paratroopers together with remnants of tank units offered dogged resistance. Meanwhile the rest of Eisenhower's broad front strategy came to a halt as Patton from the south and Hodges from the north converged on the enemy incursion. Yet it would take an epic six week long winter battle the bloodiest in the history of the US Army before the Germans were finally pushed back. Christer Bergström has interviewed veterans gone through huge amounts of archive material and performed on the spot research in the area. The result is a large amount of previously unpublished material and new findings including reevaluations of tank and personnel casualties and the most accurate picture yet of what really transpired from the perspectives of both sides. With nearly four hundred photos, numerous maps and thirty two superb color profiles of combat vehicles and aircraft it provides perhaps the most comprehensive look at the battle yet published. **World War II in Europe** David T.

Zabecki, 2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall. This encyclopedia offers a focused overview of this complex and volatile era, the circumstances that led up to war, the underlying causes, its unfolding and consequences. Organized for quick and precise access, more than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation. All the key ideas, events, actions, weapons, individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League, from the OSS to the Africa Corps, from the Chetniks to the Jedburghs, from the battle of Kursk to Operation Mincemeat, from Bill Donovan to Otto Skorzeny, from Gestapo to SMERSH, from Georgi Zhukov to Jean Leclerc, from the 88 gun to the Norden Bombsight. Covers important neglected subjects. The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia. A key section inspects and rates all the major weapons with handy tables for easy comparison. And in recognition of the first large scale participation of women in the war, the volume thoroughly documents their individual and unit contributions to the Allied effort. Finally, the encyclopedia discusses battlefield realities that explain, for example, why the airborne drops at Normandy succeeded and the ones at Arnheim failed. A bibliography, glossary, maps, photographs and weapons and data tables enhance the coverage. Also includes 16 maps. Central Europe Lonnie

Johnson, 1996-10-31 Throughout the Cold War era, the Iron Curtain divided Central Europe into a Communist East and a democratic West, and we grew accustomed to looking at this part of the world in bipolar ideological terms. Yet many people living on both sides of the Iron Curtain considered themselves Central Europeans, and the idea of Central Europe was one of the driving forces behind the revolutionary year of 1989, as well as the deterioration of Yugoslavia and its ensuing wars. Central Europe provides a broad overview and comparative analysis of key events in a historical region that encompasses contemporary Germany, Poland, the Czech Republic, Slovakia, Austria, Hungary, Slovenia, and Croatia. Starting with the initial conversion of the pagan peoples of the region to Christianity around 1000 A.D. and concluding with the revolutions of 1989 and the problems of post-Communist states today, it illuminates the distinctive nature and peculiarities of the historical development of this region as a cohesive whole. Lonnie R. Johnson introduces readers to Central Europe's heritage of diversity.

the interplay of its cultures and the origins of its malicious ethnic and national conflicts History in Central Europe he shows has been epic and tragic Throughout the ages small nations struggled valiantly against a series of imperial powers Ottoman Turkey Habsburg Austria imperial Germany czarist Russia Nazi Germany and the Soviet Union and they lost regularly Johnson s account is present minded in the best sense in describing actual historical events he illustrates the ways they have been remembered and how they contribute to the national assumptions that still drive European politics today Indeed the constant interplay of reality and myth the processes of myth making and remembrance animates much of this history Since the fall of the Iron Curtain in 1989 the unanticipated problems of transforming post Communist states into democracies with market economies the wars in the former Yugoslavia and the challenges of European integration have all made Central Europe the most dynamic and troubled region in Europe In Central Europe Johnson combines a vivid and panoramic narrative of events a nuanced analysis of social economic and political developments and a thoughtful portrait of those myths and memories that have lives of their own and consequences for all of Europe The Second World War, 1939-45 John Frederick Charles Fuller,1954 Books in Series, 1876-1949 R.R.
