Sacred Ways Of Knowledge Sources Of Life:

The Sacred Peggy V. Beck, 1990 **Contemporary American Indian Literatures and the Oral Tradition** Susan Berry Brill de Ramírez, 1999-07-01 Because American Indian literatures are largely informed by their respective oral storytelling traditions they may be more difficult to understand or interpret than the more text based literatures with which most readers are familiar In this insightful new book Susan Berry Brill de Ram rez addresses the limitations of contemporary criticism and theory in opening up the worlds of story within American Indian literatures proposing instead a conversive approach for reading and understanding these works In order to fully understand American Indian literatures Brill de Ram rez explains that the reader must become a listener reader an active participant in the written stories To demonstrate this point she explores literary works both by established Native writers such as Sherman Alexie N Scott Momaday Leslie Marmon Silko and Luci Tapahonso and by less well known writers such as Anna Lee Walters Della Frank Lee Maracle and Louis Owens Through her literary engagements with many poems novels and short stories she demonstrates a new way to read and understand the diverse body of American Indian literatures Brill de Ram rez s conversive approach interweaves two interconnected processes co creating the stories by participating in them as listener readers and recognizing orally informed elements in the stories such as verbal minimalism and episodic narrative structures Because this methodology is rooted in American Indian oral storytelling traditions Native voices from these literary works are able to more directly inform the scholarly process than is the case in more textually based critical strategies Through this innovative approach Brill de Ram rez shows that literature is not a static text but an interactive and potentially transforming conversation between listener readers storyteller writers and the story characters as well Her book furthers the discussion of how to read American Indian and other orally informed literatures with greater sensitivity to their respective cultural traditions and shows that the immediacy of the relationship between teller story and listener can also be experienced in the relationships between writers literary works and their listener readers Honoring the Medicine Kenneth S.
