Dostoevsky's Conception of Man Peter McGuire Wolf, 1997-10 Dostoevsky's novels have contributed to a conception of man that reverberates in the conclusions of prominent twentieth century philosophical anthropologists Max Scheler Martin Heidegger Jean Paul Sartre Maurice Merleau Ponty and Albert Camus among others have admitted that the works of Dostoevsky had an influence on the manner in which they learned to conceive of human nature and the world in which humans live Our aim in this dissertation is to ask what is there in the novels of Dostoevsky concerning the nature of man of which certain philosophers could claim that in their philosophical conceptions of man they were positively influenced by him The main thesis is substantiated with a careful analysis of four novels Notes From the House of the Dead Zapiski iz mertvogo doma Notes From the Underground Zapiski iz podpol'ia Crime and Punishment Prestuplenie i nakazanie and The Brothers Karamazov Brat'ia Karamazovy These novels were chosen partly because I have come to the conclusion that these novels more than others concretely show in what sense the leading characters appear to

have made themselves be what they had freely chosen to be under the circumstances in which they had to live and that they were fully aware of the responsibility they had to bear for the implications and consequences of what they had thus decided. Based upon a close reading four interpretive chapters employ the most significant criticism from English Russian and French literary scholarship. Dostoevsky's philosophical conception of man is compared and contrasted with the conception that Scheler and Heidegger hold i.e. that freedom is man's essence. Sartre's atheistic humanism and Camus' thought. The following conclusions are consonant with Dostoevsky's work: freedom is constitutive for the being or the mode of being; essence of man it is an inalienable duty; one must become oneself. Man strives to overcome himself and to exceed his freedom but in so doing invariably loses it. Man exceeds himself only in the sense that he realizes an ideal human possibility. The Dostoevskian man reveals not only the absence of human nature but also the enormous power which man possesses for achieving his ideal human possibility.

The Orthodox Christian World Augustine Casiday, 2012-08-21. Over the last century unprecedented numbers of Christians from traditionally Orthodox societies migrated around the world. Once seen as an oriental or eastern phenomenon, Orthodox Christianity is now much more widely dispersed and in many parts of the modern world one need not go far to find an Orthodox community at worship. This collection offers a compelling overview of the Orthodox world covering the main regional traditions of Orthodox Christianity and the ways in which they have become global. The contributors are drawn from the Orthodox community worldwide and explore a rich selection of key figures and themes. The book provides an innovative and illuminating approach to the subject ideal for students and scholars alike.

The Power of Language and Rhetoric in Russian Political History Richard S. Wortman, 2017-11-30. This book examines the rhetorical force of certain key words in the discourses of Russian state political thought and literature. It shows how terms for cultured conduct, kulturnost, political affection, love, liubov, joy, radost, etc., personhood, lichnost, truth, pravda, and geographical integrity, tselnost, assumed almost sacral meaning. It considers how these terms took on a life of their own imposing the designs of the Russian state and defining the hopes of educated society in the process. By exploring the usage of these words in a wide range of texts, Richard Wortman provides glimpses into the ideas and feelings of leading figures and thinkers in Russian history from Peter the Great to Alexander Herzen and Nicholas Berdiaev as well as writers like Mikhail Lermontov, Ivan Turgenev, and Fedor Dostoevsky, giving a sense of the intellectual and emotional universe they inhabited. *The Power of Language and Rhetoric in Russian Political History* provides both students and scholars with a specific focus through which to approach Russian culture and history. This book is essential reading for students of Russian government, thought, literature, and political action.

The Imperial Russian Project Alfred J.
