Opening Blind Eyes:

Open Blind Eyes Rachel Timothy, 2020-11-24 Open Blind Eyes brings you face to face with the reality of sex trafficking in America through the true story viewpoint of a girl from a small town Rachel was only nine years old when she was first approached by a perpetrator who was known to her as a teacher and coach She goes into detail of the process of being groomed and how the evil of what was happening to her in the dark remained unseen by everyone around her She describes how she coped for so many years by blocking out the memories only to have them resurface when she was an adult with a family of her own Rachel had no idea that when she would pursue justice it would end up putting her right back in the world of trafficking It wasn't until her church family saw the signs and believed what she was saying that she was able to start the process of finding freedom Rachel shows her faith and love of God during the highs and lows of her journey and she prays for each person who reads her story That their eyes will be opened and their actions will lead us toward ending sex trafficking in our world *Opening Blind Eyes* A. L. O. E., 187? *And Their Eyes Were Opened* Ray McAllister, 2021-10-15 This book is a detailed theological analysis of blindness in the Hebrew Bible It explores blindness in the context of religion law codes theodicy social justice and healing McAllister first considers the wider context of ancient Near Eastern cultures before analyzing various words for blindness found in the Hebrew Bible The focus then shifts to examining blindness in various blocks of material in the Law the Prophets and the Writings before synthesizing the findings This book is excellent for scholars and students interested in better understanding disability in the context of the Bible and the ancient Near East

Ackerley, 2016-07-28 Many twenty first

century evangelical charismatics in Britain are looking for a faith that works They want to experience the miraculous in terms of healings and Godsent financial provision Many have left the mainstream churches to join independentcharismatic churches led by those who are perceived to have special insights and to teach principles that will help believers experience the miraculous But all is not rosy in this promised paradise and when people are not healed or they remain poor they are often told that it is because they did not have enough faith This study discovers the origin of the principles that are taught by some charismatic leaders Glyn Ackerley identifies them as the same ideas that are taught by the positive confession health wealth and prosperity movement originating in the United States The origins of the ideas are traced back to New Thought metaphysics and its background philosophies of subjective idealism and pragmatism These principles were imported into the UK through contact between British leaders and those influenced by American word of faith teachers Glyn Ackerley explains the persuasiveness of such teachers by examining case studies suggesting their miracles may well have socialand psychological explanations rather than divine origins
