Sacred Biography Thomas J. Heffernan, 1988 Though medieval saints lives are among the oldest literary texts of Western vernacular culture they are routinely patronized as pious fiction by modern historiography This book demonstrates that to characterize the genre as fiction is to misunderstand the intentions of medieval authors who were neither credulous fools nor men blinded by piety Concentrating on English texts Heffernan reconstructs the medieval perspective and considers sacred biography in relation to the community for which it was written identifies the genre's rhetorical practices and purposes and demonstrates the syncretistic way in which the life of the medieval saint was transformed from oral tales to sacred text In the process Heffernan not only achieves a more contextually accurate understanding of the medieval saints lives but details a new critical method that has important implications for the practice of textual criticism

*The Saint's Life and the Senses of Scripture* Ann W. Astell, 2024-07-15 Through close examination of ancient medieval and modern Lives of the saints Ann W Astell demonstrates how the historical transformation of hagiography as a genre correlates with similar changes in biblical studies Christian hagiography flourished from the fourth to the fifteenth centuries illuminating the gospel through the overlapping forms of exempla and vita Originally the Lives of the saints were understood as hermeneutical extensions of the Bible God authors the saint just as God authors the divinely inspired scriptures During the medieval period a sense of dual authorship between God and the cooperating saint developed paralleling the Scholastic impulse to assign greater agency to the human writers of scripture Then in the sixteenth century powerful new anxieties about historical truth pushed hagiography aside for biography its successor Drawing on her expertise in the history of Christianity and biblical exegesis Astell convincingly shows how this radical shift in hagiography's status the loss of the literal allegorical tropological and anagogical senses of the Lives serves as a bellwether for modern biblical reception
