Socially Just Mining Jordan Aitken,Rita Armstrong,Vicki Bilro,Andy Fourie,Kylie Macpherson,2022-05-31 In this book we consider ways in which mining companies do and can should respect the human rights of communities affected by mining operations We examine what can and should means and to whom in a variety of mostly Peruvian contexts and how engineers engage in normative practices that may interfere with the communities best interests We hope to raise awareness of the complexity of issues at stake and begin the necessary process of critique of self and of the industry in which an engineer chooses to work This book aims to alert engineering students to the price paid not only by vulnerable communities but also by the natural environment when mining companies engage in irresponsible and often illegal mining practices If mining is to be in our future and if we are to have a future which is sustainable engineering students must learn to mine and support mining in new ways ways which are fairer more equitable and cleaner than today
