Plotinus The Father Of Western Mysticism:

Plotinus: Road to Reality John M. Rist, 1967 This 1967 study begins with a brief biography of Plotinus and goes on to discuss Plotinus concept of the one the logos and free will

Platonic Mysticism Arthur Versluis, 2017-08-16 Restores the Platonic history and context of mysticism and shows how it helps us understand more deeply the humanities as a whole from philosophy and literature to art In Platonic Mysticism Arthur Versluis clearly and tautly argues that mysticism must be properly understood as belonging to the great tradition of Platonism He demonstrates how mysticism was historically understood in Western philosophical and religious traditions and emphatically rejects externalist approaches to esoteric religion Instead he develops a new theoretical critical model for understanding mystical literature and the humanities as a whole from philosophy and literature to art A sequel to his Restoring Paradise this is an audacious book that places Platonic mysticism in the context of contemporary cognitive and other approaches to the study of religion and presents an emerging model for the new field of contemplative science An important work on the mystical experience delving deep into its history particularly from the Platonic perspective An essential text for anyone interested in mysticism and its relationship to philosophy and creative expression

Andrew Newberg author of How Enlightenment Changes Your Brain The New Science of Transformation The present work the latest from the pen of Arthur Versluis provides a trenchant learned and illuminating analysis of the origins of Western mysticism in the Platonist tradition relayed through such figures as Plotinus and Dionysius the Areopagite down through Meister Eckhart and others while suitably excoriating the attempts of certain modern philosophers and sociologists of religion to deconstruct it from a materialist perspective I found it a rattling good read

Christian Mysticism Dr Kevin Magill, Dr Louise Nelstrop, Mr Bradley B Onishi, 2013-06-28 This book introduces students to Christian mysticism and modern critical responses to it Christianity has a rich tradition of mystical theology that first emerged in the writings of the early church fathers and flourished during the Middle Ages Today Christian mysticism is increasingly recognised as an important Christian heritage relevant to today's spiritual seekers The book sets out to provide students and other interested readers with access to the main theoretical approaches to Christian mysticism including those propounded by William James Steven Katz Bernard McGinn Michael Sells Denys Turner and Caroline Walker Bynum It also explores postmodern re readings of Christian mysticism by authors such as Jacques Derrida Jean Luc Marion and Jean Francois Lyotard The book first introduces students to the main themes that underpin Christian mysticism It then reflects on how modern critics have understood each of them demonstrating that stark delineation between the different theoretical approaches eventually collapses under the weight of the complex interaction between experience and knowledge that lies at the heart of Christian mysticism In doing so the book presents a deliberate challenge to a strictly perennialist reading of Christian mysticism Anyone even remotely familiar with Christian mysticism will know that renewed interest in Christian mystical writers has created a huge array of

scholarship with which students of mysticism need to familiarise themselves This book outlines the various modern theoretical approaches in a manner easily accessible to a reader with little or no previous knowledge of this area and offers a philosophical theological introduction to Christian mystical writers beyond the patristic period important for the Latin Western Tradition Some Exponents of Mystical Religion Rufus M. Jones, 2021-07-06 The chapters of this book were given as a course of Lectures on the Modern Era Lectureship Foundation at the University of Southern California in April 1929 The opening chapter is a fresh attempt to reinterpret the nature and significance of mystical experience It carries on and aims to clarify my position in this field of religion The other chapters are in the main historical illustrations through great personalities of the meaning and value of the mystical approach to God It is believed that each chapter adds something further to the interpretation of mystical experience given in the first chapter so that the book is essentially one coherent whole From the Introduction *Dynamics of Monotheism in Late Antiquity* Guy G. Stroumsa, 2025-07-08 From early Christianity to the emergence of Islam the long late antiquity denotes a truly revolutionary period in the history of religions In many ways religious ritual patterns and theological worldviews were then radically transformed throughout the Near East and the Mediterranean In particular the traditional polytheistic systems collapsed giving way to various forms of monotheism and dualism In *Dynamics of Monotheism in Late Antiquity* Guy G Stroumsa seeks to analyze this multifaceted revolution as a whole rather than focusing as is usually the case on distinct religious communities and traditions such as Judaism Zoroastrianism Gnosticism Christianity Manichaeism and earliest Islam Many of the elements of religious change in our period can be perceived as a *praeparatio coranica* as it were as they set the scene for the advent of Islam The thrust of the book is to identify the key dynamics through which religious change happened in the kaleidoscope of religious conceptions The analysis emphasizes the dialectics between monotheist and dualist perceptions and systems It will also seek to identify the core elements of the Abrahamic religions in the making *A Concise History of Western Philosophy* Mark Anderson, 2025-09-18 Telling the compelling story of western philosophy from Plato to Nietzsche Mark Anderson presents a series of through provoking interpretations of its major figures Anderson traces western thought through the conflict between the order of Being and the change of Becoming Identifying Plato as the premiere philosopher of Being and Nietzsche as the peerless advocate of Becoming the book tracks the transition from a realist worldview to the world of skepticism relativism and nihilism we inhabit today Traveling from the ancient Greeks to modern nihilists Anderson explores the thought of Parmenides and Heraclitus Plato Aristotle and Plotinus Augustine Aquinas and Ockham Descartes Hume and Kant This book is essential reading for anyone interested in Platonism its place in the history of western metaphysics and its power to help us understand the ethical crisis of our postmodern world The Philosophic Basis of Mysticism Thomas Hywel Hughes, 1937 *The Hibbert Journal* Lawrence Pearsall Jacks, George Dawes Hicks, George Stephens Spinks, Lancelot Austin Garrard, H. Prince Ghazi Bin Muhammad, 2020 The present book aims to take on this challenge by looking at the major problems from these various aspects as just mentioned Obviously one short book can hardly address all these problems and suggest solutions without certain simplifications and potentially controversial assertions Nevertheless it can hope to present a systematic analysis and suggested prognosis based on a coherent philosophy As indicated above nothing is more needed in our times and second to spiritual weakening the greatest problem of all facing the Islamic World and indeed the whole world is lack of understanding of the true natures and essences of things This book examines our times from an Islamic philosophical worldview looking at the problems facing the Islamic World in the near past present and future respectively in three mutually complementary parts At the end of each part it suggests holistic and easily applied remedies to the problems it examines In other words and for those who enjoy sonorous German and Greek philosophical terms it examines the Zeitgeist from the Weltanschauung of Islam and suggests panaceas Prince Ghazi bin Muhammad has written a number of books and guides for thinking people and this small but potent work before you sums up many of his most keen and cogent insights and conclusions for that reason this may be his most impactful and motivational work to date The Perfect Whole Horatio Willis Dresser, 1896 The Heart of it Horatio Willis Dresser, 1897 *Divine Mania* Yulia Ustinova, 2017-10-16 Our greatest blessings come to us by way of mania provided it is given us by divine gift says Socrates in Plato's Phaedrus Certain forms of alteration of consciousness considered to be inspired by supernatural forces were actively sought in ancient Greece Divine mania comprises a fascinating array of diverse experiences numerous initiates underwent some kind of alteration of consciousness during mystery rites sacred officials and inquirers attained revelations in major oracular centres possession states were actively sought finally some thinkers such as Pythagoras and Socrates probably practiced manipulation of consciousness These experiences which could be voluntary or involuntary intense or mild were interpreted as an invasive divine power within one's mind or illumination granted by a super human being Greece was unique in its attitude to alteration of consciousness From the perspective of individual and public freedom the prominent position of the divine mania in Greek society reflects its acceptance of the inborn human proclivity to experience alteration of consciousness interpreted in positive terms as god sent These mental states were treated with cautious respect and in contrast to the majority of complex societies ancient and modern were never suppressed or pushed to the cultural and social periphery *Everyday Philosophy* Gene Bammel, 2005-03-03 Philosophy always buries its undertakers Philosophy comes to life in every generation not only because each generation has its distinctive problems but also because the genius of the great minds of the past is pertinent to our current concerns This book applies the thoughts of the great philosophers to medical ethics problems like Transplants Abortion and Euthanasia It compares the visions of Plato and Aristotle with those of the Buddha Confucius and with Darwin Freud and Nietzsche It compares Judaism Christianity and Islam in the face of

contemporary atheism It concludes with maps of the ancient medieval and modern philosophical worlds and shows the relevance of the past when dealing with our current most appalling problems **Icons and the Mystical Origins of Christianity** Richard Temple,1990 *UGC NET Paper 2 _ Philosophy Volume - 3* Mr. Rohit Manglik,2024-03-05 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels *The Christian Mystic Warriors* Henry Epps,2012-08-05 The christian mystic warriors will restore basic bible beliefs back to the church *Tarot Mysticism* Joe Monteleone,2025-01-08 Explore the Mysteries of Tarot Qabalah Numerology and Non Duality in a New Way Joe Monteleone takes you beyond the usual divinatory topics and into the realm of mysticism He presents Aleister Crowley's Thoth Tarot as a tool for mystical insight through which you can experience the deeper mysteries directly Joe reveals a life changing concept your thoughts and the physical world appear to be separate realms but they're not He teaches you how to unify them using the Thoth Tarot and achieve a mystical experience a sort of ecstasis akin to those experienced by monks sages and philosophers of antiquity Tarot Mysticism guides you through the Thoth Tarot providing each card's symbolism and connections to Qabalah numerology and occult philosophy This book also features illustrations practical exercises and historical research to enhance your journey toward enlightenment With Joe's guidance you can traverse different levels of consciousness understand symbolism with higher sophistication and realize the unity between the universe and yourself
