**Joan C. Beal, Morana Lukač, Robin
Straaijer**

Pluricentric Languages Differing Norms In Different Nations:

Pluricentric Languages Michael G. Clyne, 1992 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students researchers and practitioners in all of the social and language related sciences carefully selected book length publications dealing with sociolinguistic theory methods findings and applications It approaches the study of language in society in its broadest sense as a truly international and interdisciplinary field in which various approaches theoretical and empirical supplement and complement each other The series invites the attention of linguists language teachers of all interests sociologists political scientists anthropologists historians etc to the development of the sociology of language

Pluricentric Languages Michael Clyne, 2012-05-24 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students researchers and practitioners in all of the social and language related sciences carefully selected book length publications dealing with sociolinguistic theory methods findings and applications It approaches the study of language in society in its broadest sense as a truly international and interdisciplinary field in which various approaches theoretical and empirical supplement and complement each other The series invites the attention of linguists language teachers of all interests sociologists political scientists anthropologists historians etc to the development of the sociology of language

Language Standardization and Language Variation in Multilingual Contexts Nicola McLelland, Hui Zhao, 2021-11-24 This important contribution to the sociolinguistics of Asian languages breaks new ground in the study of language standards and standardization in two key ways in its focus on Asia with particular attention paid to China and its neighbours and in the attention paid to multilingual contexts The chapters address various kinds of sometimes hidden multilingualism and examine the interactions between multilingualism and language standardization offering a corrective to earlier work on standardization which has tended to assume a monolingual nation state and monolingual individuals Taken together the chapters in this book thus add to our understanding of the ways in which multilingualism is implicated in language standardization as well as the impact of language standards on multilingualism The introduction Chapter 6 and Chapter 8 are free to download as open access publications under a CC BY NC licence You can access them here Introduction <https://zenodo.org/record/5749388> YaiwuNDP3cs Chapter 6 <https://zenodo.org/record/5749522> Yaiw9DP3cs Chapter 8 <https://zenodo.org/record/5749586> Yai0RNDP3cs

Manual of Standardization in the Romance Languages Franz Lebsanft, Felix Tacke, 2020-01-20 Language standardization is an ongoing process based on the notions of linguistic correctness and models This manual contains thirty six chapters that deal with the theories of linguistic norms and give a comprehensive up to date description and analysis of the standardization processes in the Romance languages The first section presents the essential approaches to the concept of linguistic norm ranging from antiquity to the present and includes individual chapters on the notion of linguistic norms and correctness in classical grammar and rhetoric in the Prague School in the linguistic theory of Eugenio Coseriu in sociolinguistics as well as in pragmatics cognitive and discourse

linguistics The second section focuses on the application of these notions with respect to the Romance languages It examines in detail the normative grammar and the normative dictionary as the reference tools for language codification and modernization of those languages that have a long and well established written tradition i e Romanian Italian French Catalan Spanish and Portuguese Furthermore the volume offers a discussion of the key issues regarding the standardization of the minor Romance languages as well as Creoles Variation and Change in Postcolonial Contexts Rita Calabrese, J. K. Chambers, Gerhard Leitner, 2015-10-13 This volume addresses recent issues concerning language change and standardization in postcolonial settings The book brings together experts from North America Africa Asia and the insular areas of Australia and Trinidad and Tobago and discusses aspects of language variation in the emergence of new varieties The approaches range from linguistic diagnostics and related methodologies to the most accredited interpretative theories on the evolution of New Englishes The book includes a section on emerging varieties of English in new media and special focus has been given to those new varieties of Philippine and Nigerian English spoken in a non canonical post colonial context represented by the city of Turin Italy The result is a collection of studies that illuminate issues of language variability from different perspectives in order to contribute to the lengthy debate on language contact diversification speciation and standardization *Language Planning and Language Policy* Ping Chen, Nanette Gottlieb, 2013-10-11 Examines the major issues of language planning and policy in Japan Mainland China Hong Kong Taiwan Korea and Vietnam particularly those relating to the selection of official language script and written language **The Pluricentricity Debate** Stefan Dollinger, 2019-05-23 This book unpacks a 30 year debate about the pluricentricity of German It examines the concept of pluricentricity an idea implicit to the study of World Englishes which expressly allows for national standard varieties and the notion of pluri areality which seeks to challenge the former Looking at the debate from three angles methodological theoretical and epistemological the volume draws on data from German and English with additional perspectives from Dutch Luxembourgish Swedish Danish and Norwegian to establish if and to what degree pluri areality and pluricentricity model various sociolinguistic situations adequately Dollinger argues that pluri areality is synonymous with geographical variation and as such no match for pluricentricity Instead pluri areality presupposes an atheoretical supposedly neutral data driven linguistics that violates basic science theoretical principles Three fail safes are suggested the uniformitarian hypothesis Popper s theory of falsification and speaker attitudes to avoid philological incompatibilities and terminological clutter This book is of particular interest to scholars in sociolinguistics World Englishes Germanic languages and linguists more generally World Englishes Kingsley Bolton, Braj B. Kachru, 2006 **Macau's Languages in Society and Education** Andrew J. Moody, 2021-03-18 This book examines the role of English within education and society in the quickly changing city of Macau Macau s multilingual language ecology offers the unique opportunity to examine language planning and policy issues within a small speech community The languages within the ecology include several Chinese varieties such as Cantonese Putonghua and Hokkien

European languages like Portuguese and English and a number of Asian languages that include among others Burmese Filipino languages Japanese Timorese etc As the smallest city in South China s Pearl River Delta Macau has sought to maintain cultural and linguistic independence from its larger neighbours and independence has been built upon an historic commitment to multilingualism and cultural plurality As economic development and globalisation offer new opportunities to a growing middle class the sociolinguistics of a small society constrain and influence the language policies that the territory seeks to implement Macau s multilingual and pluralistic response to language needs within the territory echoes historical responses to similar challenges and suggests that small communities function sociolinguistically in ways that differ from larger communities The Oxford Handbook of the French Language Wendy Ayres-Bennett,Mairi McLaughlin,2024-07-08

This volume provides the first comprehensive reference work in English on the French language in all its facets It offers a wide ranging approach to the rich varied and exciting research across multiple subfields with seven broad thematic sections covering the structures of French the history of French axes of variation French around the world French in contact with other languages second language acquisition and French in literature culture arts and the media Each chapter presents the state of the art and directs readers to canonical studies and essential works while also exploring cutting edge research and outlining future directions The Oxford Handbook of the French Language serves both as a reference work for people who are curious to know more about the French language and as a starting point for those carrying out new research on the language and its many varieties It will appeal to undergraduate and graduate students as well as established scholars whether they are specialists in French linguistics or researchers in a related field looking to learn more about the language The diversity of frameworks approaches and scholars in the volume demonstrates above all the variety vitality and vibrancy of work on the French language today *Linguistic Ecology and Language Contact* Ralph Ludwig,Steve Pagel,Peter Mühlhäusler,2019 This book revisits and updates the concept of linguistic ecology outlining applications to a variety of contact situations worldwide

Standard Languages and Multilingualism in European History Matthias Hüning,Ulrike Vogl,Olivier Moliner,2012 Explores the roots of Europe s struggle with multilingualism This book argues that over the centuries the pursuit of linguistic homogeneity has become a central aspect of the mindset of Europeans It offers an overview of the emergence of a standard language ideology and its relationship with ethnicity territorial unity and social mobility **Normative Language Policy**

Leigh Oakes,Yael Peled,2018 This book proposes an integrated framework for investigating the ethics of language policy in liberal democracies in a global era **The Position of the German Language in the World** Ulrich Ammon,2019-08-08

The Position of the German Language in the World focuses on the global position of German and the factors which work towards sustaining its use and utility for international communication From the perspective of the global language constellation the detailed data analysis of this substantial research project depicts German as an example of a second rank language The book also provides a model for analysis and description of international languages other than English It offers a

framework for strengthening the position of languages such as Arabic Chinese French Portuguese Spanish and others and for countering exaggerated claims about the global monopoly position of English This comprehensive handbook of the state of the German language in the world was originally published in 2015 by Walter de Gruyter in German and has been critically acclaimed Suitable for scholars and researchers of the German language the handbook shows in detail how intricately and thoroughly German and other second rank languages are tied up with a great number of societies and how these statistics support or weaken the languages functions and maintenance

Exploring Second-Language Varieties of English and Learner Englishes Joybrato Mukherjee, Marianne Hundt, 2011-05-25 The articles in this volume are intended to bridge what Sridhar and Sridhar 1986 have called the paradigm gap between traditional SLA research on the one hand and research into institutionalised second language varieties in former colonial territories on the other Since both learner Englishes and second language varieties are typically non native forms of English that emerge in language contact situations it is high time that they are described and compared on an empirical basis in order to draw conceptual and theoretical conclusions with regard to their form function and acquisition The present collection of articles places special emphasis on empirical evidence obtained from large scale analyses of computerised corpora of learner Englishes such as the International Corpus of Learner English and of second language varieties of English such as the International Corpus of English It addresses questions such as Are the phenomena we find in ESL and EFL varieties features or errors or How common and wide spread are features across contact varieties of English

Germanic Language Histories 'from Below' (1700-2000) Stephan Elspaß, Nils Langer, Joachim Scharloth, Wim Vandenbussche, 2011-07-26 Focusing on the sociolinguistic history of Germanic languages the current volume challenges the traditional teleological approach of language historiography The 30 contributions present alternative histories of ten big as well as small Germanic languages and varieties in the last 300 years Topics covered in this book include language variation and change and the politics of language contact and choice seen against the background of standardization processes of written and oral text genres and from the viewpoint of larger sections of the population

The Routledge Handbook of Linguistic Prescriptivism Joan C. Beal, Morana Lukač, Robin Straaijer, 2023-05-05 This Handbook provides a comprehensive and cutting edge overview of the field of linguistic prescriptivism Mapping the current status quo of the field and marking its two decade transformation into a serious field of study within linguistics this volume addresses both the value and the methods of studying prescriptivism It covers Theoretical and methodological approaches from historical to experimental approaches and including corpus based methods and attitudes research Contexts in which prescriptive efforts can be both observed and studied including education technology the media language planning and policies and everyday grassroots practices Geographical contexts of prescriptivism featuring chapters on inner and outer circle Englishes English as a Lingua Franca as well as prescriptivism in the context of other world languages including minority and endangered languages With contributions from an international line up of leading and rising star scholars in the

field The Routledge Handbook of Linguistic Prescriptivism marks the evolution of linguistics as a fully self aware discipline and will be an indispensable guide for students and researchers in this area **A Glossary of Old Syrian** Joaquin

Sanmartín,2024-06-05 A Glossary of Old Syrian is the first of two volumes aimed at the completion of a lexicographical index of the Old Syrian linguistic continuum This glossary gives a picture or map of the Old Syrian lexicon as it can be extracted and reconstructed from the available sources from the Old Akkadian Eblatic through the Old and Middle Babylonian corpora Old Syrian can be defined most appropriately as a diachronically conservative geographically pluricentric and pragmatically multilayered linguistic cluster Therefore the present work pays special attention to the distribution of lexical data along diatopic and diastratic criteria In view of the enormous amount of material and the dispersion of the data this glossary focuses on the most representative textual corpora of the Old Syrian linguistic landscape The bibliographical references are kept deliberately succinct and as a rule restricted to the classic works that may be easily found in every Assyriological or Semitic library public or private and that will redirect the users to their sources Since the Old Syrian lexicography remains uncertain the leading interpretative opinions are included alongside the most relevant comparative Semitic material A Glossary of Old Syrian offers a clear picture of the current state of this field and is intended to serve as a reference work in support of future study **Language Loyalty, Continuity and Change** Rakhmiel Peltz,Harold F. Schiffman,2006-01-01

This short volume provides a comprehensive and synoptic view of Joshua A Fishman s contributions to international sociolinguistics The two integrative essays provide readers with the essential understandings of Fishmanian sociolinguistics and his contributions to Yiddish scholarship An up to date comprehensive bibliography prepared by Gella Schweid Fishman as well as Fishman s own concluding sentiments complement the integrative essays *Language Endangerment* David Bradley,Maya Bradley,2019-11-21 Investigates the endangerment of languages and the loss of traditional cultural diversity and how to respond

Pluricentric Languages Differing Norms In Different Nations: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels enthraling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have captivated audiences this year. Pluricentric Languages Differing Norms In Different Nations : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Pluricentric Languages Differing Norms In Different Nations : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Pluricentric Languages Differing Norms In Different Nations : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
