*Schooling the System* Funké Aladejebi, 2021-03-05 In post World War II Canada black women s positions within the teaching profession served as sites of struggle and conflict as the nation worked to address the needs of its diversifying population From their entry into teachers college through their careers in the classroom and administration black women educators encountered systemic racism and gender barriers at every step So they worked to change the system Using oral narratives to tell the story of black access and education in Ontario between the 1940s and the 1980s *Schooling the System* provides textured insight into how issues of race gender class geographic origin and training shaped women s distinct experiences within the profession By valuing women s voices and lived experiences Funk Aladejebi illustrates that black women as a diverse group made vital contributions to the creation and development of anti racist education in Canada As cultural mediators within Ontario school systems these women circumvented subtle and overt forms of racial and social exclusion to create resistive teaching methods that centred black knowledges and traditions Within their wider communities and activist circles they fought to change entrenched ideas about what Canadian citizenship should look like As schools continue to grapple with creating diverse educational programs for all Canadians *Schooling the System* is a timely excavation of the meaningful contributions of black women educators who helped create equitable policies and practices in schools and communities

**Handbook for Achieving Gender Equity Through Education** Susan S. Klein, Barbara Richardson, Dolores A.

Grayson, Lynn H. Fox, Cheris Kramarae, Diane S. Pollard, Carol Anne Dwyer, 2014-05-22 First published in 1985 the Handbook for Achieving Gender Equity Through Education quickly established itself as the essential reference work concerning gender equity in education This new expanded edition provides a 20 year retrospective of the field one that has the great advantage of documenting U S national data on the gains and losses in the efforts to advance gender equality through policies such as Title IX the landmark federal law prohibiting sex discrimination in education equity programs and research Key features include Expertise Like its predecessor over 200 expert authors and reviewers provide accurate consensus research based information on the nature of gender equity challenges and what is needed to meet them at all levels of education Content Area Focus The analysis of gender equity within specific curriculum areas has been expanded from 6 to 10 chapters including mathematics science and engineering Global Diversity Focus Global gender equity is addressed in a separate chapter as well as in numerous other chapters The expanded section on gender equity strategies for diverse populations contains seven chapters on African Americans Latinas/os Asian and Pacific Island Americans American Indians gifted students students with disabilities and lesbian gay bisexual and transgender students Action Oriented All chapters contain practical recommendations for making education activities and outcomes more gender equitable A final chapter consolidates individual chapter recommendations for educators policymakers and researchers to achieve gender equity in and through education New Material Expanded from 25 to 31 chapters this new edition includes more emphasis on male gender equity and on sexuality issues special within population gender equity challenges race ability and disability etc coeducation and single sex education increased use of rigorous research strategies such as meta analysis showing more sex similarities and fewer sex differences and of evaluations of implementation programs technology and gender equity is now treated in three chapters women's and gender studies communication skills relating to English bilingual and foreign language learning and history and implementation of Title IX and other federal and state policies Since there is so much misleading information about gender equity and education this Handbook will be essential for anyone who wants accurate research based information on controversial gender equity issues journalists policy makers teachers Title IX coordinators equity trainers women's and gender study faculty students and parents

**Studies in Art Education**, 2002      Sweet and Sour John Jung, 2010 Sweet and Sour examines the history of Chinese family restaurants in the U S and Canada Why did many Chinese immigrants enter this business around the end of the 19th century What conditions made it possible for Chinese to open and succeed in operating restaurants after they emigrated to North America How did Chinese restaurants manage to attract non Chinese customers given that they had little or no acquaintance with the Chinese style of food preparation and many had vicious hostility toward Chinese immigrants The goal of Sweet and Sour is to understand how the small Chinese family restaurants functioned Narratives provided by 10 Chinese who grew up in their family restaurants in all parts of the North America provide valuable insights on the role that this ethnic business had on their lives Is there any future for this type of

immigrant enterprise in the modern world of franchised and corporate owned eateries or will it soon like the Chinese laundry be a relic of history Excerpts from Reviews I greatly admired and enjoyed Sweet and Sour Life in Chinese Family Restaurants It does an excellent job of going over the historical background on early U S Chinese restaurants unearthing lots of material new to me And the interviews of Chinese restaurateurs opened up a whole new side to the story of what it was like to work and live in these restaurants Andrew Cole Chop Suey A Cultural History of Chinese Food in the United States Sweet and Sour Life in Chinese Family Restaurants tackles the long neglected topic of Chinese food with a focus on Chinese restaurants This well researched thoughtfully conceptualized monograph brings academic rigor and adds historical depth as well as the perspectives of an insightful scholar and a second generation Chinese American to our understanding of the development of Chinese food in the realm of public consumption in the United States and Canada It promises to elevate that understanding to a higher level Through this book I hope consumers at the ubiquitous Chinese restaurants can also gain a deeper appreciation of historical forces and human experiences that have shaped the food they now enjoy Yong Chen Professor of History University of California Irvine San Francisco Chinese 1850 1943 A Trans Pacific Community Sweet and Sour covers many important aspects of the Chinese restaurant business and it is a great contribution to the study of Chinese food in America This area really deserves more attention than it has had Haiming Liu Prof Ethnic Women s Studies Calif State Polytechnic Univ Pomona I am reading your delightful book Sweet and Sour I especially like the Insider Perspectives section Those first hand experiences can generate a lot of potentially testable hypotheses about how the Chinese were able to provision their remote restaurants with exotic ingredients while other ethnic groups could not Susan B Carter Univ of California Riverside Reader Comments You ve made some amazing observations wrote them down with sincerity and I wholeheartedly support you on it You ve brought back some fond memories and I m sure it will touch other folks like myself that have gone through it Dave Chow When reading Sweet and Sour I was struck by how it is both a work of scholarship and a documentation of the experience of Chinese restaurant workers It serves to teach us about their experiences on multiple levels Heather Lee Brings back childhood memories as most of the people interviewed are from Toisan like my family We could always go into a new town drop in at a Chinese restaurant and be welcomed Dad would run out and say they re cousins Rosemary Eng

**Feminism Art Theory** Hilary Robinson, 2015-04-20 Charting over 45 years of feminist debate on the significance of gender in the making and understanding of art the long anticipated new edition of Feminism Art Theory has been extensively updated and reworked Completely revised retaining only one third of the texts of the earlier edition with all other material being new inclusions Brings together 88 revealing texts from North America Europe and Australasia juxtaposing writings from artists and activists with those of academics Embraces a broad range of threads and perspectives from diverse national and global approaches lesbian and queer theory and postmodernism to education and aesthetics Includes many classic texts but is particularly notable for its inclusion of rare and significant material not reprinted

elsewhere Provides a uniquely flexible resource for study and research due to its scale and structure each of the seven sections focuses on a specific area of debate with texts arranged chronologically in order to show how issues and arguments developed over time **Resources in Education** ,1997 Teaching and Learning in Art Education Debrah C.

Criticizing Art: Understanding the Contemporary Terry Barrett,2000 History of art criticism Describing and interpreting art Judging art Writing and talking about art Theory and art criticism Celebrating Pluralism F. Graeme Chalmers,1996-01-01 Educational trends will change and research agendas will shift but art teachers in public institutions will still need to educate all students for multicultural purposes argues Chalmers in this fifth volume in the Occasional Papers series Chalmers describes how art education programs promote cross cultural understanding recognize racial and cultural diversity enhance self esteem in students cultural heritage and address issues of ethnocentrism stereotyping discrimination and racism After providing the context for multicultural art education Chalmers examines the implications for art education of the broad themes found in art across cultures Using discipline based art education as a framework he suggests ways to design and implement a curriculum for multicultural art education that will help students find a place for art in their lives Art educators will find Celebrating Pluralism invaluable in negotiating the approach to multicultural art education that makes the most sense to their students and their communities Interpretation of Art Solomon Fishman,2024-06-12 This volume examines the criticism of five influential British writers on the visual arts John Ruskin Walter Pater Roger Fry Clive Bell and Sir Herbert Read Their works span a period in the history of art that in productivity and significance is more impressive than any other period since the Renaissance Each of these writers possesses extraordinary literary skills Another common tie is their awareness of serving as spokesmen for art to an audience that was mainly indifferent or even hostile Even though the aesthetic outlook of Pater Fry and Bell represents a violent reaction to Ruskin s moralistic and literary interpretation of art

they were no less concerned than he to overcome the national apathy toward art and to assert its cultural importance Sir Herbert Read reconciles the oppositions in the work of his predecessors in an aesthetic philosophy that stresses the social and ethnical values of art without sacrificing the idea of individual expression The major part of Solomon Fishman's study is an examination of the aesthetic theories embodied in the writings of each critic He extracts the theoretical assumptions that form the basis of each writer's critical practice and traces the development of aesthetic doctrine as it was modified by the critic's experience of actual works of art The body of work of these writers is representative of the whole development of modern art criticism and aesthetic theory Although they display great diversity in ideas and taste all five critics were instrumental in shaping the response of the public first of all toward art in general and finally toward modern art Their work represents a unified segment of the larger enterprise to understand and illuminate art and will interest anyone who wishes to enlarge their own understanding This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1963

**Beyond Multicultural Art Education** Rachel Mason,

Doug Boughton, 1999 Multiculturalism is a term that has been much used in educational texts in recent years Its usage is frequently taken for granted in the rhetoric of curriculum literature However it has recently become clear that there are significant variations of interpretations of multiculturalism in different world regions This book takes a new and deeper look at the notion of multiculturalism through the lens of art education In educational terms art is a unique tool for the investigation of cultural values because it transcends the barrier of language and provides visceral and tacit insights into cultural change In order to address the educational interpretations and methods of implementing multiculturalism in different regions of the world this book contains discussion and analysis of perspectives on art education theory and practice from thirteen countries The authors of each chapter are respected multicultural experts in their geographic locations who are well equipped to provide unique insights into the particular issues of multiculturalism viewed from the perspective of art in educational contexts The book as a whole provides tools for the conceptual analysis of contemporary notions linked with multiculturalism such as interculturalism internationalism and globalisation It also provides strategies for art teaching in relation to these ideas While the term multicultural education is problematic this book presents conceptual frameworks that should assist educators to examine their own teaching on issues of equity and diversity that are central to the multicultural education debate

**Intentions in the Experience of Meaning** Raymond W. Gibbs, 1999-09-13

What do our assumptions about authorship matter for our experience of meaning This book examines the debates in the humanities and social sciences over whether authorial intentions can or should constrain our interpretation of language and art Scholars assume that understanding of linguistic and artistic meaning should not be constrained by beliefs about authors and their possible

intentions in creating a human artifact It is argued here that people are strongly disposed to infer intentionality when understanding oral speech written texts artworks and many other human actions Although ordinary people and scholars may infer meanings that diverge from or extend beyond what authors intend our experience of human artifacts as meaningful is fundamentally tied to our assumptions of intentionality This challenges the traditional ideas of intentions as existing solely in the minds of individuals and formulates a new conceptual framework for examining if and when intentions influence the interpretation of meaning

**Perspectives on Learning Assessment in the Arts in Higher Education** Diane Leduc,Sébastien Béland,2021-11-04 Drawing on theoretical and empirical insights from art teachers in Canada and Europe this edited volume explores the question of how learning in the arts can be effectively and fairly assessed in the context of higher education The chapters consider a rich variety of assessment practices across music visual and plastic arts performing arts design fashion dance and music and illustrate how knowledge competencies skills and progress can be viably and fairly assessed Contextual challenges to assessment are also considered in depth and particular attention is paid to the challenges of reconciling teaching in the arts aimed at an intuitive transformation of the student and assessing learning that takes on its meaning in subjectivity and sensitivity This text will benefit researchers academics and educators in higher education with an interest in assessment in the artistic disciplines and in the topic of creativity more broadly Those specifically interested in educational assessment policy and the visual arts will also benefit from this book
