Mothers Glass:

Mother Is Gold, Father Is Glass Lorelle D. Semley, 2010-11-29 Lorelle D Semley explores the historical and political meanings of motherhood in West Africa and beyond showing that the roles of women were far more complicated than previously thought While in K tu B nin Semley discovered that women were treasurers advisors ritual specialists and colonial agents in addition to their more familiar roles as queens wives and sisters These women with special influence made it difficult for the French and others to enforce an ideal of subordinate women As she traces how women gained prominence Semley makes clear why powerful mother figures still exist in the symbols and rituals of everyday practices **The other glass ceiling** Charles S Areni ,Stephen S Holden, 2014-05-13 The other glass ceiling offers an insightful male perspective to a debate on the lack of work family balance in modern day families Based on research and full of entertaining anecdotes this book challenges the predominant gender roles that expect a mother to care for her family and doubt her commitment to a career while at the same time requiring a father to provide for his family financially and doubting his ability to look after his own children This is the other glass ceiling the one reflected in gender inequity in the family home and preventing equality in parenting The other glass ceiling is perpetuated by both genders equally and the solution requires compromises from both sides Charles Areni and Stephen Holden encourage dads to step up to take on a bigger share of the burden of home duties They encourage mums to let go to let dad get involved in child rearing and to bring to the task his own skills and approaches Breaking through this other glass ceiling will be good for mum good for dad oh and good for the children too **National Glass Budget** ,1913 **Broken Glass** Rebecca A Miles, 2023-02-07 Obsession can be deadly When a fellow student in her glass blowing class drops dead Dr Kate Chambers wants to help the police catch the killer The victim Eugene Rose seemed like a nice kid with a bright future in art collecting Eugene attended the university where Kate works Her connections make her a valuable asset in the investigation and because of her people skills she is invited into situations that Jablonsky would need a warrant for Even though he worries for her safety her psychological insights have proven valuable to his murder cases The deeper they dig the more complicated this case becomes How is a family heirloom tied to the local parish What really happened on a study abroad trip to Italy And how did all of that lead to the untimely death of Eugene Rose Kate and Jablonsky are determined to stop the murderer before other deaths can follow This traditional mystery will keep you guessing all the way to the end Broken Glass is the second book in the Pittsburgh Murder Mystery series however each book can be read as a stand alone or in order of publication **Glass Ceilings and Bottomless Pits** Randy Pearl Albelda, Chris Tilly, 1997 This extraordinarily lucid book demonstrates that women from all walks of life get the short end of the stick because of their gender From welfare mothers to corporate executives Albelda and Tilly show and why the powers that be benefit from scapegoating and marginalizing women Professor Mimi Abramowitz author *Regulating the Lives of Women* A cogent analysis of the economic and social realities for women in the United States across class lines In an age when the

right wing manipulates the dialogue around women's issues to separate middle and upper class women from their poorer sisters this book's facts figures and analysis provide a much needed antidote A Looking-glass for Ladies Lisa Joy Pruitt,2005 Lisa Joy Pruitt offers a new look at women's involvement in the mission movement with a welcome focus on the often overlooked antebellum era Most scholars have argued that the emergence of women as a dominant force in American Protestant missions in the late nineteenth century was an outgrowth of nascent feminist activism in the various denominations This new contribution suggests that the feminization of the later mission movement actually stemmed in large part from images of the degraded Oriental woman that popular evangelical literature had been circulating since the 1790s and that the increasing focus on and involvement of women was supported by male denominational leaders as an important strategy for reaching the world with the Christian gospel In the late eighteenth through the early nineteenth centuries popular evangelical literature began circulating descriptions of women of the Orient designed to illustrate the need of those women for the Christian gospel Such powerful and widely disseminated images demonstrated to young American women their relatively privileged position in society and throughout the nineteenth century led many to support the cause of missions with their money and sometimes their lives A belief in the desperate need of Oriental women for salvation and social uplift was largely responsible for feminizing the American Protestant foreign mission movement A Looking Glass for Ladies American Protestant Women and the Orient in the Nineteenth Century traces the creation and dissemination of images of women who lived in that part of the world known to nineteenth century Westerners as the Orient It examines the emotional power of those images to create sympathy in American women for their sisters in Asia That sympathy catalyzed many evangelical women and men to argue for vocational roles for women both married and single in the mission movement The book demonstrates the ways in which assumptions about the condition and needs of Oriental women shaped American evangelical women's self perceptions as well as the evangelizing strategies of the missionaries and their sending agencies

Through The Looking Glass Dana Becker,2019-05-20 This book offers a comprehensive exploration of the relationship between gender the experience of psychological distress that we currently call borderline personality disorder and the borderline diagnosis as a classification of psychiatric disorder It offers a new emphasis on elements of female socialization as critical to the understanding of *Edgeworth's Harry and Lucy, with an Address to Mothers* Maria Edgeworth,1849

Looking Glass Christina Henry,2020-04-21 In four new novellas Christina Henry returns to the world of Alice and Red Queen where magic runs as freely as secrets and blood *Lovely Creature* In the New City lives a girl with a secret Elizabeth can do magic But someone knows her secret someone who has a secret of his own That secret is a butterfly that lives in a jar a butterfly that was supposed to be gone forever a butterfly that used to be called the Jabberwock Girl in Amber Alice and Hatcher are just looking for a place to rest Alice has been dreaming of a cottage by a lake and a field of wildflowers but while walking blind in a snowstorm she stumbles into a house that only seems empty and abandoned *When I First Came to Town*

Hatcher wasn't always Hatcher Once he was a boy called Nicholas and Nicholas fancied himself the best fighter in the Old City No matter who fought him he always won Then his boss tells him he's going to battle the fearsome Grinder a man who never leaves his opponents alive The Mercy Seat There is a place hidden in the mountains where all the people hate and fear magic and Magicians It is the Village of the Pure and though Alice and Hatcher would do anything to avoid it it lies directly in their path

Glass Ceilings and 100-hour Couples Karine S. Moe, Dianna J. Shandy, 2010 When significant numbers of college educated American women began in the early twenty first century to leave paid work to become stay at home mothers an emotionally charged national debate erupted Karine Moe and Dianna Shandy a professional economist and an anthropologist respectively decided to step back from the sometimes overheated rhetoric around the so called mommy wars They wondered what really inspired women to opt out and they wanted to gauge the phenomenon's genuine repercussions *Glass Ceilings and 100 Hour Couples* is the fruit of their investigation a rigorous accessible and sympathetic reckoning with this hot button issue in contemporary life Drawing on hundreds of interviews from around the country original survey research and national labor force data Moe and Shandy refocus the discussion of women who opt out from one where they are the object of scrutiny to one where their aspirations and struggles tell us about the far broader swath of American women who continue to juggle paid work and family Moe and Shandy examine the many pressures that influence a woman's decision to resign reduce or reorient her career These include the mismatch between child care options and workplace demands the fact that these women married men with demanding careers the professionalization of stay at home motherhood and broad failures in public policy But Moe and Shandy are equally attentive to the resilience of women in the face of life decisions that might otherwise threaten their sense of self worth Moe and Shandy find for instance that women who have downsized their careers stress the value of social networks of running with a pack of smart women who've also chosen to emphasize motherhood over paid work

analysis to inform the process of meeting our numerous and complex development challenges *Canner and Dried Fruit Packer*, 1929 **The Racial Glass Ceiling** Roy L. Brooks, 2017-05-30 A compelling study of a subtle and insidious form of racial inequality in American law and culture Why does racial equality continue to elude African Americans even after the election of a black president Liberals blame white racism while conservatives blame black behavior Both define the race problem in socioeconomic terms mainly citing jobs education and policing Roy Brooks a distinguished legal scholar argues that the reality is more complex He defines the race problem African Americans face today as a three headed hydra involving socioeconomic judicial and cultural conditions Focusing on law and culture Brooks defines the problem largely as racial subordination the act of impeding racial progress in pursuit of nonracist interests Racial subordination is little understood and underacknowledged yet it produces devastating and even deadly racial consequences that affect both poor and socioeconomically successful African Americans Brooks addresses a serious problem in many ways more dangerous than overt racism and offers a well reasoned solution that draws upon the strongest virtues America has exhibited to the world
