**Other Worlds and Their Relation to This World** Tobias Nicklas,Joseph Verheyden,Erik M.M. Eynikel,Florentino Garcia Martinez,2010-09-06 Is there a future after death and what does this future look like What kind of life can we expect and in what kind of world Is there another hopefully better world than the one we live in The articles collected in this volume all written by leading experts in the field deal with the question how ancient Jewish and Christian authors describe otherworldly places and situations They investigate why various forms of texts were created to address the questions above how these texts functioned and how they have to be understood It is shown how ancient descriptions of the otherworld are taking over and reworking existing motifs forms and genres but also that they mirror concrete problems ideas experiences and questions of their authors and the first readers

**The Cosmology of the Bhagavata Purana** Richard L. Thompson,2007-01-01 From the flat earth to the sun s chariot traditional spiritual texts seem wedded to outmoded cosmologies that show at best the scientific limitations of their authors The Bhagavata Purana one of the classical scriptures of Hinduism seems at first glance to be no exception However a closer examination of this text reveals unexpected depths of knowledge in ancient cosmology This shows that the cosmology of the Bhagavata Purana is a sophisticated system with multiple levels of meaning that encode at least four different astronomical geographical and spiritual world models By viewing the text in the light of modern astronomy Richard Thompson shows how ancient scientists expressed exact

knowledge in apparently mythological terms Comparison with the ancient traditions of Egypt and the Near East shows early cultural connections between India and these regions including a surprisingly advanced science However quantitative science is only part of the picture This work also offers a clear understanding of how the spiritual dimension was integrated into ancient Indian cosmology Contents Introduction to Bhagavata Cosmology 1 Introduction to Texts 2 The Islands and Oceans of Bhu mandala 3 The Solar System in Projection 4 The Solar system in three Dimensions 5 The Earth and Local Geography 6 The Realm of the Demigods 7 The Greater Universe 8 Notes on Time and Chronology 9 General Observations Appendices Bibliography List of tables Glossary Index      Social Virtual Worlds and Their Places Merrill L.

Johnson,2022-06-11 This book provides a foundational look at social virtual worlds from the geographer s perspective How can the geographer s craft be applied to social virtual worlds This question is addressed through careful analysis of what social virtual worlds are how interest in these worlds has waxed and waned during the twenty first century and the meaning of their concocted spaces Examining one of the key features of the social virtual world the avatar the book focuses on its user s motivations and identity choices The book draws on the geographical understanding of place to examine where avatars live work and roam and describes how virtual world places resemble and diverge from actual world places A mixed methods survey conducted in Second Life adds additional breadth to the discussion whilst a series of vignettes gives extra life to the subject matter This original exploration of the content and meaning of social virtual worlds is an essential resource for geographers and for anyone interested in the virtual world experience      *All These Shiny Worlds* Jefferson Smith,Bryce Anderson,Richard Levesque,J.S.
