Tsygankov,2025-06-26 This clear and comprehensive text explores the past thirty years of Soviet Russian international relations comparing foreign policy formation under Gorbachev Yeltsin Medvedev and Putin Challenging conventional views of Moscow s foreign policy Andrei Tsygankov shows that definitions of national interest depend on visions of national identity and is rooted both in history and domestic politics Yet the author also highlights the role of the external environment in affecting the balance of power among competing domestic groups Drawing on both Russian and Western sources Tsygankov shows how Moscow s policies have shifted under different leaders visions of Russia s national interests He gives an overview of the ideas and pressures that motivated Russian foreign policy in six different periods the Gorbachev era of the late 1980s the liberal Westernizers era under Kozyrev in the early 1990s the relatively hardline statist policy under Primakov the more pragmatic course of limited cooperation under Putin and then Medvedev and the assertive policy Putin has implemented since his return to power most importantly in his invasion of Ukraine which began in 2022 **The Japanese Empire** ,1910 **Modern Korea and Its Others** Vladimir Tikhonov,2015-11-19 The period spanning the 1880s to 1945 was a crucially important formative time for Korea during which understandings of modernity were largely shaped by the images of Korea s neighbours to the east west and north China Japan and Russia represented at some moments modern threats but also denoted a range of alternative modernity possibilities and ultimately provided a model for Korea s pre colonial and colonial modernity This book explores the way in which modern Korea perceived its geographic neighbours from the 1890s until 1945 It shows that Korea s modern nationalism was at the same time internationalist in its orientation as the vision of Korea s ideal place in the world and brighter national future was often linked to the examples positive and negative threats perceived and real and allies abroad Exploring the importance of the international knowledge and experience for the formation of the Korean nationalist paradigms it offers nuance to the existing picture of the international connections and environment of the Korean national movements It shows that the picture of Japan inside the anti Japanese independence movement of the colonial period was more complicated than simple hatred of the invaders modern achievements of Japan were admired even by anti colonial nationalists as a possible model for Korea The book also demonstrates the extent to which Chinese and Soviet revolutions influenced the thinking of modern Korean intellectuals across the whole ideological spectrum Introducing new sources

presented in English for the first time and including themes such as race and ethnicity global revolution and gender this book will be of great interest to students and scholars of Korean East Asian and Russian history as well as historians of the colonial modern era more generally
