The Semantics of Relationships R. Green, C.A. Bean, Sung Hyon Myaeng, 2002-07-31 Looking at relationships in information retrieval beyond conventional topic matching relationships 12 chapters are presented by Green information studies U of Maryland US Bean National Library of Medicine US and Myaeng information and communication Chungnam National U South Korea The papers explore hyponymic troponymic and meronymic relationships examine the role of relationships in knowledge presentation and reasoning and present applications that make central use of relationships The editors consider this a companion volume to the earlier *Relationships in the Organization of Knowledge* 2001 Annotation c 2003 Book News Inc Portland OR booknews com

The Semantics of Relationships R. Green, C.A. Bean, Sung Hyon Myaeng, 2013-04-18 The genesis of this volume was the participation of the editors in an ACMISIGIR Association for Computing Machinery Special Interest Group on Information Retrieval workshop entitled *Beyond Word Relations* Hetzler 1997 This workshop examined a number of relationship types with significance for information retrieval beyond the conventional topic matching relationship From this shared participation came the idea for an edited volume on relationships with chapters to be solicited from researchers and practitioners throughout the world Ultimately one volume became two volumes The first volume *Relationships in the Organization of Knowledge* Bean Green 2001 examines the role of relationships in knowledge organization theory and practice with emphasis given to thesaural relationships and integration across systems languages cultures and disciplines This second volume examines relationships in a broader array of contexts The two volumes should be seen as companions each informing the other As with the companion volume we are especially grateful to the authors who willingly accepted challenges of space and time to produce chapters that summarize extensive bodies of research The value of the volume clearly resides in the quality of the individual chapters In naming this volume *The Semantics of Relationships An Interdisciplinary Perspective* we wanted to highlight the fact that relationships are not just empty connectives Relationships constitute important conceptual units and make significant contributions to meaning

Probing Semantic Relations Alain Auger, Caroline Barrière, 2010 Semantic relations are at the core of any representational system and are keys to enable the next generation of information processing systems with semantic and reasoning capabilities Acquisition description and formalization of semantic relations are fundamentals in computer based systems where natural language processing is required *Probing Semantic Relations* provides a state of the art of current research trends in the area of knowledge extraction from text using linguistic patterns First published as a Special Issue of *Terminology* 14 1 2008 the current book emphasizes how definitional

knowledge is conveyed by conceptual and semantic relations such as synonymy causality hypernymy generic specific and meronymy part whole Showing the difficulties and successes of pattern based approaches the book illustrates current and future challenges in knowledge acquisition from text This book provides new perspectives to researchers and practitioners in terminology knowledge engineering natural language processing and semantics

Knowledge Engineering and Knowledge Management: Ontologies and the Semantic Web V. Richard Benjamins, 2003-08-02 th This volume contains the papers presented at the 13 International Conference on Knowledge Engineering and Knowledge Management EKAW 2002 held in Sig enza Spain October 1 4 2002 Papers were invited on topics related to Knowledge Acquisition Knowledge Management Ontologies and the Semantic Web A total of 110 papers were submitted Each submission was evaluated by at least two reviewers The selection process has resulted in the acceptance of 20 long and 14 short papers for publication and presentation at the conference an acceptance rate of about 30% In addition one invited paper by a keynote speaker is included This volume contains 8 papers on Knowledge Acquisition 4 about Knowledge Management 16 on Ontologies and 6 papers about the Semantic Web This was the second time EKAW 2000 being the first that the event was organized as a conference rather than as the usual workshop hence the acronym European Knowledge Acquisition Workshop The large number of submissions 110 versus the usual 40 60 is an indication that the scientific community values EKAW as an important event to share experiences in the Knowledge Technology area worthy of being organized as a prestigious international conference Knowledge is the fuel of the upcoming Knowledge Economy Therefore we believe that conferences such as EKAW that focus on Knowledge Technologies will continue to play a major role as a platform for sharing and exchanging experiences and knowledge between key players in the area
