We've Never Been Alone Paul Von Ward,2011-09-01 Whether you call them gods angels ETs or aliens sufficient proof now exists that beings more advanced than humans have influenced our history Evidence suggests that these outsiders shaped our religions genes technology and cultures In fact they may have provided the impetus for modern civilization Paul Von Ward investigates why modern science and religion refuse to address the possibility that humans interact with Advanced Beings ABs He reviews sacred texts myths and legends from the Old Testament Hebrew texts and the Vedas to the Greek myths Sumerian tablets and other historical sources to make the link between religions their gods and alien intervention He shows how this history of AB intervention has been suppressed and challenges readers to reexamine the origins of notions like divine revelation to find common ground among the world s cultures and religions Previously published as God Genes and Consciousness *The Night Sky, Updated and Expanded Edition* Richard Grossinger,2014 Ever since Homo sapiens first looked up at the stars we as a species have been looking for meaning in the mysteries of the night sky Over the millennia as our knowledge science and technology developed the stories we told ourselves about the universe and our place in it developed as well In *The Night Sky* Richard Grossinger traces those developments covering multiple aspects of humanity s complex relationship to the cosmos Covering not only astronomy but also cosmology cosmogony astrology and science fiction he offers us a revelatory look at the firmament through his own telescope fitted with an anthropological lens Throughout his explorations Grossinger continually reflects on the deeper meaning of our changing concepts about the universe and creation offering insight into how each new discovery causes us to redefine the values moralities and aesthetics by which we live He also calls into question the self aggrandizing notion that humanity can and will conquer all and injects our strident confidence in science with a healthy dose of humility and wonder Filled with poetic observation and profound questions *The Night Sky* is a brilliant reflection of humanity s relationship with the cosmos a relationship fed by longing doubt and awe

Raising Our Vibrations for the New Age Sherri Cortland, ND,2015-12-16 A group of entities on the other side of the veil came together for the specific purpose of dictating this material to Sherri through automatic writing This was originally introduced in her first book Windows of Opportunity As they stated The purpose of this book is simple It is to help people make it through the Shift with as little stress and drama as is humanly possible during a sensation of this type and it is sensational as it is something that beings are gathering from all corners of the universe to see It is something that entities would give there soul teeth to be part of because it is so juicy and so new and so historic Being on your side and having to worry about weather changes and storms and disasters isn t fun and we all know that but on this side we know that every one of you who is there signed up for it and you were chosen to be there It is not something that you are part of because of bad luck
