The Social History of Ideas in Quebec, 1760-1896 Yvan Lamonde, 2013-05-01

In The Social History of Ideas in Quebec 1760 1896 Yvan Lamonde traces the province s political and intellectual development from the British Conquest to the election of Prime Minister Wilfrid Laurier From the individuals who formulated them to the networks in which they circulated to their reception Yvan Lamonde focuses on ideas at work and their role in shaping Quebec history The mapping of a complete intellectual circuit allows Lamonde to follow the strains of ideological debates monarchism liberalism republicanism democracy revolution ultramontanism nationalism over more than a century His work is informed by an encyclopaedic reading of the print culture of the period and the book conveys a profound and nuanced knowledge of the social context and cultural channels educational institutions newspapers the book trade in which intellectual debate occurred Lamonde argues that while these ideas concerned politics they went beyond the political they were a fundamental and everyday element of civic society that was expressed in the public sphere through pamphlets the popular press and sermons Lamonde s scrutiny of public opinion in Quebec allows him to place such currents of thought in the colony s international context that of France England Rome the United States and their respective metropolises

The Social History of Ideas in Quebec 1760 1896 covers a volatile time in the province s history from the end of the French Regime through the American invasion the War of 1812 and the Rebellions in Lower Canada capturing the cultural ascension of a society and the foundations of Quebec identity

Quebec Hydropolitics David Massell, 2011-01-27

The construction in the 1940s of hydroelectric dams and reservoirs Lakes Manouan and Passe Dangereuse were enormous projects that had consequences not only on the environment but also on international affairs Built by the Aluminium Company of Canada Rio Tinto Alcan the project helped meet the American and Allied Forces demand for electrical power and aluminium ingot during the Second World War but also forced Innu Montagnais hunter trappers from their ancestral lands Examining sources as varied as the papers of the Franklin D Roosevelt Presidential Library and interviews with Montagnais elders Quebec Hydropolitics presents a compelling synthesis of business and social history as well as wartime politics David Massell reconstructs the story of a changing landscape through the perspectives of corporate executives government officials

Society, 2000 At the turn of the century American industrialist J B Duke set his sights on one of North America s greatest and
most spectacular rivers the Saguenay In Amassing Power David Massell chronicles thirty years of international intrigue as
Duke manoeuvred to gain access to develop and sell the tremendous hydro electric potential of a remote river in Quebec The
damming of the Saguenay brought industrialisation on a grand scale to rural Quebec in the form of newsprint and aluminum
manufacture Tapping into rich and diverse sources in Canada the United States and Europe Massell provides an
interdisciplinary cross border study of American capital and Canadian resources He shows us how ever larger amounts of
capital yielded increasingly massive and sophisticated applications of hydroelectric technology Grand industrial plans in turn
encroached upon provincial water rights and farmers lands which drew the attention of the state He examines the protracted
power struggle between public and private interests between American capitalists and the nascent bureaucracy of the
province of Quebec and describes the origins and evolution of the events that led to state control over hydraulic resources in
the province In doing so he provides vivid portraits of Duke and of Quebec politicians of the period and gives a dramatic
account of the protracted battle of wits between Duke s chief engineer William States Lee and Quebec s chief of Hydraulic
Service Arthur Amos Amassing Power speaks to the integration of North American economies vividly illustrating the process
by which American capital drew Canada s resource rich North into the economic orbit of the United States Un juste prix

Cultural Histories, Memories and Extreme Weather Georgina H. Endfield, Lucy Veale, 2017-07-28 Extreme weather events such as droughts strong winds and storms flash floods and extreme heat and cold are among the most destructive yet fascinating aspects of climate variability Historical records and memories charting the impacts and responses to such events are a crucial component of any research that seeks to understand the nature of events that might take place in the future Yet all such events need to be situated for their implications to be understood This book is the first to explore the cultural contingency of extreme and unusual weather events and the ways in which they are recalled recorded or forgotten It illustrates how geographical context particular physical conditions an area's social and economic activities and embedded cultural knowledges and infrastructures all affect community experiences of and responses to unusual weather Contributions refer to varied methods of remembering and recording weather and how these act to curate recycle and transmit extreme events across generations and into the future With international case studies from both land and sea the book explores how and why particular weather events become inscribed into the fabric of communities and contribute to community change in different historical and cultural contexts This is valuable reading for students and researchers interested in historical and cultural geography environmental anthropology and environmental studies

The Thousandth Man Barry Cahill, 2000-12-15 James McGregor Stewart 1889-1955 was perhaps the foremost Canadian corporate lawyer of his day He was also an appellate counsel venture capitalist Conservative Party fundraiser bibliographer of Rudyard Kipling and sometime university teacher of classics A leader of the bar in the inter war period he was the first Maritimer to serve as president of the Canadian Bar Association He distinguished himself mainly in constitutional cases before the Judicial Committee of the Privy Council During his career Stewart was also head of the leading law firm in eastern Canada now Stewart McKelvey Stirling Scales director and vice president of the Royal Bank of Canada and senior counsel to the Royal Commission on Dominion Provincial Relations Above all Stewart was committed to the idea of law as a truly learned profession and to the bar as the most important legal institution To this day no lawyer has held such prestige and power both within and outside Atlantic Canada in his time he was the only Maritime lawyer who gained full acceptance by every branch of the Canadian establishment Thematic rather than chronological in approach this fascinating legal biography provides both a history of a uniquely Canadian career and an interpretation of its significance for Stewart's time and ours
