Middle East And Africa:

State-Building in the Middle East and North Africa Mohammad-Mahmoud Ould Mohamedou, 2021-10-21 Why have state building projects across the MENA region proven to be so difficult for so long Following the end of the Ottoman Empire in the early 1920s the countries of the region began a violent and divisive process of state formation But a century later state building remains inconclusive This book traces the emergence and evolution of state building across the MENA region and identifies the main factors that impeded its success the slow end of the Ottoman Empire the experience of colonialism and the rise of nationalistic and religious movements The authors reveal the ways in which the post colonial state proved itself authoritarian and formed on the model of the colonial state They also identify the nationalist and Islamist movements that competed for political leadership across the nascent systems enabling the military to establish a grip on the security apparatus and national economies Finally in the context of the Arab Spring and its conflict filled aftermath this book shows how external powers reasserted their interventionism In outlining the reasons why regional states remained hollow and devoid of legitimacy each of the contributors shows that recent conflicts and crises are deeply connected to the foundational period of one century ago Edited by Mohammad Mahmoud Ould Mohamedou the volume features contributions by stellar scholars including Faleh Abdel Jabar Lisa Anderson Bertrand Badie Fran ois Burgat Benoit Challand Ahmad Khalidi Henry Laurens Bruce Rutherford Jordi Tejel and Ghassan Salam

War and Conflict in the Middle East and North Africa Ariel Ira Ahram, 2020. A conceptually and empirically rich introduction to war and conflict in the MENA.

Statebuilding in the Middle East and North Africa Irene Costantini, 2018-03-26. This book examines the regime changes in Iraq and Libya to unravel the complexity of statebuilding in countries emerging from authoritarianism and conflict in the Middle East and North Africa. Framed in a comparative study of post-2003 Iraq and post-2011 Libya, the book examines changes in key state dimensions: representation and political authority, security and wealth creation and distribution in a continuous dialogue with past trajectories in these two countries. To grasp the nature and degree of these changes, the mechanisms of state formation are explored in light of a statebuilding agenda that in its application from Iraq to Libya has adapted to different political prerogatives. The analysis of Iraq and Libya serves the book's ultimate goal to address the debate on statebuilding from a regional MENA perspective and to lay the ground for the study of other contemporary cases undergoing radical and violent processes of changes such as in Syria and Yemen. The book grapples with problems associated with the difficult process of transition from authoritarianism through conflict and towards peace by focusing on the state, its structure and function. The work is informed by a large quantity of materials collected over the past five years, including secondary literature, policy papers and reports, and semi-structured interviews with key informants on Iraq and Libya. This book will be of much interest to students of statebuilding, Middle Eastern studies, peace and conflict studies, and International Relations in general.

The contents are appropriate for high school and undergraduate students as well as for experts who need a refresher on groups in Africa and the Middle East. Political and Socio-Economic Change in the Middle East and North Africa Rokhsana Bahramitash, Hadi Salehi Esfahani, 2016-04-29 Political and Socio-Economic Change in the Middle East and North Africa examines the shortcomings of the economic development policies in the region before and after the Arab uprisings. Many MENA countries tried to pursue neoliberal policies to boost economic growth. However, the outcome was associated with rising and disproportionate unemployment among the youth and women. The focal point of the book is the role of gender and the ways in which policies translate into economic outcomes. Particular attention is paid to women's entrepreneurship, especially as owners of small and medium enterprises, which, as the authors argue, can potentially reduce unemployment and poverty for the population as a whole. The book offers perspectives on wholesome policies that take account of issues concerning gender and youth and thus contribute to lower unemployment and reduced poverty and inequity.
