in the past three decades Key issues explored include the rise and fall of Arab and Persian nationalism the international repercussions of the Islamic revolution in Iran the events surrounding the three Gulf Wars the mindset of terrorist networks such as al Qaeda why

The International Politics of the Persian Gulf presents the first comprehensive analysis of international relations in the Gulf
from an explicitly multidisciplinary perspective *A History of Stability and Change in Lebanon* Joseph Bayeh, 2017-06-30
Lebanon is a country whose domestic politics have even more than others in the region been at the mercy of changes on the
international stage Having been under Ottoman and French rule in the nineteenth and early twentieth centuries the post
World War II era has seen Lebanon subjected to Israeli Syrian and American interventions which have all threatened the
country's stability as a state Joseph Bayeh argues that it is this international dimension which holds the key to an in depth
understanding of the country In support of this argument Bayeh examines Lebanese history from its early days under the
Ottomans to the present day in order to show how international shifts and conflicts have had their impact on Lebanon With
changes such as the fall of the Ottoman empire the rise of US power after World War II the end of the Cold War and the new
focus on the region in the aftermath of 9 11 Lebanon has at various junctures been bolstered or undermined Bayeh tracks all
of this offering insights into the workings of Lebanon's domestic politics which will appeal to researchers of the international
relations of the Middle East and Lebanon's political history
