**Salvation Goods and Religious Markets** Jörg Stolz, 2008 The idea that religion has to succeed in a market selling salvation goods has proved to be extremely attractive to scholars in sociology and the study of religion Max Weber used the term salvation good to compare different religious traditions Pierre Bourdieu employed the term in order to analyze religious economy And recently an American group of researchers advocating rational choice of religion put the theme at the forefront of current debates This book the fruit of an International Congress in Lausanne in April 2005 brings together leading specialists in the fields of sociology and the study of religion who discuss the terms salvation goods or religious goods and religious market The authors test the applicability of these concepts by using specific examples and they either deliberately advocate or criticize Weberian Bourdieusian or rational choice perspectives

Ammerman, 2007 Social scientists sometimes seem not to know what to do with religion In the first century

of sociology's history as a discipline the reigning concern was explaining the emergence of the modern world and that brought with it an expectation that religion would simply fade from the scene as societies became diverse complex and enlightened As the century approached its end however a variety of global phenomena remained dramatically unexplained by these theories Among the leading contenders for explanatory power to emerge at this time were rational choice theories of religious behavior Researchers who have spent time in the field observing religious groups and interviewing practitioners however have questioned the sufficiency of these market models Studies abound that describe thriving religious phenomena that fit neither the old secularization paradigm nor the equations predicting vitality only among organizational entrepreneurs with strict orthodoxies In this collection of previously unpublished essays scholars who have been immersed in field research in a wide variety of settings draw on those observations from the field to begin to develop more helpful ways to study religion in modern lives The authors examine how religion functions on the ground in a pluralistic society how it is experienced by individuals and how it is expressed in social institutions Taken as a whole these essays point to a new approach to the study of religion one that emphasizes individual experience and social context over strict categorization and data collection

**Innovation and Competition in Zimbabwean Pentecostalism** Ezra Chitando, 2021-01-28 Using the concept of a religious market this volume explores how African Traditional Religions and churches within Prophetic Pentecostalism in Zimbabwe seek to attract and retain members and clients Chapters provide extensive coverage of two of the leading churches namely Emmanuel

Makandiwa's United Family International Church UFIC and Walter Magaya's Prophetic Healing and Deliverance Ministries PHD Contributors also explore the strategies adopted by Pentecostalism in general while others focus on African Traditional Religions. They show that although Prophetic Pentecostalism has gained a significant share of the market in Zimbabwe and in Southern Africa in general it is not without controversy. In particular it has been associated with the abuse of women and exploiting members and clients for financial gain. Innovation and Competition in Zimbabwean Pentecostalism is an important contribution to understanding the marketization of religion. *Alternatives in Mobilization* Jóhanna Kristín Birnir, Nil Seda Şatana, 2022-05-26 This book examines underexplored features of identity and their influence on group mobilization in violent and non-violent political settings. W. E. B. Du Bois and the Sociology of the Black Church and Religion, 1897-1914 Robert A. Wortham, 2017-11-30 W. E. B. Du Bois is the founding figure of the sociological study of the Black Church. His discussion of the six functions of Philadelphia's Black Church in *The Philadelphia Negro* 1899 represented an early example of a functional analysis of a religious group. In *The Negro Church* 1903 he integrated the findings from religious census data, denominational statistics, small area surveys, ethnographic fieldwork, and historical studies to paint a picture of the vibrant role the Black Church played in the African American community. Du Bois discusses the Black Church in three of the essays included in *The Souls of Black Folk* 1903, other sociological essays, and several Atlanta University Conference annual reports. Additionally, Du Bois' perspective on the Black Church and the role of religion in the African American community can be gleaned from various poetic works, prayers, and editorials. W. E. B. Du Bois and the Sociological Study of the Black Church and Religion 1897-1914 showcases a representative sample of classic studies on the Black Church and religion by a pioneer of American sociology. Bourdieu on Religion Terry Rey, 2014-12-05 Pierre Bourdieu was one of the most influential social theorists of our time. He developed a series of concepts to uncover the way society works and to challenge assumptions about what society is. His ideas illuminate how individuals and groups find value and meaning and so have rapidly come to be seen as hugely productive in analysing how religion works in society. *Bourdieu on Religion* introduces students to Bourdieu's key concepts: cultural, social, and symbolic capital, habitus, and field, and his challenge to the structures of social inequality. This study will be invaluable to any student interested in the relationships between religion, class, and social power. **Parish and Place** Tricia Colleen Bruce, 2017 The Catholic Church stands at the forefront of an emergent majority-minority America. *Parish and Place* tells the story of how America's largest religion is responding at the local level to unprecedented cultural, racial, linguistic, ideological, and political diversification. Specifically, it explores bishops' use of personal parishes, parishes formally established not on the basis of territory but purpose. Today's personal parishes serve an array of Catholics drawn together by shared identities and preferences rather than shared neighborhoods. They allow Catholic leaders to act upon the perceived need for named

specialist organizations alongside the more common territorial parish that serves all in its midst *Parish and Place* documents the American Catholic Church's movement away from national parishes and towards personal parishes as a renewed organizational form Tricia Bruce uses in depth interviews and national survey data to examine the rise and rationale behind new parishes for the Traditional Latin Mass for Vietnamese Catholics for tourists and more Featuring insights from bishops priests and diocesan leaders throughout the United States this book offers a rare view of institutional decision making from the top *Parish and Place* demonstrates structural responses to diversity exploring just how far fragmentation can go before it challenges unity
