

Sabotage A Study In Industrial Conflict

Geoff Brown

Sabotage A Study In Industrial Conflict:

Sabotage Geoff Brown, 1977-02-01 **Sabotage** Geoffrey Frederick Brown, 1977 **Strikes--a Study in Industrial Conflict** Kenneth Guy Jack Charles Knowles, 1952 **Work Place Sabotage** Gerald Mars, 2019-03-25 This title was first published in 2001 The examples cited in this study of sabotage in the working environment range from sophisticated tricks played in Western factories to natural reactions to inferior or unhealthy working practices in for example Malaysia and India The book contains articles from various contributors which cover numerous topics within the subject including crime and punishment in the factory employee and organizational sabotage and management techniques to prevent sabotage

Strikes and Revolution in Russia, 1917 Diane P. Koenker, William G. Rosenberg, 2014-07-14 More than seventy years since the Bolsheviks came to power there is still no comprehensive study of workers activism in history s first successful workers revolution *Strikes and Revolution in Russia 1917* is the first effort in any language to explore this issue in both quantitative and qualitative terms and to relate strikes to the broader processes of Russia s revolutionary transformation Diane Koenker and William Rosenberg not only provide a new basis for understanding essential elements of Russia s social and political history in this critical period but also make a strong contribution to the literature on European labor movements Using statistical techniques but without letting methodology dominate their discussion the authors examine such major problems as the mobilization of labor and management factory relations perceptions the formation of social identities and the relationship between labor protest and politics in 1917 They challenge common assumptions by showing that much strike activity in 1917 can be understood as routine but they are also able to demonstrate how the character of strikes began to change and why Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 [Handbook Global History of Work](#) Karin Hofmeester, Marcel van der Linden, 2017-11-20 Coffee from East Africa wine from California chocolate from the Ivory Coast all those every day products are based on labour often produced under appalling conditions but always involving the combination of various work processes we are often not aware of What is the day to day reality for workers in various parts of the world and how was it in the past How do they work today and how did they work in the past These and many other questions comprise the field of the global history of work a young discipline that is introduced with this handbook In 8 thematic chapters this book discusses these aspects of work in a global and long term perspective paying attention to several kinds of work Convict labour slave and wage labour labour migration and workers of the textile industry but also workers organisation strikes and motivations for work are part of this first handbook of global labour history written by the most

renowned scholars of the profession *A Bibliography of British Industrial Relations 1971-1979* George Sayers Bain,J. D. Bennett,1985-12-05 The bibliography contains references to literature on British industrial relations published in the years 1971 to 1979 inclusive It includes books periodical articles theses government publications pamphlets and any other relevant publications As well as general material on industrial relations the bibliography includes material on employee attitudes and behaviour employee organisation employers and their organisation collective bargaining industrial conflict industrial democracy the labour market training employment unemployment labour mobility pay conditions and the role of the state in industrial relations It is cross referenced and has an author index It is a supplement to the volume compiled by George Bain and Gillian Woolven published by the Press in 1979 and for the years since 1980 is itself updated by annual articles in the British Journal of Industrial Relations The material is arranged by subject and chronologically within that framework

Shop Floor Culture and Politics in Egypt Samer S. Shehata,2009-10-05 Ethnographic study of textile factory workers in Alexandria Egypt **The SAGE Handbook of the Sociology of Work and Employment** Stephen Edgell,Heidi Gottfried,Edward Granter,2015-12-03 The SAGE Handbook of the Sociology of Work and Employment is a landmark collection of original contributions by leading specialists from around the world The coverage is both comprehensive and comparative in terms of time and space and each state of the art chapter provides a critical review of the literature combined with some thoughts on the direction of research This authoritative text is structured around six core themes Historical Context and Social Divisions The Experience of Work The Organization of Work Nonstandard Work and Employment Work and Life beyond Employment Globalization and the Future of Work Globally the contours of work and employment are changing dramatically This handbook helps academics and practitioners make sense of the impact of these changes on individuals groups organizations and societies Written in an accessible style with a helpful introduction the retrospective and prospective nature of this volume will be an essential resource for students teachers and policy makers across a range of fields from business and management to sociology and organization studies Nonviolent Action Ronald M. McCarthy,Gene Sharp,Brad Bennett,2013-07-04 This comprehensive guide to research sources and theories about nonviolent action as a technique of struggle in social and political conflicts discusses the methods and techniques used by groups in various encounters Although violence and its causes have received a great deal of attention nonviolent action has not received its due as an international phenomenon with a long history An introduction that explains the theories and research used in the study provides a practical guide to this essential bibliography of English language sources The first part of the book covers case study materials divided by region and subdivided by country Within each country materials are arranged chronologically and topically The second major part examines the methods and theory of nonviolent action principled nonviolence and several closely related areas in social science such as conflict analysis and social movements The book is indexed by author and subject Carbon Democracy Timothy Mitchell,2013-06-25 A brilliant revisionist argument that places oil companies at the

heart of 20th century history and of the political and environmental crises we now face Guardian A sweeping overview of the relationship between fossil fuels and political institutions from the industrial revolution to the Arab Spring Financial Times Oil is a curse it is often said that condemns the countries producing it to an existence defined by war corruption and enormous inequality Carbon Democracy tells a more complex story arguing that no nation escapes the political consequences of our collective dependence on oil It shapes the body politic both in regions such as the Middle East which rely upon revenues from oil production and in the places that have the greatest demand for energy Timothy Mitchell begins with the history of coal power to tell a radical new story about the rise of democracy Coal was a source of energy so open to disruption that oligarchies in the West became vulnerable for the first time to mass demands for democracy In the mid twentieth century however the development of cheap and abundant energy from oil most notably from the Middle East offered a means to reduce this vulnerability to democratic pressures The abundance of oil made it possible for the first time in history to reorganize political life around the management of something now called the economy and the promise of its infinite growth The politics of the West became dependent on an undemocratic Middle East In the twenty first century the oil based forms of modern democratic politics have become unsustainable Foreign intervention and military rule are faltering in the Middle East while governments everywhere appear incapable of addressing the crises that threaten to end the age of carbon democracy the disappearance of cheap energy and the carbon fuelled collapse of the ecological order In making the production of energy the central force shaping the democratic age Carbon Democracy rethinks the history of energy the politics of nature the theory of democracy and the place of the Middle East in our common world

Workers and Labour in a Globalised Capitalism Maurizio Atzeni,2013-11-25 An introduction to work and society for undergraduate and postgraduate students This new text brings together international experts on work and employment from a range of disciplines to debate key themes and issues related to work in a globalised economy The Politics of Protest P.

Joyce,2002-09-23 Peter Joyce provides a comprehensive account of the extra parliamentary political activity that has taken place in Great Britain since 1970 The issues discussed include demonstrations direct action counter cultural protest industrial unrest urban disorder and politically motivated violence The book concludes with an examination of the extent to which the United Kingdom s liberal democrat political system has been undermined by the response of the state to these activities Risk Management, 2 Volume Set Gerald Mars,David Weir,2021-03-01 First published in 2000 Risk Management

is a two volume set comprised of the most significant and influential articles by the leading authorities in the studies of risk management The volumes includes a full length introduction from the editor an internationally recognized expert and provides an authoritative guide to the selection of essays chosen and to the wider field itself The collections of essays are both international and interdisciplinary in scope and provide an entry point for investigating the myriad of study within the discipline *Working the Phones* Jamie Woodcock,2016-11-20 Shortlisted for the BBC Radio 4 Thinking Allowed Award for

Ethnography 2017 Winner of the 2016 Labor History Best Book prize Over a million people in the UK work in call centres and the phrase has become synonymous with low paid and high stress work dictatorial supervisors and an enforced dearth of union organisation However rarely does the public have access to the true picture of what goes on in these institutions For Working the Phones Jamie Woodcock worked undercover in a call centre to gather insights into the everyday experiences of call centre workers He shows how this work has become emblematic of the shift towards a post industrial service economy and all the issues that this produces such as the destruction of a unionised work force isolation and alienation loss of agency and ominously the proliferation of surveillance and control which affects mental and physical well being of the workers By applying a sophisticated radical analysis to a thoroughly international 21st century phenomenon Working the Phones presents a window onto the methods of resistance that are developing on our office floors and considers whether there is any hope left for the modern worker today

Risk Management Gerald Mars, David T. H. Weir, 2020-06-18 First published in 2000 Risk Management is a two volume set comprised of the most significant and influential articles by the leading authorities in the studies of risk management The volumes includes a full length introduction from the editor an internationally recognized expert and provides an authoritative guide to the selection of essays chosen and to the wider field itself The collections of essays are both international and interdisciplinary in scope and provide an entry point for investigating the myriad of study within the discipline

Historical Studies in Industrial Relations, 2005 **Strikes** Richard Hyman, 1989-03-15 A study concentrating on the sociology of industrial conflict and focusing on the causes of industrial disputes and their meanings for those involved The author has aimed to present the views and theories of others dealing mainly with Britain but including some international comparisons

Secrecy and Tradecraft in Educational Administration Eugenie A. Samier, 2014-02-03 During the last couple of decades there has been an expansion in a number of related and overlapping fields producing evidence of covert activities toxic cultures destructive leadership styles micropolitics ethical problems in organisations and administration abusive power and authority and many other topics of dysfunctional management and leadership studies that frequently make reference to secretive and deceptive behaviour In this book Eugenie A Samier draws on a range of disciplines including education psychology administration and management studies and organizational theory to provide a comprehensive examination of the ways in which organisational leaders and administrators carry out their roles in a secretive or deceptive manner Samier presents a theory of covert administration that can be used to provide an analysis and interpretation of secretive and deceptive activity inform decision making both theoretically and practically offer a means of diagnosing errant management using secretive and deceptive practices provide a general set of guidelines for determining when clandestine activities may be legitimate and moral Alongside a detailed presentation of the theory of covert administration the book explores covert administration in practice factors leading to it and the results of attempts to combat its many forms It will be key reading for researchers and postgraduates with an

interest in the field as well as administrators and policy makers

Organizational Behaviour and Work Fiona

Wilson, 2010-01-21 This edition provides a critical approach to the study of work and organizational behaviour questioning what organizational behaviour is and how it has been researched and discussed
