The World's Major Languages Bernard

Comrie, 2018-04-17 *The World's Major Languages* features over 50 of the world's languages and language families. This revised edition includes updated bibliographies for each chapter and up-to-date census figures. Grammatical Profiles Martin J. Ball, Paul Fletcher, David Crystal, 2019-07-15 This book brings together 12 previously unpublished language profiles based on the original Language Assessment Remediation and Screening Procedure (LARSP). The languages featured are Bangla, Croatian, Colombian Spanish, Inuktitut, Norwegian, Portuguese, Russian, Slovak, Slovenian, Swahili, Tamil, and Turkish. Some of these languages are included as they are likely to be encountered as home languages of clients by speech language therapists and pathologists working in the UK, the US, Australia, and elsewhere. Others are included because they are languages found where speech language pathology services are provided but where no grammatical profile already exists. The collection will be an invaluable resource book for speech language pathologists who wish to analyse and assess the grammatical abilities of their clients who speak one of these languages. This new collection complements previous books in this series on the same theme, and together they cover 34 languages of the world.
