September 11 in History Mary L. Dudziak, 2003-10-28 Table of contents **September 11 in History** Mary L. Dudziak, 2003 **9/11: Culture, Catastrophe and the Critique of Singularity** Diana Gonçalves, 2016-10-24 Even though much has been said and written about 9/11 the work developed on this subject has mostly explored it as an unparalleled event a turning point in history This book wishes to look instead at how disruptive events promote a network of associations and how people resort to comparison as a means to make sense of the unknown i e to comprehend what seems incomprehensible In order to effectively discuss the complexity of 9/11 this book articulates different fields of knowledge and perspectives such as visual culture media studies performance studies critical theory memory studies and literary studies to shed some light on 9/11 and analyze how the event has impacted on American social and cultural fabric and how the American society has come to terms with such a devastating event A more in depth study of Don DeLillo's *Falling Man* and Jonathan Safran Foer's *Extremely Loud and Incredibly Close* draws attention to the cultural construction of catastrophe and the plethora of cultural products 9/11 has inspired It demonstrates how the event has been integrated into American culture and exemplifies what makes up the 9/11 imaginary , **American Television's Live Coverage of the 9/11 Attacks** Paul Arras, 2024-03-25 This book analyzes the narratives and news coverage of 9/11 across ABC NBC CBS CNN and Fox News the five most important American television news networks at the time Though America's collective memory of the key events of 9/11 have solidified Paul Arras demonstrates how muddled and chaotic the experience was due to the unique difficulties television journalists faced during the event By examining that morning's media coverage Arras assesses the quality of the live journalism suggesting key differences in the television experience for audiences watching different networks and observing the consequences of differing styles of communication among anchors and other journalists Approaching 9/11 as a unique television experience in American history Arras locates and identifies the building blocks of America's memory of 9/11 while also revisiting many dramatic television moments that have been forgotten Ultimately this book reveals the ways in which television coverage shaped the cultural meaning collective memory and language of 9/11 in ways that continue to resonate throughout American culture **War Time** Mary L. Dudziak, 2013-09-19 When is wartime In common usage it is a period of time in which a society is at war But we now live in what President Obama has called an age without surrender ceremonies where the war on terror remains open ended and presidents announce an end to conflict in Iraq even as conflict on the ground persists It is no longer easy to distinguish between wartime and peacetime In this inventive meditation on war time and the law Mary L. Dudziak argues that wartime is not a discrete or easily defined period of time Indeed America has been engaged in some form of ongoing overseas armed conflict for over a century Yet policy makers and the American public continue to view wars as exceptional events that eventually give way to normal peace times a conception that Dudziak believes has two significant consequences First because war is thought to be

exceptional wartime remains a shorthand argument justifying extreme actions like torture and detention without trial Second ongoing warfare is enabled by the inattention of the American people More disconnected than ever from the wars their nation is fighting public disengagement leaves us without political restraints on the exercise of American war powers Articulating the disconnect between the way we imagine wartime and the practice of American wars Dudziak illuminates the way the changing nature of American warfare undermines democratic accountability yet makes democratic engagement all the more necessary Dust jacket TV Captures Terrorism on September 11 Emma Bernay, Emma Carlson Berne, 2018-08 Primary source photographs combined with strong narration bring the horrific events of 9/11 to readers in historical context People living at the time saw the planes flying into the towers in real time on television changing America's understanding of terrorism Readers will understand the significance behind this event through text and clips of the event itself via the Capstone 4D augmented reality app **The City Since 9/11** Keith Wilhite, 2016-03-04 Charting the intersection of aesthetic representation and the material conditions of urban space The City Since 9/11 posits that the contemporary metropolis provides a significant context for reassessing theoretical concerns related to narrative identity home and personal precarity In the years since the September 11 attacks writers and filmmakers have explored urban spaces as contested sites shaped by the prevailing discourses of neoliberalism homeland security and the war on terror but also haunted by an absence in the landscape that registers loss and prefigures future menace In works of literature film and television the city emerges as a paradoxical space of permanence and vulnerability and a convergence point for anxieties about globalization structural inequality and apocalyptic violence Building on previous scholarship addressing trauma and the spectacle of terror the contributors also draw upon works of philosophy urban studies and postmodern geography to theorize how literary and visual representations expose the persistent conflicts that arise as cities rebuild in the shadow of past ruins Their essays advance new lines of argument that clarify art's role in contemporary debates about spatial practices gentrification cosmopolitanism memory and history nostalgia the uncanny and the abject postmodern virtuality the politics of realism and the economic and social life of cities The book offers fresh readings of familiar post-9/11 novels such as Jonathan Safran Foer's *Extremely Loud & Incredibly Close* but it also considers works by Teju Cole Joseph O'Neill Silver Krieger Colum McCann Ronald Sukenick Jonathan Lethem Thomas Pynchon Colson Whitehead Paul Auster William Gibson Amitav Ghosh and Katherine Boo In addition The City Since 9/11 includes essays on the films *Children of Men* *Hugo* and the adaptation of *Extremely Loud & Incredibly Close* chapters on the television series *The Bridge* *The Killing* and *The Wire* and an analysis of Michael Arad's *Reflecting Absence* and the 9/11 Memorial **The War of My Generation** David Kieran, 2015-08-04 Following the 9/11 attacks approximately four million Americans have turned eighteen each year and more than fifty million children have been born These members of the millennial and post-millennial generation have come of age in a moment marked by increased anxiety about terrorism two protracted wars and policies that have raised questions about the United

States's role abroad and at home Young people have not been shielded from the attacks or from the wars and policy debates that followed Instead they have been active participants as potential military recruits and organizers for social justice amid anti immigration policies as students in schools learning about the attacks or readers of young adult literature about wars The War of My Generation is the first essay collection to focus specifically on how the terrorist attacks and their aftermath have shaped these new generations of Americans Drawing from a variety of disciplines including anthropology sociology cultural studies and literary studies the essays cover a wide range of topics from graphic war images in the classroom to computer games designed to promote military recruitment to emails from parents in the combat zone The collection considers what cultural factors and products have shaped young people's experience of the 9/11 attacks the wars that have followed and their experiences as emerging citizen subjects in that moment Revealing how young people understand the War on Terror and how adults understand the way young people think The War of My Generation offers groundbreaking research on catastrophic events still fresh in our minds

The Cultural Turn in U. S. History James W. Cook, Lawrence B. Glickman, Michael O'Malley, 2012-06-12 A definitive account of one of the most dominant trends in recent historical writing The Cultural Turn in U S History takes stock of the field at the same time as it showcases exemplars of its practice The first of this volume's three distinct sections offers a comprehensive genealogy of American cultural history tracing its multifaceted origins defining debates and intersections with adjacent fields The second section comprises previously unpublished essays by a distinguished roster of contributors who illuminate the discipline's rich potential by plumbing topics that range from nineteenth century anxieties about greenback dollars to confidence games in 1920s Harlem from Shirley Temple's career to the story of a Chicano community in San Diego that created a public park under a local freeway Featuring an equally wide ranging selection of pieces that meditate on the future of the field the final section explores such subjects as the different strains of cultural history its relationships with arenas from mass entertainment to public policy and the ways it has been shaped by catastrophe Taken together these essays represent a watershed moment in the life of a discipline harnessing its vitality to offer a glimpse of the shape it will take in years to come
