Sentence Discounts and the Criminal Process Ralph J Henham, 2017-09-20 This title was first published in 2001 This volume presents the results of an empirical investigation into the operation of sentence discounts for guilty pleas in the Crown Court It focuses primarily on the nature of judicial compliance with the S48 Criminal Justice and Public Order Act 1994 and those variables in sentence decision making which impact on this process It also examines the relative use made of sentence discounts and the nature and relevance of court of appeal guidance In doing so it raises important theoretical issues relating to sentencing research and addresses the implications for sentencing policy and practice With empirical research on the operation of the sentencing process being comparatively rare the book should make an important contribution to the

existing literature **Sentencing Principles and Magistrates' Sentencing Behaviour** R. J. Henman,1990

Sentencing Policy and Social Justice Ralph Henham,2018-02-22 Sentencing Policy and Social Justice argues that the promotion of social justice should become a key objective of sentencing policy advancing the argument that the legitimacy of sentencing ultimately depends upon the strength of the relationship between social morality and penal ideology It sheds light on how shared moral values can influence sentencing policy at a time when relationships of community appear increasingly fragmented arguing that sentencing will be better placed to make a positive contribution to social justice if it becomes more sensitive to the commonly accepted moral boundaries that underpin adherence to the rule of law The need to reflect public opinion in sentencing has received significant attention more recently with renewed interest in jury sentencing stakeholder sentencing and the involvement of community views when regulating policy The author however advocates a different approach combining a new theoretical focus with practical suggestions for reform and arguing that the contribution sentencing can make to social justice necessitates a fundamental change in the way shared values about the advantages of punishment are reflected in penal ideology and sentencing policy Using examples from international comparative and domestic contexts to advance the moral and ethical case for challenging the existing theories of sentencing the book develops the author's previous theoretical ideas and outlines how these changes could be given practical shape within the context of sentencing in England and Wales It assesses the consequences for penal governance due to increased state regulation of discretionary sentencing power and examines the prospects for achieving the kind of moral transformation regarded as necessary to reverse such a move To illustrate these issues each chapter focuses on a particularly problematic area for contemporary sentencing policy namely the sentencing of women the sentencing of irregular migrants sentencing for offences of serious public disorder and sentencing for financial crime **Sentencing and Criminal Justice** Andrew Ashworth,2005-11-03 Providing unrivalled coverage of one of the most high profile stages in the criminal justice process this book examines the key issues in sentencing policy and practice It provides an up to date account of the legislation on sentencing together with the ever increasing amount of Court of Appeal case law The law in relation to elements of the wider criminal justice system is examined including the prison and probation services The aim of the book is to examine English sentencing law in its context drawing not only upon legislation and the decisions of the courts but also upon the findings of research and on theoretical justifications for punishment This new edition has been extensively revised to integrate the new laws introduced by the Criminal Justice Act 2003 which has brought sweeping reforms into English sentencing
