Himalaya region at the center of geopolitical and geo economics cooperation and rivalry thus highlighting its significance in Asian politics It offers a comprehensive analysis of the complicated geo political and geo economic competition in the Himalayan region by inviting experts from both South Asia and China to contribute chapters It also balances the west centered views on the great power rivalry by introducing cultural perspective and small state perspective The broad approach adopted in the book with focus on all important countries expands the scope of readership beyond specific academic community The book will interest academics policy makers journalists general reader and students of Asian politics

Global Power Shifts and Strategic Transition in Asia N. S. Sisodia,V. Krishnappa,2009 Papers presented at the 10th Asian Security Conference held at New Delhi on 4th February 2008 *Redefining Regional Power in International Relations* Miriam Prys,2012 This book examines the concept of regional power in international relations Using the emerging powers of India and South Africa as the case studies it explores how regional powers simultaneously differ and share common features The book develops a method to classify and evaluate different types of regional powers and applies this typology to contemporary case studies of India and South Africa Regional power is often expected to have a positive influence on region specific problems of conflict economic deprivation and political instability In reality an achievement expectations gap can be seen in many regional powers which can be analysed and understood through observable variation in regional power The author discovers that in addition to the management of the internal regional order regional powers have to establish individuality whilst fitting into the global international environment altering both regional dynamics and creating variance in the level of control within the region Elucidating concepts and definitions this book is an accessible and in depth study that both introduces key concepts and provides a framework for the future study of regional power in international relations *Redefining Regional Power in International Relations* will be of interest to students and scholars of regionalism and international relations *Journal of the Asiatic Society of Bangladesh* ,1991 **China's Soft Power Diplomacy in South Asia** B. M. Jain,2017-06-06 China s Soft Power Diplomacy Myth or Reality examines the Chinese version of soft power both in conceptual and operational terms and explores its myriad implications for India in particular and South Asia in general The book investigates how the institutionalization of cultural soft power would help China project its image as a benign and responsible stakeholder in order to reshape the current international system with its notion of harmonious world order based on Chinese characteristics This book traces the origin of China s engagement with South Asian states from historical political economic and security perspectives in order to better understand the dynamics of its South Asia policy It illuminates the core reasons to explain why China s soft power initiatives in South Asia are least appealing and convincing to India while they are welcomed by smaller nations of the region More pertinently the book addresses complexities and nuances of China s soft power instruments given the psycho cultural and geopsychological peculiarities of the South Asian region For this it focuses on how the Sino Pakistan axis constitutes a potential challenge to India s leadership role and influence in South Asia

Asian Studies, 1991 *State, Security, and Cyberwar* Thangjam K. Singh, Sanjay K. Jha, 2025-08-08 This book examines the complex interactions amongst states and security apparatuses in the contemporary global order and the prospect of peace with the emergence of cyberwarfare. Analysing why states consider cyberspace as a matter of security and strategic concerns, it looks forward to a possible foundation of cyberpeace in the international system. It examines the idea of cyber territory, population governance and sovereignty along with that of nation states referring to great, middle and small powers. The book explores the strategic and security aspects of cyberspace along with the rational behaviours of states in the domain. It explains the militarisation and weaponisation of cyber technologies for strategic purpose and traces the progression of cyber war and its impact on global stability. The last section of the book examines the possibility of building peace in the cyber domain with the endeavours of the international community to safeguard cyber sovereignty and promote stability in the digital sphere. It also discusses India's position on digital security, cyberwarfare and the pursuit of cyberpeace. The book offers valuable insights for students, researchers, practitioners, stakeholders working in and on military and strategic affairs, peace and conflict studies and global politics as well as interested general readers.

The Trade Policy of Emerging Powers Laura Mahrenbach, 2013-09-12 As emerging powers deepen their involvement in world trade and global governance, it is crucial to explore the what and the why of their strategic choices vis-à-vis the World Trade Organization. This book does just that, examining the trade policy decisions of two emerging power states, Brazil and India, since 2001. In this timely work, Laura Carsten Mahrenbach develops a broad-based analytical framework which addresses trade policy within EP states in their regions and on the global level. The findings underline the importance of examining domestic factors when trying to understand strategic decisions by emerging powers. They also have important implications for our understanding of the role of emerging power states in global trade governance.

The European Union and Emerging Powers in the 21st Century Sven Biscop, 2016-02-11 The emergence of new powers fundamentally questions the traditional views on international relations. Multilateralism or security as a range of countries now competes for regional and global leadership economically, politically, technologically and militarily. As the focus of international attention shifts from the Atlantic to the Pacific, the European states in particular are seen to lose influence relative to the emerging economic powerhouses of China, Russia, India and Brazil. European nations find themselves too small to engage meaningfully with these continent-sized powers and in an increasingly multipolar world are concerned their influence can only continue to decline. This book analyses the shifts in the structure of global power and examines the threats and opportunities they bring to Europe. Leading European Contributors reflect on how the EU can utilise collective strength to engage and compete with rapidly developing nations. They examine perceptions of the EU among the emerging powers and the true meaning and nature of any strategic partnerships negotiated. Finally, they explore the shape and structure of the international system in the 21st century and how the EU can contribute to and shape it.

India's Foreign Policy and Regional Multilateralism Arndt Michael, 2013-02-07 The

book provides a novel analytical perspective on regional multilateralism in South Asia and its neighbouring regions and covers the genesis evolution and status quo of the four major regional organizations *The Pearson Guide to the Combined Defence Services Examination* Thorpe, **World Affairs Companion** Gerald Segal,1991-08-15 Combining compact histories of the enduring conflicts of the 20th century with up to date assessment of pivotal issues and regions this is a reference work covering current world affairs
