Our Separate Ways Christina Greene,2006-03-13 In an in depth community study of women in the civil rights movement Christina Greene examines how several generations of black and white women low income as well as more affluent shaped the struggle for black freedom in Durham North Carolina In the city long known as the capital of the black middle class Greene finds that in fact low income African American women were the sustaining force for change Greene demonstrates that women activists frequently were more organized more militant and more numerous than their male counterparts They brought new approaches and strategies to protest leadership and racial politics Arguing that race was not automatically a unifying force Greene sheds new light on the class and gender fault lines within Durham s black community While middle class black leaders cautiously negotiated with whites in the boardroom low income black women were coordinating direct action in hair salons and neighborhood meetings Greene s analysis challenges scholars and activists to rethink the contours of grassroots activism in the struggle for racial and economic justice in postwar America She provides fresh insight into the changing nature of southern white liberalism and interracial alliances the desegregation of schools and public accommodations and the battle to end employment discrimination and urban poverty

GOING OUR SEPARATE WAYS Richard Zukosky,2023-11-20 Two souls meet by chance in passing and weave an intricate tale of the heart They both lead different lives and after the first encounter they go their separate ways Everyone searches for love and so it is with two people in our story how Paul and Kathleen move forward in their relationship Their paths keep crossing and the paths they take the love they share are all part of the human story of love and loss Destiny intervenes and they go on with their lives each time As time passes they are brought together again and again and overtime an intense relationship begins to develop They each learn about themselves as they think about the other While also moving on with their lives While dealing with intense emotions of sorrow anguish and defeat They must make the difficult decisions of losing or fighting on for those they love as the years pass The story is one of love and the determination of their love To what ends will each one go to reconcile their relationship The story highlights their love and the depths at which each one is willing to go to rekindle a relationship The connection is deeply fulfilling To them it is worthwhile as they are trying to find their own peace going through their lives learning what it means to remain steadfast While they search for strength at every turn A deep connection aligns and calls to them in a love that transcends time and space A passion smolders and waits for a reunion and joy Will they conquer the demons of fate which keeps interfering in their lives Their struggle is a classic one as every love story has its troubles Will Paul Kathleen s intense relationship survive What will the legend of these two lovers be Time will tell *Native Apostles* Edward E. Andrews,2013-04-01 As Protestantism expanded across the Atlantic most evangelists were not Anglo Americans

but were members of the groups that missionaries were trying to convert Native Apostles reveals the way Native Americans Africans and black slaves redefined Christianity and addressed the challenges of slavery dispossession and European settlement

Neal, Helen Youngelson-Neal, 2014-05-23 What values do Americans hold dear What happens when real world situations cause those values to conflict To better understand the intellectual map of how American society works Arthur G Neal and Helen Youngelson Neal analyze values prominent in American word and deed These values appear in our nation s formal documents rights and privileges prominently emphasized in the US Constitution and inscribed on the Statue of Liberty They have shaped the historical destiny and indeed include those values most extensively propagated by the general population Using these criteria the authors identify individualism the pursuit of happiness freedom consumerism materialism equality of opportunity technology mastery of the environment quality of marriage and national unity as the core American values Core values provide the raw materials for the construction of contemporary society as a moral community wherever that community is located Such values are clusters of ideas that are central to self identities they generate a sense of collective belonging and membership As such core values define the existing social order and advance a set of ideas for depicting a desirable future The analysis presented here helps us understand contemporary conflicts inherent in the American value system and the problems confronted by Americans as they try to live within the limitations and contradictions of value systems **Official Gazette of the United States Patent Office** United States. Concert of Voices Victor J. Ramraj, 1994-12-30 *Concert of Voices* combines poetry fiction drama and essays in a wide ranging anthology of world literature in English The collection includes a number of established writers who despite their great reputations have often been perceived as standing apart from the main currents of English literature and have rarely found their way into English Department reading lists Most selections though are by a remarkable range of much less established authors In addition to the selections the editor has provided a general introduction and a brief biographical note on each author The intention in *Concert of Voices* is both to provide an alternative text to anthologies of traditional and established writings in which the new writings in English invariably are displaced and marginalized and to complement these anthologies In this regard the word *other* which points up apartness and division was found wanting and dropped from the provisional main title Its omission draws attention to a concept and conviction operative in the construction of the anthology despite historical and cultural specificities the focus of cross cultural and multicultural studies commonalities and affinities

exist among these writings and between writing on both sides of the hegemonic divide The anthology then is not intended simply as an offering of sociological or anthropological insights into these different peoples The pieces in Concert of Voices also demonstrate that imaginative writings can evolve from a cocoon of particularities into what can be called modifying a catch phrase of certain other disciplines Literature Without Borders from the introduction
