The Pleasures of Reading in an Age of Distraction Alan Jacobs, 2011-05-26 In recent years cultural commentators have sounded the alarm about the dire state of reading in America Americans are not reading enough they say or reading the right books in the right way In this book Alan Jacobs argues that contrary to the doomsayers reading is alive and well in America There are millions of devoted readers supporting hundreds of enormous bookstores and online booksellers Oprah's Book Club is hugely influential and a recent NEA survey reveals an actual uptick in the reading of literary fiction Jacobs's interactions with his students and the readers of his own books however suggest that many readers lack confidence they wonder whether they are reading well with proper focus and attentiveness with due discretion and discernment Many have absorbed the puritanical message that reading is first and foremost good for you the intellectual equivalent of eating your Brussels sprouts For such people indeed for all readers Jacobs offers some simple powerful and much needed advice read at whim read what gives you delight and do so without shame whether it be Stephen King or the

King James Version of the Bible In contrast to the more methodical approach of Mortimer Adler's classic *How to Read a Book* 1940 Jacobs offers an insightful accessible and playfully irreverent guide for aspiring readers Each chapter focuses on one aspect of approaching literary fiction poetry or nonfiction and the book explores everything from the invention of silent reading reading responsively rereading and reading on electronic devices Invitingly written with equal measures of wit and erudition *The Pleasures of Reading in an Age of Distraction* will appeal to all readers whether they be novices looking for direction or old hands seeking to recapture the pleasures of reading they first experienced as children **Knowing**

Lockwood has written a useful supportive book which will help teachers and librarians He describes the background and summarises the research and then proposes thoroughly practical programmes Carousel Michael Lockwood has produced an excellent practical overview and analysis of what works in the primary school to promote reading for pleasure Lockwood's work is grounded and valuable to those who need it most teachers in the classroom working hard to engender a love of reading English Drama Media This book is first class It puts the matter very clearly and succinctly and presents a great deal of evidence to support the argument that pleasure is not a frivolous extra but the very heart and essence of what reading is about It also gives readers plenty of ideas for carrying the principle into the classroom and for justifying it This is an excellent piece of work which I hope will find a place on every staffroom bookshelf Philip Pullman English primary school children are less likely to read for pleasure than their counterparts in many other countries This practical and focused book discusses the background to this situation and looks at how government initiatives have tried to address it Drawing on the author's own research project in order to identify good practice in promoting reading for enjoyment the book presents specific activities which teachers can use to develop their own whole school and classroom practice enabling them to put the fun back into reading Each chapter features case study material and provides examples of planning from schools that have successfully created thriving reading cultures through schemes such as reading assemblies book clubs library loyalty cards school book evenings and quizzes There is also an extensive annotated list of print and internet based resources Topics covered include Becoming a reading for pleasure school Promoting a love of reading in the early years Developing reading enjoyment in the later primary years Getting boys reading Promoting Reading for Pleasure in the Primary School is written for all those involved in education who would like to see as many children as possible develop a love of reading It will be particularly relevant for primary teachers teaching assistants trainee teachers advisers and consultants as well as teacher educators and researchers The Psychology of Reading Mildred C. Robeck, Randall R. Wallace, 2017-11-06 The need to know why as well as how children and youth respond as they do to reading instruction has guided the selection of this book's content The second edition of this title originally published in 1990 has retained and elaborated upon the three major themes previously presented that reading is a linguistic process that motivation the affective domain may be as important in learning to read as the cognitive domain and that the reality of learning theory is to be found in the mechanisms of the brain where information is mediated and memory traces are stored The text integrates views from cognitive psychology psycholinguistics and neuropsychology as they relate to reading and writing A learning motivation model is provided to present associative learning conceptualization and self directed reading in a hierarchical relationship with distinct cognitive and affective

components The distinction between beginning and proficient reading is maintained throughout the text **The Pleasure In/of the Text** Fabien Arribert-Narce, Endo Fuhito, Kamila Pawlikowska, 2021 Why do we read What exactly thrills us in the text Drawing on the work of Roland Barthes this collection explores the notion of readerly enjoyment between form and content emotion and reason and escapism and knowledge seeking to understand how literary and ideological pleasures intersect **The Pleasures of Reading. An Address, Etc.** Arthur James Balfour, 1894 **Reading for Pleasure: International Perspectives** Teresa Cremin, Sarah McGeown, 2025-03-19 Growing evidence of the vital role reading for pleasure plays in children and young people's academic outcomes and socio emotional wellbeing has placed it high on the agenda in both educational policy and practice This valuable collection draws upon a range of disciplinary perspectives and methodological approaches to explore how reading for pleasure is experienced and enacted and highlights the implications and benefits of such volitional reading in the lives and learning of children and young people It offers contributions from leading international researchers on current evidence and literature within the field identifying the causes and consequences of reading for pleasure and framing this within the context of understanding readers and applying this to developing effective pedagogical practices With chapters examining how we may shape the reading experience this book is divided into four sections Understanding readers including factors such as motivation gender and identity The nature of texts including fiction sensory and digital texts Pedagogies and practices exploring agency book talk and reading aloud Environments conducive to reading for pleasure including homes school libraries classrooms and communities Presenting diverse and interdisciplinary perspectives this will be a key text for researchers teacher educators and policy makers who wish to become better informed in their thinking discourse and practice when supporting children and young people in learning to read for pleasure The Seven Joys of Reading Mary Wright Plummer, 1916 Reading Still Matters Catherine Sheldrick Ross, Lynne (E.F.) McKechnie, Paulette M. Rothbauer, 2018-03-01 Drawing on scholarly research findings this book presents a cogent case that librarians can use to work towards prioritization of reading in libraries and in schools Reading is more important than it has ever been recent research on reading such as PEW reports and Scholastic's Kids and Family Reading Report proves that fact This new edition of Reading Matters provides powerful evidence that can be used to justify the establishment maintenance and growth of pleasure reading collections both fiction and nonfiction and of readers advisory services The authors assert that reading should be woven into the majority of library activities reference collection building provision of leisure materials readers advisory services storytelling and story time programs adult literacy programs and more This edition also addresses emergent areas of interest such as e reading e writing and e publishing multiple literacies visual texts the ascendancy of young adult fiction and fan fiction A new chapter addresses special communities of YA readers The book will help library administrators and personnel convey the importance of reading to grant funding agencies stakeholders and the public at large LIS faculty who wish to establish and maintain courses in readers advisory will find it of particular interest **An**
