Roots of the New Arab Film Roy Armes,2018-01-06 Roots of the New Arab Film deals with the generation of filmmakers from across North Africa and the Middle East who created an international awareness of Arab film from the mid 1980s onwards These seminal filmmakers experienced the moment of national independence first hand in their youth and retained a deep attachment to their homeland Although these aspiring filmmakers had to seek their training abroad they witnessed a time of filmic revival in Europe Fellini and Antonioni in Italy the French New Wave and British Free Cinema Returning home these filmmakers brought a unique insider outsider perspective to bear on local developments in society since independence including the divide between urban and rural communities the continuing power of traditional values and the status of women in a

changing society As they made their first films back home the feelings of participation in a worldwide movement of new independent filmmaking was palpable Roots of the New Arab Film is a necessary and comprehensive resource for anyone interested in the foundations of Arab cinema

On Hollywood Allen J. Scott, 2018-06-05 Why is the U S motion picture industry concentrated in Hollywood and why does it remain there in the age of globalization Allen Scott uses the tools of economic geography to explore these questions and to provide a number of highly original answers The conceptual roots of his analysis go back to Alfred Marshall s theory of industrial districts and pick up on modern ideas about business clusters as sites of efficient and innovative production *On Hollywood* builds on this work by adding major new empirical elements By examining the history of motion picture production from the early twentieth century to the present through this analytic lens Scott is able to show why the industry which was initially focused on New York had shifted the majority of its production to Southern California by 1919 He also addresses in detail the bases of Hollywood s long standing creative energies and competitive advantages At the same time the book explores the steady globalization of Hollywood s market reach as well as the cultural and political dilemmas posed by this phenomenon *On Hollywood* will appeal not only to general readers with an interest in the motion picture industry but also to economic geographers business professionals regional development practitioners and cultural theorists as well

New Perspectives on Consumer Culture Theory and Research Renáta Sedláková, Pavel Zahrádka, 2013-02-21 In the post socialist countries the subject of consumption has not received sufficient attention from the perspective of Consumer Culture Theory The opinion has long prevailed among the majority of social scientists from this region that consumer society and consumptive behaviour is a socially destructive phenomenon and one of the main causes of problems in contemporary society This impression has prevented them from scrutinizing the symbolic dimension of consumption and led them to a critical analysis of the social causes and environmental consequences of excessive consumption The examination of symbolic aspects of consumer culture or the mutual interaction of culture and marketing communication for example have remained outside the realm of academic interest The absence of comprehensive academic interest in the topic of consumer culture does not however mean that consumer culture is not a subject of research Such research instead takes place outside of the sphere of the university in the commercial sector and is primarily focused on issues of how to successfully sell products and services Due to competitive concerns commercial research into consumer culture has led to the privatization of its results which runs contrary to the ideal of science as an open and critical project The goal of this book is to create a counterbalance to this science in the shadows and overcome the mutual distrust between the academic and commercial spheres and make possible the transfer of recent discoveries between the two parties This publication is dedicated to the exploration of three areas of consumer culture research on consumer culture and consumer behaviour in post socialist countries especially in the Czech Republic new developments in the theory of consumer culture and innovative methodological approaches to its research and finally to recent criticism of consumer culture and

consumerism It emerged from the collaboration of a team of authors made up of leading European researchers in the field of consumer culture such as Kate Soper London Metropolitan University Franz Liebl Berlin University of the Arts and Rainer Gries University of Vienna as well as promising young scholars from the Czech Republic Great Britain Sweden Serbia Poland and Portugal This book will be of great interest to students and scholars of sociology cultural studies marketing and market research

New Hollywood Cinema Geoff King, 2002 Addresses the stylistic industrial and socio historical contexts of the New Hollywood cinema identifying its distinctive characteristics and its points of similarity with the Hollywood of the past Topics include the industrial context to the blockbuster format of contemporary Hollywood the frameworks of authorship genre and stardom through which New Hollywood films have been produced and consumed and the growing importance of small screen media to the overall economy of Hollywood Annotation copyrighted by Book News Inc Portland OR

Playing the Waves Jan Simons, 2007 Dogma 95 the avant garde filmmaking movement founded by the Danish director Lars von Trier and three of his fellow directors was launched in 1995 at an elite cinema conference in Paris when von Trier was called upon to speak about the future of film but instead showered the audience with pamphlets announcing the new movement and its manifesto A refreshingly original critical commentary on the director and his practice Playing the Waves is a paramount addition to one of new media's most provocative genres games and gaming Playing the Waves cleverly puns on the title of one of von Trier's most famous features and argues that Dogma 95 like much of the director's low budget realist productions is a game that takes cinema beyond the traditional confines of film aesthetics and dramatic rules Simons articulates the ways in which von Trier redefines the practice of filmmaking as a rule bound activity and stipulates the forms and structures of games von Trier brings to bear on his films as well as the sobering lessons he draws from economic and evolutionary game theory Much like the director's films this fascinating volume takes the traditional point of view of film theory and film aesthetics to the next level and demonstrates we have much to learn from the perspective of game studies and game theory

Weapons of Mass Distraction Matthew Fraser, 2014-03-04 In its march to becoming the world's first hyper power the United States has been as dependent on its soft power the allure of American lifestyles and culture as it has been on the hard power of military might In Weapons of Mass Distraction Matthew Fraser examines the role of American pop cultural industries in international affairs Fraser focuses on the major areas of soft power movies television pop music and fast food and traces the origins history and current influence of these on U S foreign policy He describes how the American film television and music industries enjoy a ubiquitous global presence that has made them indispensable to the U S government which has often gone so far as to fund them directly including the White House sponsored radio station in the Middle East launched with the hopes of winning over Muslim youths with American pop songs A Coca Cola lobbyist once famously declared that The best barometer of the relationship of the U S and any other country is the way Coca Cola is treated Fraser proves this claim isn't to be taken lightly He charts the global spread of the fast food industry the role of Coca Cola and

McDonald's in American foreign policy and the recent rise of their opponents the anti globalization movement Do things really go better with Coca Cola Fraser's answer is a resounding yes While American soft power remains a contentious issue he believes it promotes values and beliefs that are ultimately good for the rest of the world Still what are the future implications of American soft power Will national identities decline as the world order is transformed into a state of electronic feudalism where there is no central power Weapons of Mass Distraction provides an engaging enlightening and provocative look at the future of American foreign policy and popular culture in the 21st century *Contemporary American Cinema* Linda Williams, Michael Hammond, 2006-05-16 One of the rare collections I would recommend for use in undergraduate teaching the chapters are lucid without being oversimplified and the contributors are adept at analyzing the key industrial technological and ideological features of contemporary U S cinema Diane Negra University of East Anglia UK *Contemporary American Cinema* offers a fresh and sometimes revisionist look at developments in the American film industry from the 1960s to the present Readers will find it lively and provocative Chuck Maland University of Tennessee USA *Contemporary American Cinema* is the book on the subject that undergraduate classes have been waiting for Comprehensive detailed and intelligently organized and written in accessible and compelling prose *Contemporary American Cinema* will be embraced by instructors and students alike Charlie Keil Director Cinema Studies Program University of Toronto Canada *Contemporary American Cinema* usefully gathers together a range of materials that provide a valuable resource for students and scholars It is also a pleasure to read Hilary Radner University of Otago New Zealand *Contemporary American Cinema* deepens our knowledge of American cinema since the 1960s This is an important collection that will be widely used in university classrooms Lee Grieveson University College London UK *Contemporary American Cinema* is a clear sighted and tremendously readable anthology mapping the terrain of post sixties US cinema with breadth and critical verve Paul Grainge University of Nottingham UK This collection of freshly written essays by leading specialists in the field will most likely be one of the most important works of reference for students and film scholars for years to come Liv Hausken University of Oslo Norway *Contemporary American Cinema* is the first comprehensive introduction to American cinema since 1960 The book is unique in its treatment of both Hollywood alternative and non mainstream cinema Critical essays from leading film scholars are supplemented by boxed profiles of key directors producers and actors key films and key genres and statistics from the cinema industry Illustrated in colour and black and white with film stills posters and production images the book has two tables of contents allowing students to use the book chronologically decade by decade or thematically by subject Designed especially for courses in cinema studies and film studies cultural studies and American studies *Contemporary American Cinema* features a glossary of key terms fully referenced resources and suggestions for further reading questions for class discussion and a comprehensive filmography Individual chapters include The decline of the studio system The rise of American new wave cinema The history of the blockbuster The parallel histories of independent and underground film Black

cinema from blaxploitation to the 1990s Changing audiences The effects of new technology Comprehensive overview of US documentary from 1960 to the present Contributors include Stephen Prince Steve Neale Susan Jeffords Yvonne Tasker Barbara Klinger Jim Hillier Peter Kramer Mark Shiel Sheldon Hall Eithne Quinn Michele Aaron Jonathan Munby

Hollywood Hype and Audiences Thomas Austin, 2002-05-03 This book traces the circulation in Britain of three Hollywood films Basic Instinct Bram Stoker's Dracula and Natural Born Killers from marketing and critical reception to consumption in cinemas and on video It draws on economic discursive contexts and original audience research to trace how meanings pleasures and uses are derived from popular film A significant intervention into methodological debates in film studies and a timely investigation of film culture it focuses on key questions about genre taste sexual pleasure and screen violence

Independent Cinema D.K. Holm, 2007-11-01 Just what is independent cinema D K Holm columnist for Kevin Smith's website and author of Robert Crumb and Quentin Tarantino aims to define a term that can be difficult to distinguish from categories such as avant garde underground experimental or art films By contrasting studio era Hollywood with changes in the business since the 1970s and chronicling the rise of companies such as Miramax and New Line this book shows the birth of a commercial environment in which the new independent cinema could emerge Detailed assessments and previously unpublished interviews with filmmakers such as James Mangold Walk the Line Jill Sprecher Clockwatchers and Guy Maddin The Saddest Music in the World show the vastly different roles independent cinema can play in different hands An accompanying DVD features Paul Cronin's documentary Film as a Subversive Art Amos Vogel and Cinema 16 about the founder of the New York Film Festival and one of the country's most important film societies

British Film Design Laurie N. Ede, 2010-03-30 British Film Design is about the things that you see when you close your eyes and think of British cinema Dr No's Hideaway the buffet of Brief Encounter Vera Drake's parlour Hogwarts School and a thousand other visions of British films This book is also about the people who have created those visions The physical environments of films are made by Production Designers Art Directors Their efforts have tended to go unnoticed by cinema audiences British Film Design offers the first comprehensive historical survey of British art direction It takes a chronological journey through British film design starting with the efforts of the film primitives of the silent era and ending with the modern day purveyors of part built part computer generated blended design Certain themes recur en route These include British cinema's obsession with realism the Production Designer's continual struggle for recognition influence from European artists and the benefits and perils of American finance The book succeeds in expressing the joy of looking at films from inside out seeing beyond the stars to recognise sets as silent players in the action

Historical Dictionary of British Cinema Alan Burton, Steve Chibnall, 2013-07-11 British cinema has been around from the very birth of motion pictures from black and white to color from talkies to sound and now 3D it has been making a major contribution to world cinema Many of its actors and directors have stayed at home but others ventured abroad like Charlie Chaplin and Alfred Hitchcock Today it is still going strong the

only real competition to Hollywood turning out films which appeal not only to Brits just think of Bridget Jones while busily adding to franchises like James Bond and Harry Potter So this Historical Dictionary of British Cinema has a lot of ground to cover This it does with over 300 dictionary entries informing us about significant actors producers and directors outstanding films and serials organizations and studios different films genres from comedy to horror and memorable films among other things Two appendixes provide lists of award winners Meanwhile the chronology covers over a century of history These parts provide the details countless details while the introduction offers the big story And the extensive bibliography points toward other sources of information

American Independent Cinema Geoff King,2014-09-08 The independent sector has produced many of the most distinctive films to have appeared in the US in recent decades From Sex Lies and Videotape in the 1980s to The Blair Witch Project and New Queer Cinema in the 1990s and the ultra low budget digital video features of the 2000s indie films have thrived creating a body of work that stands out from the dominant Hollywood mainstream But what exactly is independent cinema This the first book to examine the question in detail argues that independence can be defined partly in industry terms but also according to formal and aesthetic strategies and by distinctive attitudes towards social and political issues suggesting that independence is a dynamic rather than a fixed quality Chapters focus on

distribution and relationships with Hollywood studios narrative Clerks and Slacker to Pulp Fiction Magnolia and Memento and other formal dimensions from Blair Witch s authenticity to expressive and stylized camerawork and editing in work from Harmony Korine to the Coen brothers approaches to genre and alternative socio political visions

Genre and Hollywood Steve Neale,2005-06-20 Genre and Hollywood provides a comprehensive introduction to the study of genre In this important new book Steve Neale discusses all the major concepts theories and accounts of Hollywood and genre as well as the key genres which theorists have written about from horror to the Western He also puts forward new arguments about the importance of genre in understanding Hollywood cinema Neale takes issue with much genre criticism and genre theory which has provided only a partial and misleading account of Hollywood s output He calls for broader and more flexible conceptions of genre and genres for more attention to be paid to the discourses and practices of Hollywood itself for the nature and range of Hollywood s films to be looked at in more detail and for any assessment of the social and cultural significance of Hollywood s genres to take account of industrial factors In detailed revisionist accounts of two major genres film noir and melodrama Neale argues that genre remains an important and productive means of thinking about both New and old Hollywood its history its audiences and its films

The Business Strategies of the Major Hollywood Film Studios (1929-2024) Guy Di Piazza,2025-02-21 Surveying the strategies employed by film studios to market and produce their most successful films between 1929 and present day this book incorporates multilayered comprehensive analysis on the media industry and how it works Author and business strategist Guy Di Piazza draws on over 25 years of experience and provides insights into the corporate business market and production strategies of the leading motion picture companies through a 95

year history Investigating the initiatives employed particularly for the most successful or premium films allows Guy to evaluate the commercial and creative strategies of the major film studios during four distinct historical periods The golden age of Hollywood 1929 1949 Hollywood in decline and in transition 1950 1966 The new American cinema 1967 1976 and The era of media giants 1977 2024 With extensive business strategy analysis this book assesses the film industry from a commercial and economic perspective to bring better understanding to readers as to how the major studios have evolved over time and what that means for today's digitally connected world Ideal for researchers and advanced students studying film business and the media industry as well as professionals in the film business **The Political Economy of Disney**

Alexandre Bohas, 2016-09-15 This book sheds new light on the socio economic impact of multinational corporations Combining Cultural Studies and International Political Economy it provides a revealing analysis of the Walt Disney Company and by extension the wider Hollywood studio system It does so by examining the cultural and economic forces powering the industry's expansion the civilisation that Disney disseminates and the various ways that societies beyond the USA have adopted facets of the Hollywood productions to which they are exposed Identifying both the strengths and the weaknesses of these transnational firms it demonstrates the significance of their contribution to American power and predominance

Lost Illusions David A. Cook, 2002-03-15 This volume examines the development of film and the film industry during the 1970s and the political and economic background that influenced it
