The Challenge of Children's Rights for Canada, 2nd edition Katherine Covell, R. Brian Howe, J.C. Blokhuis, 2018-08-30 More than a quarter of a century has passed since Canada promised to recognize and respect the rights of children under the United Nations Convention on the Rights of the Child. Ratification of the Convention cannot however guarantee that everyone will abandon proprietary notions about children or that all children will be free to enjoy the substance of their rights in every social and institutional context in which they find themselves including and perhaps especially within families. This disconnect remains one of the most important challenges to the recognition of children's rights in Canada. The authors argue that social toxins are as harmful to children's independent welfare and developmental interests as environmental toxins and that both must be eradicated if Canada is to fulfill its commitments under the Convention. They also argue that if Canada wishes to ensure the substance of the rights outlined in the Convention are socially guaranteed an attitudinal or cultural shift is required concerning the moral and legal status of children. This revised expanded and updated edition of the bestselling *Challenge of Children's Rights for Canada* will be of interest to academics, policymakers, parents, teachers, social workers and human service professionals indeed to anyone who cares about and for children.
