Music Teachers' Values and Beliefs Rachael Dwyer,2016-06-03 In Music Teachers Values and

Beliefs Dwyer investigates the relationships between teachers learners and music in music classrooms Using Bourdieu s concepts of habitus and doxa as an interpretive lens the book explores the values and beliefs of four music teachers depicted in richly detailed narratives The narratives are contextualised through the examination of traditions of music and contemporary approaches In the past music education has been shaped by elitist tendencies regarding the types of music worthy of study the ways in which music should be learnt and the purpose of such learning Contemporary approaches to music education have enacted significant change in some regions and systems while others have been slower to leave behind deeply entrenched values beliefs and practices These approaches have been blamed for low rates of participation and

engagement in school music education despite the fact that the majority of young people listen to and enjoy music outside of school This innovative book provides music education researchers and practitioners with a new understanding of the impact of teachers personal values beliefs and experiences of music and music education on classroom practice and the impact this has on students experiences of music education Baroque Woodwind Instruments Paul Carroll, 2017-07-05 The late 17th century through to the end of the 18th century saw rapid progress in the development of woodwind instruments and the composition of a vast body of music for those instruments During this period a large amount of music for domestic consumption was written for a growing amateur market a market which has regrown in the latter part of the 20th century The last 30 years has also seen the standard of performance by professionals on these instruments rise enormously This book provides a guide to the history of the four main woodwind instruments of the Baroque the flute oboe recorder and bassoon and this is complemented by a repertoire list for each instrument It also guides those interested towards a basic technique for playing these instruments a certain level of musical literacy is assumed and it can be used by students professionals and amateurs Advice is also given on buying a suitable reproduction instrument from a market where now virtually any Baroque instrument can be obtained as a faithful copy This is the first book of its kind and has its origins in the wind tutors of the 18th century
