Middle Kingdom Poems 1929 1944:

The Middle Kingdom Christopher Morley, 1944 *Twentieth Century American Literature* Warren French, 1980-11-01

Multiple Authorship and the Myth of Solitary Genius Jack Stillinger, 1991-08-15 This is a study of the collaborative creation behind literary works that are usually considered to be written by a single author. Although most theories of interpretation and editing depend on a concept of single authorship, many works are actually developed by more than one author. Stillinger examines case histories from Keats, Wordsworth, Coleridge, Mill, and T. S. Eliot, as well as from American fiction, plays, and films, demonstrating that multiple authorship is a widespread phenomenon. He shows that the reality of how an author produces a work is often more complex than is expressed in the romantic notion of the author as solitary genius. The cumulative evidence revealed in this engaging study indicates that collaboration deserves to be included in any account of authorial achievement.

Bright Cages Christopher Morley, 2015-09-30 Here brought together in one volume for the first time are the best poems of Christopher Morley, best known to the public as a novelist. Morley considered himself first and last a poet, and it is as a poet that he wished to be remembered. From the span of Morley's work, John Bracker has drawn 132 poems that may be said to represent the high points of the poet's art. In addition, the editor has included a number of the translations from the Chinese so much admired by Pearl Buck and Leonard Bacon.
