Military Justice Procedure United States. War Department, 1945 The Accusation Model Before the International Criminal Court Hanna Kuczyńska, 2015-05-07 This book examines how the functioning of the International Criminal Court has become a forum of convergence between the common law and civil law criminal justice systems Four countries were selected as primary examples of these two legal traditions the United States England and Wales Germany and Poland The first layer of analysis focuses on selected elements of the model of accusation that are crucial to the model adopted by the ICC These are development of the notion of the prosecutor's independence in view of their ties to the countries and the Security Council the nature and limits of the prosecutor's discretionary powers to initiate proceedings before the ICC the reasons behind the prosecutor's choice of both defendants and charges the role the prosecutor plays in the procedure of disclosure of evidence and consensual termination of proceedings and the determinants of the model of accusation used during trial and appeal proceedings The second layer of the book consists in an analysis of the motives behind applying particular solutions to create the model of accusation before the ICC It also shows how the model of accusation gradually evolved in proceedings before the military and ad hoc tribunals ICTY and ICTR Moreover the question of compatibility of procedural institutions is addressed In what ways does adopting a certain element of criminal procedure e.g. discretionary powers of the prosecutor to initiate criminal proceedings influence the remaining procedural elements e.g. the existence of the dossier of a case or the powers of a judge to change the legal classification of the criminal behavior appearing in the indictment

Criminal Courts Aaron Kupchik, 2019-01-15 The social organization of criminal courts is the theme of this collection of articles The volume provides contributions to three levels of social organization in criminal courts 1 the macro level involving external economic political and social forces Joachim J Savelsberg Raymond Michalowski Mary E Vogel John Hagan and Ron Levi 2 the meso level consisting of formal structures informal cultural norms and supporting agencies in an interlocking organizational network Malcolm M Feeley Lawrence Mohr Jo Dixon Jeffrey T Ulmer and John H Kramer and 3 the micro level consisting of interactional orders that emerge from the social discourses and categorizations in multiple layers of bargaining and negotiation processes Lisa Frohmann Aaron Kupchik Michael McConville and Chester Mirsky Bankole A Cole An editorial introduction ties these levels together relating them to a Weberian sociology of law

The Ordering of Justice Patricia M. Baranek, Richard V. Ericson, 1982-01-01 From the point of his arrest through to the final disposition of his case the authors follow the accused as he proceeds through the criminal control system They draw a picture of one who is dependent upon the orders and decisions of the police crown attorney defence lawyer and judge and not a defendant with significant autonomy Substudies conducted under a program of the Centre of Criminology provide empirical material on patrol police detectives crown attorneys and defence lawyers and are complemented by the authors own interviews of accused persons They produce a unique picture of the person who stands accused unlike the official agents who are regular and experienced participants in the criminal process the accused is a one shot player As a dependant he is subject to the orders and decisions of the official criminal control agents he fails to exercise what appear externally as his formal rights because the apparent costs exceed the advantages He complies with police searches fails to remain silent fails to call a third party gives a statement often does not obtain a lawyer routinely accepts his lawyer s advice rarely demands a trial often remains silent in court and very rarely considers an appeal The ordering which the accused meets out of court is reproduced in the public forum of the court Through the display of formal legal rationality there and in the belief that matters could have been a lot worse he experiences the majesty justice and mercy of the criminal process and in turn accords legitimacy to the actions taken against him The authors discuss prospects for changing the criminal process and conclude that the range of reforms that have been advocated and sometimes implemented does not lead to an alteration of the accused s position within the ordering of justice because the system is not truly adversarial Rather it serves the interests of the state in ordering the population as well as professional interests of those who man the system
