Gorman, 2017-06-06 Top notch biblical scholars from around the world and from various Christian traditions offer a fulsome yet readable introduction to the Bible and its interpretation The book concisely introduces the Old and New Testaments and related topics and examines a wide variety of historical and contemporary interpretive approaches including African American Asian and Latino streams Contributors include N T Wright M Daniel Carroll R Stephen Fowl Joel Green Michael Holmes Edith Humphrey Christopher Rowland and K K Yeo among others Questions for reflection and discussion an annotated bibliography and a glossary are included *The Struggle to Understand Isaiah as Christian Scripture* Brevard S. Childs, 2015-09 A key emphasis of Brevard Childs's distinguished career has been to show not only that the canon of Scripture comprises both Old and New Testaments but also that the concept of canon includes the way the Christian church continues to wrestle in every age with the meaning of its sacred texts In this new volume Childs uses the book of Isaiah as a case study of the church's endeavor throughout history to understand its Scriptures In each chapter Childs focuses on a different Christian age using the work of key figures to illustrate the church's changing views of Isaiah After looking at the Septuagint translation Childs examines commentaries and tractates from the patristic Reformation and modern periods His review shows that despite an enormous diversity in time culture nationality and audience these works nevertheless display a family resemblance in their theological understandings of this central Old Testament text Childs also reveals how the church struggled to adapt to changing social and historical conditions often by correcting or refining traditional methodologies while at the same time maintaining a theological stance measured by faithfulness to Jesus Christ In an important final chapter Childs draws out some implications of his work for modern debates over the role of Scripture in the life of the church Of great value to scholars ministers and students this book will also draw general readers into the exciting theological debate currently raging in the Christian church about the faithful interpretation of Scripture *The Oxford Handbook of Textual Criticism of the Bible* Sidnie White Crawford, Tommy Wasserman, 2025-11-12 This handbook provides an overview of the disciplines of textual criticism of the Hebrew Bible and the New Testament as practiced in the twenty first century The first part deals with overarching issues like the formation of the Jewish and Christian canons philosophical presuppositions in the methods and goals of textual criticism the complex relationship between literary criticism and textual criticism and how the related fields of Book History New Material Philology and paratextual criticism both pose challenges and enrich traditional

biblical textual criticism The second part is concerned with the textual criticism of the books of the Hebrew Bible a field which has undergone a paradigm shift in the seventy five years since the discovery of the Judean Desert scrolls The chapters concern the history of textual criticism the bodies of textual evidence and their importance for the text critical task the three critical edition projects now underway and the explosion of digital tools in the twenty first century This part also includes chapters on the Deuterocanon and Septuagint textual criticism The final part concerns the textual criticism of the New Testament and provides chapters concerned with the history of the discipline the Greek manuscripts and the indirect evidence of the text in early versions and citations as well as past and current methods for evaluating this evidence including the Coherence Based Genealogical Method CBGM which is used to produce the Editio Critica Maior and Nestle Aland UBS editions Notably this handbook features two chapters devoted to the teaching of textual criticism of the Hebrew Bible and New Testament

**Israel's Restoration** Ashley Crane, 2008-11-30 Commentators traditionally use a textual critical methodology in examining Hebrew and Greek manuscripts to establish an original reading frequently attributing other variants to scribal error This book proposes a complementary textual comparative methodology that treats each Hebrew and or Greek manuscript with equal value listening to each voice as a possible interpretive trajectory This methodology is applied to the restoration of Israel in Ezekiel 36-39 initially on a micro level examining each verse for intra linguistic and trans linguistic variants frequently finding exegetical reasons for variants The macro application compares Papyrus 967 with extant manuscripts finding the different chapter order and pericope minus 36:23c-38 due to theological reasons This comparative methodology can be used with any study dealing with different manuscripts and versions
