THE MYTH OF MOUNT SINAI

Mount Sinai Myth

Thomas L. Thompson, L. Thompson

Mount Sinai Myth:

The Mount Sinai Myth Larry R. Williams, 1990 **The World of Myth** David Adams Leeming, 1992-02-27 Hercules Zeus Thor Gilgamesh these are the figures that leap to mind when we think of myth But to David Leeming myths are more than stories of deities and fantastic beings from non Christian cultures Myth is at once the most particular and the most universal feature of civilization representing common concerns that each society voices in its own idiom Whether an Egyptian story of creation or the big bang theory of modern physics myth is metaphor mirroring our deepest sense of ourselves in relation to existence itself Now in *The World of Myth* Leeming provides a sweeping anthology of myths ranging from ancient Egypt and Greece to the Polynesian islands and modern science We read stories of great floods from the ancient Babylonians Hebrews Chinese and Mayans tales of apocalypse from India the Norse Christianity and modern science myths of the mother goddess from Native American Hopi culture and James Lovelock's Gaia Leeming has culled myths from Aztec Greek African Australian Aboriginal Japanese Moslem Hittite Celtic Chinese and Persian cultures offering one of the most wide ranging collections of what he calls the collective dreams of humanity More important he has organized these myths according to a number of themes comparing and contrasting how various societies have addressed similar concerns or have told similar stories In the section on dying gods for example both Odin and Jesus sacrifice themselves to renew the world each dying on a tree Such traditions he proposes may have their roots in societies of the distant past which would ritually sacrifice their kings to renew the tribe In *The World of Myth* David Leeming takes us on a journey not through a maze of falsehood but through a marvellous world of metaphor metaphor for the story of the relationship between the known and the unknown both around us and within us Fantastic tragic bizarre sometimes funny the myths he presents speak of the most fundamental human experience a part of what Joseph Campbell called the wonderful song of the soul's high adventure *The Encyclopedia of Jewish Myth, Magic & Mysticism* Geoffrey W. Dennis, 2016-02-08 An erudite lively compendium of Jewish magical beliefs practices texts and individuals superb comprehensive belongs in every serious library Richard M Golden Director of the Jewish Studies Program University of North Texas and editor of *The Encyclopedia of Witchcraft The Western Tradition* Jewish esotericism is the oldest and most influential continuous occult tradition in the West Presenting lore that can spiritually enrich your life this one of a kind encyclopedia is devoted to the esoteric in Judaism the miraculous and the mysterious In this second edition Rabbi Geoffrey W Dennis has added over thirty new entries and significantly expanded over one hundred other entries incorporating more knowledge and passages from primary sources This comprehensive treasury of Jewish teachings drawn from sources spanning Jewish scripture the Talmud the Midrash the Kabbalah and other esoteric branches of Judaism is exhaustively researched yet easy to use It includes over one thousand alphabetical entries from Aaron to Zohar Chadash with extensive cross references to related topics and new illustrations throughout Drawn from the well of a great spiritual tradition the secret wisdom within these pages will enlighten and empower you Rabbi Dennis has performed a

tremendously important service for both the scholar and the novice in composing a work of concise information about aspects of Judaism unbeknownst to most and intriguing to all Rabbi Gershon Winkler author of *Magic of the Ordinary Recovering the Shamanic in Judaism* [The Messiah Myth](#) Thomas L. Thompson, L. Thompson, 2009-04-20 Since the eighteenth century scholars and historians studying the texts of the Bible have attempted to distill historical facts and biography from the mythology and miracles described there That trend continues into the present day as scholars such as those of the Jesus Seminar dissect the Gospels and other early Christian writings to separate the Jesus of history from the Christ of faith But with *The Messiah Myth* noted Biblical scholar Thomas L. Thompson argues that the quest for the historical Jesus is beside the point since the Jesus of the Gospels never existed Like King David before him says Thompson the Jesus of the Bible is an amalgamation of themes from Near Eastern mythology and traditions of kingship and divinity The theme of a messiah a divinely appointed king who restores the world to perfection is typical of Egyptian and Babylonian royal ideology dating back to the Bronze Age In Thompson's view the contemporary audience for whom the Old and New Testament were written would naturally have interpreted David and Jesus not as historical figures but as metaphors embodying long established messianic traditions Challenging widely held assumptions about the sources of the Bible and the quest for the historical Jesus *The Messiah Myth* is sure to spark interest and heated debate

The Mythology of Modern Law Peter Fitzpatrick, 2002-09-11 *The Mythology of Modern Law* is a radical reappraisal of the role of myth in modern society Peter Fitzpatrick uses the example of law as an integral category of modern social thought to challenge the claims of modernity which deny the relevance of myth to modern society [World Mythology](#) David Adams Leeming, 2022 Deity Creation The flood The trickster The hero World mythology and cultural myths [The Seductiveness of Jewish Myth](#) S. Daniel Breslauer, 2012-02-01 *The Seductiveness of Jewish Myth* offers a panorama of diverse definitions of myth understandings of Judaism and competing evaluations of the mythic element in religion The contributors focus on the problem of defining myth as a category in religious studies examine modern religion and the role of myth in a secularized world and look at specific cases of Jewish myth from biblical through modern times [The Longing for Myth in Germany](#) George S. Williamson, 2004-07 Since the dawn of Romanticism artists and intellectuals in Germany have maintained an abiding interest in the gods and myths of antiquity while calling for a new mythology suitable to the modern age In this study George S. Williamson examines the factors that gave rise to this distinct and profound longing for myth In doing so he demonstrates the entanglement of aesthetic and philosophical ambitions in Germany with some of the major religious conflicts of the nineteenth century Through readings of key intellectuals ranging from Herder and Schelling to Wagner and Nietzsche Williamson highlights three crucial factors in the emergence of the German engagement with myth the tradition of Philhellenist neohumanism a critique of contemporary aesthetic and public life as dominated by private interests and a rejection of the Bible by many Protestant scholars as the product of a foreign Oriental culture According to Williamson the

discourse on myth in Germany remained bound up with problems of Protestant theology and confessional conflict through the nineteenth century and beyond A compelling adventure in intellectual history this study uncovers the foundations of Germany's fascination with myth and its enduring cultural legacy

The Logic of Incest Seth Daniel Kunin,1995-03-01 The myths of Genesis are the foundation for hundreds of texts written at later diachronically distinct and datable periods Seven texts Genesis itself Genesis Rabbah Pirke deRabbi Eliezer and mediaeval compilations are examined here with five interrelated questions in focus Can structuralist theory be applied usefully to societies conscious of history and change What is the relationship between continuity and transformation as a mythological tradition develops diachronically What role does diachronic development within a myth play in relation to its underlying structure What is the synchronic structure of Israelite or rather biblical myth Are there identifiable patterns of transformation and continuity between biblical myth and the three diachronically distinct levels of rabbinic myth

True Myth James W Menzies,2015-02-26 True Myth examines the meaning and significance of myth as understood by C S Lewis and Joseph Campbell and its place in the Christian faith in a technological society C S Lewis defined Christianity and being truly human as a relationship between the personal Creator and his creation mediated through faith in his son Jesus The influential writer and mythologist Joseph Campbell had a different perspective understanding Christianity as composed of mythical themes similar to those in other religious and secular myths While accepting certain portions of the biblical record as historical Campbell taught the theological and miraculous aspects as symbolic as stories in which the reader discovers what it means to be human today In contrast Lewis presented the theological and the miraculous in a literal way Although Lewis understood how one could see symbolism and lessons for life in miraculous events he believed they were more than symbolic and indeed took place in human history In True Myth James W Menzies skilfully balances the two writers differing approaches to guide the reader through a complex interaction of myth with philosophy media ethics history literature art music and religion in a contemporary world

Jews, Myth and History Alan Silver,2008 Jews Myth and History takes a fresh wide ranging and critical look at the origins beliefs and practices of Judaism

The Body of Myth J. Nigro Sansonese,1994 Long ago the ancestors of the Greeks Romans and Hindus were one people living on the Eurasian steppes At the core of their religion was the shamanic trance a natural state but one in which consciousness achieves a profound level of inner awareness Over the course of millennia the Indo Europeans divided and migrated into Europe and the Indian subcontinent The knowledge of shamanic trance retreated from everyday awareness and was carried on in the form of myths and distilled into spiritual practices most notably in the Indian tradition of yoga J Nigro Sansonese compares the myths of Greece as well as those of the Judeo Christian tradition with the yogic practices of India and concludes that myths are esoteric descriptions of what occurs within the human body especially the human nervous system during trance In this light the myths provide a detailed map of the shamanic state of consciousness that is our natural heritage This book carries on from the works of Carl Jung and Joseph Campbell to show

how the portrayal of consciousness embodied in myth can be extended to a reappraisal of the laws of physics before they are descriptions of the world these laws like myths are descriptions of the human nervous system *Myth & Constantine the Great* Vacher Burch,1927 **Myth and Geology** Luigi Piccardi,W. Bruce Masse,2007 This book is the first peer reviewed collection of papers focusing on the potential of myth storylines to yield data and lessons that are of value to the geological sciences Building on the nascent discipline of geomythology scientists and scholars from a variety of disciplines have contributed to this volume The geological hazards such as earthquakes tsunamis volcanic eruptions and cosmic impacts that have given rise to myths are considered as are the sacred and cultural values associated with rocks fossils geological formations and landscapes There are also discussions about the historical and literary perspectives of geomythology Regional coverage includes Europe and the Mediterranean Afghanistan Cameroon India Australia Japan Pacific islands South America and North America Myth and Geology challenges the widespread notion that myths are fictitious or otherwise lacking in value for the physical sciences BOOK JACKET Myth Analyzed Robert A. Segal,2020-10-13 Comparing and evaluating modern theories of myth this book offers an overview of explanations of myth from the social sciences and the humanities This ambitious collection of essays uses the viewpoints of a variety of disciplines psychology anthropology sociology politics philosophy religious studies and literature Each discipline advocates a generalization about the origin the function and the subject matter of myth The subject is always not what makes any myth distinct but what makes all myths myth The book is divided into five sections covering topics such as myth and psychoanalysis hero myths myth and science myth and politics and myth and the physical world Chapters engage with an array of theorists among them Freud Jung Campbell Rank Winnicott Tylor Frazer Malinowski Levy Bruhl Levi Strauss Harrison and Burkert The book considers whether myth still plays a role in our lives is one of the issues considered showing that myths arise anything but spontaneously They are the result of a specific need which varies from theory to theory This is a fascinating survey by a leading voice in the study of myth As such it will be of much interest to scholars of myth and how it interacts with Sociology Anthropology Politics and Economics

The Myth of the Birth of the Hero Otto Rank,2015-11-01 First published in German in 1909 Otto Rank's original *The Myth of the Birth of the Hero* offered psychoanalytical interpretations of mythological stories as a means of understanding the human psyche Like his mentor Sigmund Freud Rank compared the myths of such figures as Oedipus Moses and Sargon with common dreams seeing in both a symbolic fulfillment of repressed desire In a new edition published thirteen years after the original Rank doubled the size of his seminal work incorporating new discoveries in psychoanalysis mythology and ethnology This expanded and updated edition has been eloquently translated by Gregory C Richter and E James Lieberman and includes an introductory essay by Robert A Segal as well as Otto Rank's 1914 essay *The Play in Hamlet* **The Truth about Jesus; Is He a Myth?** M. M. Mangasarian,2023-09-14 Reproduction of the original The publishing house Megali specialises in reproducing historical works in large print to make reading easier for people with impaired vision The

Truth about Jesus Mangasar Mugurditch Mangasarian,1909 *Sacred Therapy* Estelle Frankel,2005-03-08 In *Sacred Therapy* Estelle Frankel travels to the heart of Jewish mysticism to reveal how people of any faith can draw upon this rich body of teachings to gain wisdom clarity and a deeper sense of meaning in the midst of modern life In an engaging and accessible style Frankel brings together tales and teachings from the Bible the Talmud Kabbalah and the Hasidic traditions as well as evocative case studies and stories from her own life to create an original inspirational guide to emotional healing and spiritual growth **Creation Myths of the World** David A. Leeming,2009-12-18 The most comprehensive resource available on creation myths from around the world their narratives themes motifs similarities and differences and what they reveal about their cultures of origin ABC CLIO s breakthrough reference work on creation beliefs from around the world returns in a richly updated and expanded new edition From the Garden of Eden to the female creators of Acoma Indians to the rival creators of the Basonge tribe in the Congo *Creation Myths of the World An Encyclopedia Second Edition* examines how different cultures explain the origins of their existence Expanded into two volumes the new edition of *Creation Myths of the World* begins with introductory essays on the five basic types of creation stories analyzing their nature and significance Following are over 200 creation myths each introduced with a brief discussion of its culture of origin At the core of the new edition is its enhanced focus on creation mythology as a global human phenomenon with greatly expanded coverage of recurring motifs comparative themes the influence of geography the social impact of myths and more

Reviewing **Mount Sinai Myth**: Unlocking the Spellbinding Force of Linguistics
