Fundamental Theology Gerald O'Collins, 2001-06-26

This book is an updated investigation of the central themes of fundamental theology revelation hermeneutics faith and its formulations and the role of authoritative teaching in the Church In a clear and balanced manner Gerald O Collins sums up the best of Roman Catholic teaching since Vatican II Students and others who are reflecting on the nature of their Christian belief will find this book invaluable The unique quality of this work however is its foundation in human experience Before he probes the theological issues O Collins lays down a groundwork for understanding experience It is not an attempt to turn fundamental theology into a subjective science but it is a recognition that the reality of God always intersects with self conscious human beings While it does not touch all of the themes of fundamental theology the book does provide in depth treatment of revelation tradition and inspiration

Comprehensive Handbook of Christian Doctrine John Lawson, 1967 In order to understand the Christian faith in an adult manner all important issues are to be investigated fully and dispassionately To do this purpose of this book It gives a careful outline treatment for the student and thoughtful man of the whole system of Christian doctrine In these pages the reader may find his footing in the subject before he goes on to more technical and controversial writing Every effort therefore has been made to avoid technical jargon yet the book deals with all the main issues without undue oversimplification Where there is important divergence of opinion an effort has been made to cover fairly and equally the leading views of the chief sections of the Church Roman Eastern Anglican and Protestant as well as of radical and conservative views These leading views are placed alongside one another in the spirit of irenic synthesis to allow the reader to make his own thoughtful judgment Every care has been taken in this book to provide comprehensive scriptural proofs for the articles of Christian belief Publisher

Emotions: The Devils Playground Ian J. Bartley, 2013-04-09 I was inspired to write this book due to the things that I have witness over the years with in my self and others that have been a concern with the high rate of drop out amongst Ministers Christian workers and Compassion workers in the church In doing this paper I have sort to research and explore what burnout is and the impact it is having on all professions and work situations In this paper I will access a number of resources that are centred on workplace stress and burnout with in curtain

After Merit Charles Raith II, 2016-07-11 In this study Charles Raith II fills a gap in Reformation era scholarship by analyzing Calvin's teaching on works and reward in light of medieval theological developments surrounding the doctrine of merit While significant analysis has been given to Calvin's doctrine of justification its relation to sanctification the notion of union with Christ and the role of participation there is as yet no sustained analysis of how these teachings are shaped by the most hostile and pervasive of his polemics namely his confrontation with a merit based framework for understanding Christian salvation This volume however interprets Calvin's own theological constructions as contextually determined by the reigning polemics of his day In addition previous scholarship on these topics has largely failed to properly contextualize Calvin's own thought against the background of scholastic theological developments developments that Calvin both accepts and rejects in the formulation of his own theology After Merit addresses these gaps by 1 analyzing Calvin's tracts scriptural commentaries and Institutes to demonstrate Calvin's unique distain for the doctrine of merit among the early Reformers and the pervasiveness of this polemic within his theological program 2 reviewing the scholastic developments surrounding the doctrine of merit from the High to Late Middle Ages as background to Calvin's thought 3 highlighting Calvin's principle problems with the doctrine of merit the competitive causal schema between divine and human causality merit as a basis for justification and good works as deserving of reward and 4 unpacking Calvin's theology of justification sanctification the worth of works and the role of works in salvation as an alternative to the opponents doctrine of merit The volume concludes by reflecting on the reception of Calvin's theology of works and reward in later Reformed thought
